Brighton Beach

16

00:04:29,050 --> 00:04:43,290

reverse

17

00:04:43,300 --> 00:05:03,640

chaos ERT assigned the GBC

18

00:05:03,650 --> 00:05:21,460

starting to raise

19

00:05:21,470 --> 00:05:32,720

motion

20

00:06:00,200 --> 00:05:55,580

never you ready to copy 2 5 3 decimal 8

21

00:06:09,350 --> 00:06:00,210

Omicron two seven zero decimal zero

22

00:06:16,940 --> 00:06:09,360

initiate track at 0 / 0 5 : 3 2 : 3 5

23

00:06:30,800 --> 00:06:16,950

deploy time is 0 / 0 6 : 1 2 : 3 5

24

00:07:07,480 --> 00:06:36,050

0 0 5 3 2 3 5

25

00:07:32,520 --> 00:07:09,700

we copy that Houston and we're 29

26
00:07:37,020 --> 00:07:34,470
okay Houston discovery we've selected

27
00:07:38,370 --> 00:07:37,030
the lower left half that showing upper

28
00:07:43,600 --> 00:07:38,380
left more without our intent of this

29
00:07:48,230 --> 00:07:46,490
discipline Co and that's what we're

30
00:07:49,700 --> 00:07:48,240
showing down here no change flight looks

31
00:07:52,460 --> 00:07:49,710
like we're stuck on up or left forward

32
00:07:53,930 --> 00:07:52,470
Roger that's we concur with that it

33
00:08:14,310 --> 00:07:53,940
looks like we're stuck on upper left

34
00:08:21,559 --> 00:08:17,190
we're waiting for tigress direct check

35
00:08:25,649 --> 00:08:23,759
okay copy good time throughout the

36
00:08:48,920 --> 00:08:25,659
teachers pass even though we don't have

37
00:08:48,930 --> 00:09:29,880
0-5 or TIG 0 0 / 0 6 : 2 7

38
00:09:29,890 --> 00:09:40,139

39

00:09:49,680 --> 00:09:42,370
