

1
00:00:12,430 --> 00:00:10,310
Netta chemistry of fire not even took

2
00:00:15,410 --> 00:00:12,440
you five minutes live program with it

3
00:00:18,080 --> 00:00:15,420
okay mount your classes of fire is easy

4
00:00:19,670 --> 00:00:18,090
to classify I should ask yourself what's

5
00:00:21,950 --> 00:00:19,680
burning well self is very intelligent

6
00:00:24,170 --> 00:00:21,960
come back well I got paper wood papers

7
00:00:27,140 --> 00:00:24,180
plastic textiles gasoline or fuels

8
00:00:30,500 --> 00:00:27,150
compressed gases or electrical this is

9
00:00:31,970 --> 00:00:30,510
this is good goes hey any place fine but

10
00:00:34,670 --> 00:00:31,980
you have to be able classified but you

11
00:00:36,319 --> 00:00:34,680
not correctly classify the fires and

12
00:00:37,850 --> 00:00:36,329
wheat the wrong station we have a lot of

13
00:00:40,310 --> 00:00:37,860

problems we definitely don't want them

14

00:00:41,630 --> 00:00:40,320

no way and you are very living to your

15

00:00:43,819 --> 00:00:41,640

selection of extinguishing agents

16

00:00:54,770 --> 00:00:43,829

correct up there what do you got you got

17

00:00:56,630 --> 00:00:54,780

the halo and that's it god I say all it

18

00:00:58,220 --> 00:00:56,640

is is wood paper cloth for plastics

19

00:00:59,510 --> 00:00:58,230

textiles anything to leave a national

20

00:01:01,369 --> 00:00:59,520

network and they're usually deep-seated

21

00:01:03,319 --> 00:01:01,379

so what you want to do here is you want

22

00:01:06,679 --> 00:01:03,329

to cool it codex ok so while we're going

23

00:01:08,710 --> 00:01:06,689

after their tetrahedron type thing is

24

00:01:14,200 --> 00:01:08,720

why

25

00:01:17,110 --> 00:01:14,210

temperature goes out okay you're Class B

26

00:01:19,540 --> 00:01:17,120

fires are your flammable liquids and

27

00:01:21,880 --> 00:01:19,550

gases kerosene okay you're next if we

28

00:01:24,250 --> 00:01:21,890

have issue these your class sees this

29

00:01:25,510 --> 00:01:24,260

your energized like equipment the first

30

00:01:28,210 --> 00:01:25,520

thing you want to do there is like says

31

00:01:31,270 --> 00:01:28,220

the boy shop these we do that as well be

32

00:01:32,860 --> 00:01:31,280

energized in it so we know where it is

33

00:01:35,260 --> 00:01:32,870

we know sweets we should cut it off

34

00:01:37,420 --> 00:01:35,270

you'd be energized so what you have done

35

00:01:39,520 --> 00:01:37,430

there you have eliminated the electrical

36

00:01:40,620 --> 00:01:39,530

shock probability of this is what we

37

00:01:42,880 --> 00:01:40,630

want to do is to keep ourselves

38

00:03:43,140 --> 00:01:42,890

basically pretty well safe from

39

00:04:18,409 --> 00:04:13,720

all right okay now while you do is

40

00:04:18,419 --> 00:04:22,600

start off with the fall

41

00:07:22,929 --> 00:04:25,089

fire start off with the full flower

42

00:07:50,760 --> 00:07:35,439

okay and one of each size let's try me

43

00:07:57,839 --> 00:07:54,600

maybe a little bit too tall

44

00:07:59,760 --> 00:07:57,849

yeah because this one count it pulls up

45

00:08:09,330 --> 00:07:59,770

and distorts a little bit then we go for

46

00:09:17,870 --> 00:08:12,420

just turn to me more

47

00:09:17,880 --> 00:09:24,400

I think you need to come back

48

00:09:41,660 --> 00:09:28,749

all right yes if you're comfortable the

49

00:09:59,759 --> 00:09:43,889

won't you pray the comforters you're the

50

00:10:03,540 --> 00:09:59,769

ones got sent there for now yes yes

51
00:10:45,629 --> 00:10:03,550
colors the hand the mold they making

52
00:10:52,240 --> 00:10:48,550
we'll be cutting away this excess that

53
00:10:54,189 --> 00:10:52,250
we're getting on the top of his hand and

54
00:10:57,910 --> 00:10:54,199
get a getting rid of that and then blow

55
00:11:00,430 --> 00:10:57,920
Vesely in the entire top area and once

56
00:11:03,009 --> 00:11:00,440
that has completed before the second

57
00:11:05,319 --> 00:11:03,019
half on top of it they left the box with

58
00:11:20,080 --> 00:11:05,329
the RTV and this way we'll be able to

59
00:11:26,470 --> 00:11:23,650
look at some of our Brown shots that we

60
00:11:27,870 --> 00:11:26,480
were training with up at the Fort Worth

61
00:11:30,010 --> 00:11:27,880
here

62
00:11:31,840 --> 00:11:30,020
they even got one that little town

63
00:11:45,629 --> 00:11:31,850

rabbit's entrance to the Grand Canyon

64

00:11:52,629 --> 00:11:50,790

when little fingers got a big doing I

65

00:12:05,650 --> 00:11:52,639

remember they had something you put on

66

00:12:16,809 --> 00:12:05,660

your head I think you stood is this

67

00:12:41,850 --> 00:12:16,819

I never had that form but it's a lot

68

00:12:41,860 --> 00:13:01,439

okay
