for man one giant leap for mankind we

7
00:01:06,800 --> 00:01:04,890

listened to people from all over the

8
00:01:12,680 --> 00:01:06,810

world voice their opinions of what

9
00:01:20,450 --> 00:01:12,690

it is said that 500 million people

205
00:17:10,230 --> 00:17:08,440
gathered at TV sets around the world to

206
00:17:12,690 --> 00:17:10,240
wait for the first earthling to set foot

207
00:17:14,670 --> 00:17:12,700
on the moon countless millions more

208
00:17:17,310 --> 00:17:14,680
listened on the radio to the voices from

209
00:17:20,780 --> 00:17:17,320
the moon and this may all Radio check

00:17:30,480 --> 00:17:26,980
attuned to one event at one time data

213
00:17:36,300 --> 00:17:30,490

delay salsa know yet what about the

214

00:17:40,440 --> 00:17:36,310

world waited curious wondering aware

215

00:17:45,540 --> 00:17:40,450

where like a sleeper wakened in the

216

00:17:58,160 --> 00:17:45,550

night by a faraway sound a moment sensed

217

00:18:07,220 --> 00:18:00,240

Daniel we can see you coming down the

218

00:18:12,570 --> 00:18:07,230

ladder now anyway okay i just checked to

219

00:18:14,970 --> 00:18:12,580

get back up to that first step it's not

220

00:18:18,090 --> 00:18:14,980

even collapse too far but they Atlanta

221

00:18:23,370 --> 00:18:18,100

quick to get back up so I do a comedy or

222

00:18:28,430 --> 00:18:23,380

a just little jump at the foot of the

223

00:18:35,310 --> 00:18:32,490

depressed in the surface about one or

224

00:18:40,800 --> 00:18:35,320

two inches although the surface appears

225

00:18:43,400 --> 00:18:40,810

to be very very fine-grained as you get

226

00:18:49,200 --> 00:18:43,410

close to it it almost like a powder

227

00:19:20,680 --> 00:18:49,210

found this is grapevine I'm gonna step

228

00:19:36,830 --> 00:19:33,230

on the moon I pen girls SI como la choza

229

00:19:40,490 --> 00:19:36,840

to Virginia traditional agarrado toss-up

230

00:19:44,990 --> 00:19:40,500

philosophically master now that Scott

231

00:19:48,260 --> 00:19:45,000

hate arrange the blocks play your teeth

232

00:19:50,360 --> 00:19:48,270

at sea contest hahaha limit jinhwan are

233

00:20:00,350 --> 00:19:50,370

given in a collection Buster Cape

234

00:20:03,800 --> 00:20:00,360

Kennedy cheek and a relic beautiful

235

00:20:06,710 --> 00:20:03,810

video it has a beauty all its own it's

236

00:20:09,530 --> 00:20:06,720

like much of the high desert of the

237

00:20:15,140 --> 00:20:09,540

United States it's different but it's

238

00:20:18,620 --> 00:20:15,150

very pretty out here are you getting a

239

00:20:22,850 --> 00:20:18,630

TV picture now yes Neil yes we arguing a

240

00:20:26,540 --> 00:20:22,860

were in for me to come out I'll bet okay

242

00:20:30,470 --> 00:20:28,350

I'm on the top step it's a very simple

243

00:20:32,750 --> 00:20:30,480

matter to hop down from one step to the

244

00:20:34,910 --> 00:20:32,760

next you've got three more steps and

245

00:20:38,390 --> 00:20:34,920

then along with a bang and leave that

246

00:20:47,500 --> 00:20:38,400

one foot up there and both hands and

247

00:20:47,510 --> 00:20:53,800

dinner or they go to visit

248

00:21:05,200 --> 00:20:59,080

a little more I don't other inch hey you

249

00:21:13,269 --> 00:21:09,039

beautiful view in that separate egg

250

00:21:18,430 --> 00:21:13,279

neverson flight out here except isn't

251

00:21:21,850 --> 00:21:18,440

ventilation weather is tori rei outer in

252

00:21:24,130 --> 00:21:21,860

its time they kneeled it nice a we might

253

00:21:29,500 --> 00:21:24,140

see some purple rocks find the purple

254

00:21:31,419 --> 00:21:29,510

rocks out baseball sparkly I quit okay

255

