

MARS SMALL FACE FLIGHT CENTER

Jim Bridenstine
NASA Administrator

1
00:00:00,480 --> 00:00:42,390

[Music]

2
00:00:46,560 --> 00:00:44,790

and when we launch SLS and when we

3
00:00:48,210 --> 00:00:46,570

launch Orion it's going to be

4
00:00:49,440 --> 00:00:48,220

game-changing for our country it's going

5
00:00:50,729 --> 00:00:49,450

to enable us to get back to the moon

6
00:00:54,890 --> 00:00:50,739

we're gonna build the Gateway we're

7
00:01:20,680 --> 00:01:13,330

[Music]

8
00:01:22,780 --> 00:01:20,690

this unique microgravity environment is

9
00:01:24,940 --> 00:01:22,790

a great place to demonstrate basic

10
00:01:26,290 --> 00:01:24,950

scientific principles and to stimulate

11
00:01:28,810 --> 00:01:26,300

the critical thinking and

12
00:01:37,200 --> 00:01:28,820

problem-solving students need to have an

13
00:01:49,470 --> 00:01:47,100

[Music]

14

00:01:52,320 --> 00:01:49,480

we want to make a difference in human

15

00:01:54,450 --> 00:01:52,330

deep-space exploration we must push

16

00:01:56,970 --> 00:01:54,460

together as citizens of Earth to push

17

00:01:57,540 --> 00:01:56,980

presents deeper into space than ever

18

00:02:02,590 --> 00:01:57,550

before
