It's my reason to get up every morning, and accomplish our mission, knowing that we are leaving a better world

14

00:02:01,438 --> 00:02:04,307

They might someday, be the ones driving my rocket.

15

00:02:04,307 --> 00:02:16,019

I promise myself every morning that I'll do everything humanly possible to get back to them safe and sound at t
