

1
00:00:27,400 --> 00:00:30,560

you

2
00:00:36,930 --> 00:00:33,690

in her hands equalization house removing

3
00:00:39,479 --> 00:00:36,940

stuff draw cerita two down there you're

4
00:00:41,790 --> 00:00:39,489

gonna do that well let me acrylate yo

5
00:00:44,729 --> 00:00:41,800

I'm really trying to just even for me or

6
00:00:47,689 --> 00:00:44,739

any of opening Sherpas when I first

7
00:00:51,299 --> 00:00:47,699

letter code that y'all aren't there yet

8
00:00:52,770 --> 00:00:51,309

yeah I'm Jim and I trying to figure out

9
00:00:56,220 --> 00:00:52,780

how we can make this work out so we get

10
00:00:59,790 --> 00:00:56,230

a TV we've got a couple of iOS

11
00:01:01,799 --> 00:00:59,800

malfunctions I think the final sharp for

12
00:01:06,929 --> 00:01:01,809

cancer patients that inspection is this

13
00:01:09,179 --> 00:01:06,939

one place where open and stow the inner

14

00:01:13,500 --> 00:01:09,189

hatch okay that's all it seems that's it

15

00:01:16,230 --> 00:01:13,510

okay I think of family terms here what

16

00:01:20,190 --> 00:01:16,240

ice powers directions for invading every

17

00:01:24,690 --> 00:01:20,200

word okay you get to run laps not wear

18

00:01:29,670 --> 00:01:24,700

enforcer it says in a hatch pulling rope

19

00:01:34,820 --> 00:01:29,680

tank and it'll look it'll go first

20

00:01:34,830 --> 00:01:42,140

watches

21

00:01:49,290 --> 00:01:44,730

let me ask you a question I always seem

22

00:01:52,640 --> 00:01:49,300

happy here in the will orbiter will

23

00:01:56,880 --> 00:01:52,650

orbiter they have one of these yes gonna

24

00:02:24,010 --> 00:01:56,890

pull out just wouldn't have this those

25

00:02:28,400 --> 00:02:26,600

and we'll move to the right first and

26

00:02:32,600 --> 00:02:28,410

sort of Arc's I'll pull it to the right

27

00:02:34,880 --> 00:02:32,610

doesn't go straight up in arcs are you

28

00:02:38,620 --> 00:02:34,890

go yeah this this junk in this one so

29

00:02:46,550 --> 00:02:44,990

understanding the one you want to go buy

30

00:02:50,360 --> 00:02:46,560

that one well I was gonna go in there

31

00:02:52,430 --> 00:02:50,370

just real right but you're right you can

32

00:03:03,550 --> 00:02:52,440

go straight by it as your twin you don't

33

00:03:10,610 --> 00:03:07,280

where is that it's not tip n is an on

34

00:03:16,610 --> 00:03:10,620

flight right I don't believe probably

35

00:04:02,530 --> 00:03:16,620

don't need and then remove the lower

36

00:04:33,650 --> 00:04:31,640

in gross or go in okay check your I'm

37

00:04:37,360 --> 00:04:33,660

40

00:04:56,260 --> 00:04:47,130

light you check the wrist disconnects to

41

00:05:05,450 --> 00:05:02,300

we have excuse me basically like you see

42

00:05:07,610 --> 00:05:05,460

it has that little mail piece that have

43

00:05:11,080 --> 00:05:07,620

gauges the whole up above number line

44

00:05:18,500 --> 00:05:11,090

the yellow stripes and the whole with

45

00:05:21,320 --> 00:05:18,510

wow blocks it soon yeah it looks like

46

00:05:23,180 --> 00:05:21,330

that's rumor you gotta press that gold

47

00:05:28,969 --> 00:05:23,190

piece John it down pull it out and move

48

00:05:32,990 --> 00:05:28,979

it to your left if it doesn't go easy

49

00:05:34,790 --> 00:05:33,000

its net it goes if it goes and then just

50

00:05:49,520 --> 00:05:34,800

brings back and they keep supposed to do

51
00:05:53,210 --> 00:05:49,530

55
00:06:21,040 --> 00:06:18,879
right

56
00:06:27,070 --> 00:06:21,050
each other gloves has a little dot on

57
00:06:28,209 --> 00:06:27,080
the inside of the garment push for if

58
00:06:31,409 --> 00:06:28,219
you hold it there I'll just push it in

the helmet be pushing the top that's

70

00:07:09,129 --> 00:07:07,610

apparently not a good thing to do

71

00:07:11,800 --> 00:07:09,139

because of the weak structure if you

72

00:07:14,019 --> 00:07:11,810
