

1  
00:00:00,000 --> 00:00:09,890

[music]

2  
00:00:09,890 --> 00:00:11,890

Hi, I'm Kelley Easley. I work for NASA

3  
00:00:11,890 --> 00:00:13,890

at the Michoud Assembly Facility in New Orleans

4  
00:00:13,890 --> 00:00:17,890

I'm the Lead of the Production Support Systems Manger group

5  
00:00:17,890 --> 00:00:19,890

This is my daughter Erin.

6  
00:00:19,890 --> 00:00:22,430

Hi, I'm Erin Easley and I was an intern

7  
00:00:22,430 --> 00:00:25,400

last summer in the Resident Manger's Office.

8  
00:00:25,400 --> 00:00:27,740

I've been working out at Michoud for 38 years

9  
00:00:27,740 --> 00:00:30,440

I started out with Martin Marietta, Lockheed Martin

10  
00:00:30,440 --> 00:00:34,310

and then I came on board at the end of the shuttle program

11  
00:00:34,310 --> 00:00:36,310

working for NASA on Artemis.

12  
00:00:36,310 --> 00:00:38,120

I really Enjoy it.

13  
00:00:38,120 --> 00:00:40,690

I've had a lot of good opportunities working on those programs.

14

00:00:40,690 --> 00:00:42,690

I've learned a lot!

15

00:00:42,690 --> 00:00:44,690

I think it has been an amazing experience.

16

00:00:44,690 --> 00:00:48,030

I really enjoyed working with my Dad this past summer

17

00:00:48,030 --> 00:00:50,030

at Michoud. It was nice to see

18

00:00:50,030 --> 00:00:52,030

and fully understand more

19

00:00:52,030 --> 00:00:55,670

about his job, and what he does on a day to day basis.

20

00:00:55,670 --> 00:00:58,600

it was also nice to have someone to talk to after work

21

00:00:58,600 --> 00:01:01,410

about my day and what I was doing,

22

00:01:01,410 --> 00:01:03,410

and who I had met, and have someone who actually

23

00:01:03,410 --> 00:01:05,410

could relate and understand

24

00:01:05,410 --> 00:01:09,210

then know who I was talking about or what I was talking about.

25

00:01:09,210 --> 00:01:11,455

Usually for father's day

26

00:01:11,455 --> 00:01:14,291

we'll invite my grandfather over to

27

00:01:14,291 --> 00:01:18,595

boil some shrimp and hang out, but unfortunately

28

00:01:18,662 --> 00:01:21,031

due to Coronavirus, it looks

29

00:01:21,031 --> 00:01:24,501

like it will just be us having a Barbecue.

30

00:01:24,501 --> 00:01:26,500

making some food and dropping some

31

00:01:26,500 --> 00:01:28,500

food to drop off at my grandfather's house

32

00:01:28,500 --> 00:01:32,142

so that he also can appreciate father's day.

33

00:01:32,142 --> 00:01:36,146

I just want to say Happy Father's day to all the NASA dad's out there.

34

00:01:39,716 --> 00:01:38,148

[music]

35

00:01:39,716 --> 00:01:41,418

Hi, my name is Mario Hall

36

00:01:41,418 --> 00:01:43,049

and I work at the NASA Michoud

37

00:01:43,050 --> 00:01:45,410

Assembly Facility. I work for S3

38

00:01:45,410 --> 00:01:47,424

as a power plant engineer.

39  
00:01:47,424 --> 00:01:49,420  
I want to introduce you to my two daughters

40  
00:01:49,420 --> 00:01:51,420  
Amber Christine and Ashley.

41  
00:01:51,420 --> 00:01:54,297  
Hi, my name is Ashley Guidry

42  
00:01:54,297 --> 00:01:55,699  
and I'm Mario Hall's Daughter.

43  
00:01:55,699 --> 00:01:58,602  
i work at the NASA Michoud Assembly Facility

44  
00:01:58,602 --> 00:02:00,237  
as a Manufacturing Engineer for

45  
00:02:00,237 --> 00:02:02,230  
the Boeing Company in Final Assembly.