00:21:42,980 --> 00:21:31,429

uthan I'm going to change lenses on you

256

00:21:47,820 --> 00:21:45,360

you're going too fast on the panorama

257

00:21:53,330 --> 00:21:47,830

sweep you're gonna have to stop for I

258

00:22:05,129 --> 00:21:55,710

that's the first picture in the panorama

259

00:22:12,639 --> 00:22:08,019

tell me if you got a picture here we've

260

00:22:18,430 --> 00:22:12,649

got a beautiful picture now okay we got

261

00:22:25,040 --> 00:22:23,060

okay there another good one for a final

262

00:22:32,720 --> 00:22:25,050

orientation we'd like it to come left

263

00:22:39,290 --> 00:22:32,730

about five degrees over okay okay I look

264

00:22:45,100 --> 00:22:39,300

good there and help buzz is erecting the

265

00:22:49,299 --> 00:22:47,230

every precious minute of their two and a

266

00:22:51,700 --> 00:22:49,309

half hours on the surface was programmed

267

00:22:55,690 --> 00:22:51,710

rock and soil samples were to be

268

00:22:57,520 --> 00:22:55,700

collected photographs taken experiments

269

00:23:00,340 --> 00:22:57,530

set up to catch unfiltered particles

270

00:23:02,110 --> 00:23:00,350

from the Sun to record moonquakes to

271

00:23:04,270 --> 00:23:02,120

measure precisely by laser beam

272

00:23:10,630 --> 00:23:04,280

reflection the exact distance between

273

00:23:17,049 --> 00:23:10,640

moon and earth Columbia Columbia this is

274

00:23:19,360 --> 00:23:17,059

Houston AOS or either the EBA is

275

00:23:21,730 --> 00:23:19,370

progressing beautifully they're setting

276

00:23:23,320 --> 00:23:21,740

up the flag now I guess you're about the

277

00:23:27,669 --> 00:23:23,330

only person around it doesn't have TV

278

00:23:29,409 --> 00:23:27,679

coverage of the fees they've got the

279

00:23:38,980 --> 00:23:29,419

flag up now and you can see the stars

280

00:23:45,900 --> 00:23:38,990

and stripes on the limit beautiful Mike

281

00:23:49,240 --> 00:23:45,910

really is I don't like to evaluate the

282

00:23:52,600 --> 00:23:49,250

various phases that are first babbling

283

00:23:55,960 --> 00:23:52,610

on the lip service to do have to be all

284

00:23:57,850 --> 00:23:55,970

right you do have to be either careful

285

00:24:01,539 --> 00:23:57,860

to keep track of where your center of

286

00:24:05,799 --> 00:24:01,549

mass is I have to takes about two or

287

00:24:15,700 --> 00:24:05,809

three phases super make sure that you've

288

00:24:24,890 --> 00:24:19,310

but to be three maybe four easy phases

289

00:24:28,460 --> 00:24:24,900

continued with fairly smooth stop like a

290

00:24:32,390 --> 00:24:28,470

football very deceptive but after the

291

00:24:35,270 --> 00:24:32,400

side cut a little bit so call kangaroo

292

00:24:38,500 --> 00:24:35,280

hop not work but it seems are you

293

00:24:43,000 --> 00:24:38,510

forward ability is not quite as good but

294

00:24:45,350 --> 00:24:43,010

I get rather tiring after have a look

295

00:24:47,930 --> 00:24:45,360

but this may be a function of the

296

00:24:55,160 --> 00:24:47,940

student as well as a lack of gravity

297

00:25:02,060 --> 00:24:58,970

I noticed in the soft spots where we

298

00:25:04,790 --> 00:25:02,070

have footprints nearly an inch deep that

299

00:25:09,260 --> 00:25:04,800

the soil is very crazy and it will

300

00:25:15,549 --> 00:25:09,270

retain a slope of probably 70 degrees on

301
00:25:22,320 --> 00:25:19,289
buzz is making his way around the lamb

302
00:25:28,139 --> 00:25:22,330
photographing it from various angles

303
00:25:34,570 --> 00:25:30,759
all right it is very there are two

304
00:25:37,629 --> 00:25:34,580
traders the one that's right in front of

305
00:25:42,129 --> 00:25:37,639
