

1  
00:00:06,005 --> 00:00:06,806  
>> Having a rocket that

2  
00:00:06,806 --> 00:00:08,808  
flies high, performs well,

3  
00:00:08,808 --> 00:00:10,043  
and lands safely is

4  
00:00:10,043 --> 00:00:11,144  
the goal of NASA's

5  
00:00:11,144 --> 00:00:13,213  
Student Launch Competition.

6  
00:00:13,213 --> 00:00:14,381  
But having a rocket that

7  
00:00:14,381 --> 00:00:16,116  
also looks really cool

8  
00:00:16,116 --> 00:00:17,050  
means having a rocket

9  
00:00:17,050 --> 00:00:19,085  
that is often remembered.

10  
00:00:19,085 --> 00:00:20,186