46  
00:02:02,230 --> 00:02:04,230  
Hi, my name is Amber Hall

47  
00:02:04,230 --> 00:02:06,230  
and I'm also Mario Hall's daughter.

48  
00:02:06,230 --> 00:02:09,179  
I work with S3 in the Environmental Department

49  
00:02:09,179 --> 00:02:11,170  
I started working here in 1983

50  
00:02:11,170 --> 00:02:13,783  
I've been here for about 37 years

51  
00:02:13,783 --> 00:02:15,780  
Starting with the shuttle program

52  
00:02:15,780 --> 00:02:19,656  
and now we are moving to the new Artemis Program.

53  
00:02:19,656 --> 00:02:21,650  
I enjoy the facility very much.

54  
00:02:21,650 --> 00:02:24,427  
It's been very fun for me to be here

55  
00:02:24,427 --> 00:02:26,420  
and very pleased.

56  
00:02:26,420 --> 00:02:29,933  
God pleased me to be also here

57  
00:02:29,933 --> 00:02:32,769  
to have my family over here now, with me.

58  
00:02:32,869 --> 00:02:35,739  
I was inspired to work for Michoud

59  
00:02:35,739 --> 00:02:37,574  
just simply because it was always something

60  
00:02:37,574 --> 00:02:39,570  
that was exposed to us growing up.

61  
00:02:39,570 --> 00:02:41,570  
if a shuttle was coming in, it was going

62  
00:02:41,570 --> 00:02:43,513  
to do a flyover. it was always

63  
00:02:43,513 --> 00:02:45,510

"Hey Guys, come outside and check it out!"

64

00:02:45,510 --> 00:02:47,510

This is a space shuttle that is attached

65

00:02:47,510 --> 00:02:49,510

to an External Fuel tank that we build

66

00:02:49,510 --> 00:02:51,021

over at Michoud, where I work.

67

00:02:51,021 --> 00:02:53,020

we had outreach programs in my grammar

68

00:02:53,020 --> 00:02:55,020

school and my Dad help Facilitate it.

69

00:02:55,020 --> 00:02:57,020

he would bring patches and we would dress up

70

00:02:57,020 --> 00:02:59,020

as astronauts for space camp for a week.

71

00:02:59,020 --> 00:03:01,020

so, it was just something that was always

72

00:03:01,020 --> 00:03:03,020

around and we always got to experience it.

73

00:03:04,201 --> 00:03:07,304

I'm excited to be working as part of the Artemis Generation

74

00:03:07,304 --> 00:03:09,300

It makes me proud to be able to follow

75

00:03:09,300 --> 00:03:10,607

in my Father's footsteps.

76

00:03:10,607 --> 00:03:12,642

He worked during the shuttle generation

77

00:03:12,642 --> 00:03:16,279

and my sister and I get to carry on his legacy

78

00:03:16,279 --> 00:03:18,270

by working on the Artemis Project.

79

00:03:18,348 --> 00:03:20,270

Working for the Artemis Program

80

00:03:20,270 --> 00:03:22,270

makes me very proud and excited.

81

00:03:22,270 --> 00:03:24,120

I know it's something that's going to be

82

00:03:24,170 --> 00:03:25,689

in history books for a long time.

83

00:03:25,689 --> 00:03:29,059

Seeing it first hand is something that's quite humbling.

84

00:03:29,059 --> 00:03:32,262

Luckily for us, we have a family unit here

85

00:03:32,262 --> 00:03:34,130

so we all get to experience it together.

86

00:03:34,130 --> 00:03:36,260

To me, it has been very fun to be in the

87

00:03:36,260 --> 00:03:38,260

Artemis Program.

88

00:03:38,260 --> 00:03:40,470

Having my two daughters working with me

89

00:03:40,470 --> 00:03:43,440

It made me so proud because

90

00:03:43,440 --> 00:03:45,242

our legacy of the family will continue

91

00:03:45,242 --> 00:03:47,100

for the next generation.

92

00:03:47,100 --> 00:03:49,100

OK, this year during the pandemic

93

00:03:49,100 --> 00:03:50,347

the only changes we're going to have

94

00:03:50,347 --> 00:03:52,916

on Father's day, Ashley is going to have to cook us dinner.
