

1  
00:00:05,990 --> 00:00:04,230  
when tens of thousands of boy scouts

2  
00:00:08,870 --> 00:00:06,000  
from all over the globe get together

3  
00:00:11,430 --> 00:00:08,880  
every four years for this jamboree you'd

4  
00:00:12,629 --> 00:00:11,440  
expect them to get in plenty of boating

5  
00:00:14,789 --> 00:00:12,639  
fishing

6  
00:00:16,550 --> 00:00:14,799  
and other outdoor activities

7  
00:00:19,429 --> 00:00:16,560  
but this year there was something new

8  
00:00:20,950 --> 00:00:19,439  
added to the agenda space

9  
00:00:22,470 --> 00:00:20,960  
you could see it reflected in the

10  
00:00:24,310 --> 00:00:22,480  
jamboree patch

11  
00:00:25,670 --> 00:00:24,320  
in the campsites named for u.s

12  
00:00:27,830 --> 00:00:25,680  
spacecraft

13  
00:00:30,070 --> 00:00:27,840

and in a variety of activities brought

14

00:00:32,709 --> 00:00:30,080

here by nasa the nasa exhibit is really

15

00:00:34,470 --> 00:00:32,719

cool i did a report on all the apollo

16

00:00:35,990 --> 00:00:34,480

programs in high school and there's a

17

00:00:38,790 --> 00:00:36,000

lot more information here than i ever

18

00:00:40,869 --> 00:00:38,800

got all the space stuff is great

19

00:00:43,270 --> 00:00:40,879

i like it it's really interesting it

20

00:00:44,869 --> 00:00:43,280

gives a gives a chance the scouts and

21

00:00:46,549 --> 00:00:44,879

parents and visitors a chance to see

22

00:00:47,590 --> 00:00:46,559

really what's going on in addition to

23

00:00:49,670 --> 00:00:47,600

what you read in the newspapers and

24

00:00:51,510 --> 00:00:49,680

magazines but to physically see things

25

00:00:53,270 --> 00:00:51,520

like the uh

26  
00:00:54,869 --> 00:00:53,280  
freedom space station freedom a slice of

27  
00:00:57,110 --> 00:00:54,879  
it what it's like inside type of

28  
00:00:59,670 --> 00:00:57,120  
environment things like that

29  
00:01:01,189 --> 00:00:59,680  
nasa and the boy scouts organization say

30  
00:01:02,229 --> 00:01:01,199  
they have some important things in

31  
00:01:04,149 --> 00:01:02,239  
common

32  
00:01:06,469 --> 00:01:04,159  
both think it's vital that young people

33  
00:01:08,390 --> 00:01:06,479  
in this country get early exposure to

34  
00:01:10,070 --> 00:01:08,400  
american technology

35  
00:01:12,710 --> 00:01:10,080  
solar wings here

36  
00:01:14,149 --> 00:01:12,720  
roll out in orbit they're flimsy real

37  
00:01:16,149 --> 00:01:14,159  
flimsy they won't even hold their own

38  
00:01:19,109 --> 00:01:16,159

weight up here on earth it's hoped that

39

00:01:21,830 --> 00:01:19,119

by meeting nasa scientists and engineers

40

00:01:23,350 --> 00:01:21,840

plus astronauts like bruce mccandless

41

00:01:25,350 --> 00:01:23,360

these scouts will take a greater

42

00:01:26,550 --> 00:01:25,360

interest in school subjects like science

43

00:01:28,149 --> 00:01:26,560

and math

44

00:01:30,710 --> 00:01:28,159

these scouts brought a world of

45

00:01:32,310 --> 00:01:30,720

questions about space to this jamboree

46

00:01:34,870 --> 00:01:32,320

nasa brought some of its brightest

47

00:01:37,350 --> 00:01:34,880

people to provide some answers to talk

48

00:01:39,350 --> 00:01:37,360

about the potential of space and to help

49

00:01:40,950 --> 00:01:39,360

scouts earn a space in aeronautics merit

50

00:01:42,630 --> 00:01:40,960

badge or two

51  
00:01:45,030 --> 00:01:42,640  
nasa officials here say this was a

52  
00:01:47,270 --> 00:01:45,040  
learning experience for them as well

53  
00:01:49,350 --> 00:01:47,280  
they got a glimpse into the future and a

54  
00:01:52,310 --> 00:01:49,360  
chance to meet perhaps the next

55  
00:01:53,990 --> 00:01:52,320  
generation of american space explorers

56  
00:01:56,069 --> 00:01:54,000  
this is mike arrington reporting from

57  
00:03:07,589 --> 00:01:56,079  
the boy scout national jamboree near

58  
00:03:07,599 --> 00:03:43,430  
um

59  
00:03:43,440 --> 00:03:50,949  
features

60  
00:03:50,959 --> 00:04:08,309  
is

61  
00:04:11,110 --> 00:04:09,830  
and you're supposed to hang on with one

62  
00:04:12,949 --> 00:04:11,120  
hand
