

1
00:00:22,660 --> 00:00:19,750
okay having filled it we would then take

2
00:00:26,980 --> 00:00:22,670
the lower torso and the helmets of the

3
00:00:28,390 --> 00:00:26,990
EU prep kit so what we're going to do is

4
00:00:29,890 --> 00:00:28,400
we build that out here but you would

5
00:00:32,920 --> 00:00:29,900
have actually hasn't been out here to

6
00:00:36,430 --> 00:00:32,930
fill it so would it be quite so easy and

7
00:00:38,290 --> 00:00:36,440
we brought that out here and your your

8
00:00:40,819 --> 00:00:38,300
lower torso which in this case of course

9
00:00:42,650 --> 00:00:40,829
we don't bring it out

10
00:01:07,030 --> 00:00:42,660
but we do need to take the helmet down

11
00:01:11,290 --> 00:01:09,490
okay if you were to antic boxes we do

12
00:01:12,970 --> 00:01:11,300
that at this point as well then we

13
00:01:37,899 --> 00:01:12,980

install the food stick to drink bags in

14

00:01:37,909 --> 00:02:33,050

baby I guess

15

00:03:21,030 --> 00:02:35,090

once you have been awful we'll put your

16

00:03:34,350 --> 00:03:28,740

Krillin have turned the fan on Roger and

17

00:03:46,900 --> 00:03:34,360

donned a helmet a suit tech will verify

18

00:04:08,510 --> 00:03:50,040

okay calculate helmet on the park

19

00:04:31,469 --> 00:04:11,910

check that the birds valves are closed

20

00:04:31,479 --> 00:04:40,800

Roger and a bleeder at full cold

21

00:04:48,670 --> 00:04:44,110

I'll run and check that you're come

22

00:04:53,050 --> 00:04:48,680

visit bucks and check the first valve

23

00:04:54,790 --> 00:04:53,060

closed love okay that's right straight

24

00:04:56,590 --> 00:04:54,800

at the flag for seeker you probably

25

00:04:59,710 --> 00:04:56,600

realize

26
00:05:07,350 --> 00:04:59,720
suitengu will assume that what you have

27
00:05:13,330 --> 00:05:11,230
okay unzip to give you thermal cover and

28
00:05:15,750 --> 00:05:13,340
fold it up now the way as much as you

29
00:05:20,890 --> 00:05:15,760
can so that you have good access to the

30
00:05:23,080 --> 00:05:20,900
cartridge the flat procedure says

31
00:05:25,300 --> 00:05:23,090
warning fan will be off during change

32
00:05:34,120 --> 00:05:25,310
out perform change out as quickly as

33
00:05:34,130 --> 00:05:38,170
okay

34
00:05:38,180 --> 00:05:43,110
12:43 open I suppose

35
00:05:43,120 --> 00:05:56,780
the alarm

36
00:05:56,790 --> 00:07:09,050
and this is a lot easier

37
00:07:14,210 --> 00:07:12,530
that obviously says check combos and

38
00:07:17,930 --> 00:07:14,220

hard wines you wouldn't like the note

39

00:07:34,890 --> 00:07:17,940

mode at this point yeah go ahead go to

40

00:07:34,900 --> 00:07:38,670

any preference

41

00:07:38,680 --> 00:08:02,680

I like it on the right off

42

00:08:02,690 --> 00:08:10,900

on
