

1
00:00:05,670 --> 00:00:04,309
go no go set they just go command go lse

2
00:00:07,749 --> 00:00:05,680
got about four minutes until the cameras

3
00:00:12,709 --> 00:00:07,759
start but i'm going red crew league

4
00:00:14,470 --> 00:00:12,719
there's a go flight manager and tc's ago

5
00:00:19,830 --> 00:00:14,480
issue command vsm requested state to

6
00:00:24,470 --> 00:00:22,470
bsm vehicle state is pre-flight system

7
00:00:28,230 --> 00:00:24,480
is pressurizing

8
00:00:30,870 --> 00:00:28,240
prop tanks reading 750

9
00:00:32,470 --> 00:00:30,880
prop tanks are now reading 7

10
00:00:34,150 --> 00:00:32,480
75

11
00:00:36,069 --> 00:00:34,160
they are within limits

12
00:00:41,510 --> 00:00:36,079
all temperatures and pressures looking

13
00:00:47,510 --> 00:00:44,069

prop iso valve is open thrusters feed

14

00:00:52,069 --> 00:00:47,520

press reading 772

15

00:00:52,079 --> 00:00:59,990

burp sequence

16

00:01:04,950 --> 00:01:02,549

gncb is still aligning

17

00:01:14,149 --> 00:01:04,960

we're in countdown

18

00:01:19,270 --> 00:01:17,429

vehicle covering

19

00:01:24,310 --> 00:01:19,280

the vehicle should be translating

20

00:01:24,320 --> 00:01:34,069

the vehicle is descending five solutions

21

00:01:52,389 --> 00:01:36,550

nicely

22

00:01:56,310 --> 00:01:54,870

very good