me now as I look often about the oven

306
00:26:07,570 --> 00:25:42,139
o'clock position from a snap about 30 to

307
00:26:16,930 --> 00:26:10,150
in the foreground Buzz Aldrin is

308
00:26:19,570 --> 00:26:16,940
collecting a core tube sample hope

309
00:26:21,760 --> 00:26:19,580
you're watching how hard I have to hit

310
00:26:27,280 --> 00:26:21,770
this into the ground to the tune of

311
00:26:33,250 --> 00:26:27,290
about five inches uses other it almost

312
00:26:36,420 --> 00:26:33,260
looks wet buzz this is Houston though

313
00:26:39,010 --> 00:26:36,430

you've got about ten minutes left now

314

00:26:43,150 --> 00:26:39,020
prior to commencing your EV a

315

00:26:49,780 --> 00:26:43,160
termination activities over doctor I

316

00:26:51,790 --> 00:26:49,790
understand first oh it's just too much I

317

00:26:54,790 --> 00:26:51,800
can't get over I don't have to put it

318

00:26:57,460 --> 00:26:54,800
you know but it's a most marvelous thing

319

00:26:59,680 --> 00:26:57,470
at the marination home enough I don't we

320

00:27:01,919 --> 00:26:59,690
are really thrilled for every armagon

321

00:27:04,409 --> 00:27:01,929
there have to be the proudest

322

00:27:07,889 --> 00:27:04,419
the people all over the world is great

323

00:27:10,710 --> 00:27:07,899
really great little world this means all

324

00:27:12,330 --> 00:27:10,720
the countries such as well out of it

325

00:27:13,919 --> 00:27:12,340
being closer to the world makes us

326

00:27:15,810 --> 00:27:13,929

realize that they're all human being

327

00:27:18,149 --> 00:27:15,820

together I hope this brings unity

328

00:27:20,759 --> 00:27:18,159

amongst all country and they just hope

329

00:27:22,710 --> 00:27:20,769

it will help you from selling or

330

00:27:25,259 --> 00:27:22,720

internal problems you may have well I

331

00:27:28,669 --> 00:27:25,269

makes waste a lot longer but to be used

332

00:27:32,090 --> 00:27:28,679

more stain our that people are being on

333

00:27:34,499 --> 00:27:32,100

starvation if huge amount of money

334

00:27:36,720 --> 00:27:34,509

americans spend to see you are the

335

00:27:38,999 --> 00:27:36,730

Moonies light what's wrong it's

336

00:27:41,190 --> 00:27:39,009

disgusting it's a pity they have got

337

00:27:42,659 --> 00:27:41,200

something else to do we've ever be

338

00:27:44,909 --> 00:27:42,669

better if they done something for the

339

00:27:46,619 --> 00:27:44,919

older what is Columbus he decided he

340

00:27:49,289 --> 00:27:46,629

couldn't get the money from Isabella

341

00:27:51,690 --> 00:27:49,299

where blend one of God's alysha planet

342

00:27:53,820 --> 00:27:51,700

and he put it in skype or purpose and

343

00:27:56,279 --> 00:27:53,830

need input different people had glitter

344

00:27:57,930 --> 00:27:56,289

black the Heather myself I'm really

345

00:28:01,139 --> 00:27:57,940

interesting if he would look wherever we

346

00:28:04,470 --> 00:28:01,149

must open all secrets that are opening

347

00:28:08,010 --> 00:28:04,480

to us throughout eh I think

348

00:28:13,409 --> 00:28:08,020

the modem and from the beginning of the

349

00:28:15,210 --> 00:28:13,419

human race is coming now and so standing

350

00:28:18,150 --> 00:28:15,220

firmly in the lunar surface is the

351

00:28:21,570 --> 00:28:18,160

American flag left behind by the Apollo

352

00:28:24,240 --> 00:28:21,580

11 crew next week the Eagle returns to

353

00:28:26,159 --> 00:28:24,250

earth with a valuable cargo scientists

354

00:28:28,169 --> 00:28:26,169

examine the various rock samples that

355

00:28:30,659 --> 00:28:28,179

the Apollo 11 crew brought back with

356

00:28:33,150 --> 00:28:30,669

them conclusions are drawn about how
