

1
00:00:11,430 --> 00:00:08,710
you go right here with rose through this

2
00:00:26,710 --> 00:00:12,950
and you'll start to see some familiar

3
00:00:26,720 --> 00:00:36,389
that's right

4
00:00:40,150 --> 00:00:37,990
well

5
00:00:42,150 --> 00:00:40,160
we had to set up for your

6
00:00:44,869 --> 00:00:42,160
nomex your new royal blue nomex

7
00:00:46,549 --> 00:00:44,879
coveralls flight jackets and trousers

8
00:00:48,069 --> 00:00:46,559
and i believe shelley also has a few

9
00:00:49,190 --> 00:00:48,079
other items she'll give you a chance to

10
00:00:50,869 --> 00:00:49,200
look at

11
00:00:52,389 --> 00:00:50,879
shelly will be the engineer who's doing

12
00:00:54,630 --> 00:00:52,399
the exercise

13
00:01:18,710 --> 00:00:54,640

to make sure that we do get you into the

14

00:01:22,870 --> 00:01:21,030

because of this back zipper panel we

15

00:01:38,310 --> 00:01:22,880

have some it'll most of it will come out

16

00:01:38,320 --> 00:01:52,310

i don't know whether that's

17

00:01:55,510 --> 00:01:53,990

on these we're going to use these t-38

18

00:01:59,429 --> 00:01:55,520

flying also

19

00:02:04,230 --> 00:02:01,270

let's see how they do my sleeve length

20

00:02:21,110 --> 00:02:06,149

all right

21

00:02:21,120 --> 00:02:25,750

we're gonna have to stop here

22

00:02:32,150 --> 00:02:27,270

well we can pull the pocket we can

23

00:02:48,470 --> 00:02:33,030

yeah

24

00:02:48,480 --> 00:03:08,949

it's fine across

25

00:03:11,910 --> 00:03:09,670

uh

26

00:03:14,309 --> 00:03:11,920

well

27

00:03:15,589 --> 00:03:14,319

let's see and we're going to fly

28

00:03:18,949 --> 00:03:15,599

like

29

00:03:20,470 --> 00:03:18,959

things

30

00:03:21,910 --> 00:03:20,480

if you want to you also have the actual

31

00:03:23,990 --> 00:03:21,920

tell you what let's

32

00:03:25,750 --> 00:03:24,000

what's what's the least hazardous if i

33

00:03:28,149 --> 00:03:25,760

get one done

34

00:03:30,229 --> 00:03:28,159

first and see how it fits then is it

35

00:03:43,430 --> 00:03:30,239

easy enough to do the second one yeah

36

00:03:47,190 --> 00:03:45,270

they might not look quite as long with

37

00:03:49,030 --> 00:03:47,200

the boot you know it might not fit quite

38

00:03:50,869 --> 00:03:49,040

as long but i think i think that's even

39

00:03:52,390 --> 00:03:50,879

if i need an inch out there we'll see

40

00:03:54,149 --> 00:03:52,400

your booster

41

00:03:54,949 --> 00:03:54,159

i think it will be long on your weapon

42

00:03:56,390 --> 00:03:54,959

now

43

00:03:58,070 --> 00:03:56,400

the boots that i'm talking about though

44

00:04:25,590 --> 00:03:58,080

are my flight boots

45

00:04:25,600 --> 00:04:29,510

okay

46

00:04:34,550 --> 00:04:32,710

we can take them up they don't

47

00:04:35,909 --> 00:04:34,560

they're not real bad we can take them up

48

00:04:37,270 --> 00:04:35,919

like a half inch

49

00:04:41,189 --> 00:04:37,280

yeah it's easier

50

00:04:41,199 --> 00:05:02,469

what about your legs

51
00:05:02,479 --> 00:05:05,189
great

52
00:05:05,199 --> 00:05:13,830
you can have as many pairs you wanted

53
00:05:13,840 --> 00:05:54,870
yes

54
00:05:54,880 --> 00:06:13,070
um

55
00:06:13,080 --> 00:06:32,390
oh all right

56
00:06:32,400 --> 00:06:42,629
another

57
00:06:42,639 --> 00:07:08,629
okay

58
00:07:11,990 --> 00:07:10,230
think about how much velcro you want to

59
00:07:13,749 --> 00:07:12,000
do

60
00:07:19,909 --> 00:07:13,759
like all this extra velcro on there for

61
00:07:22,710 --> 00:07:21,350
okay what about the inside of the leg

62
00:07:26,950 --> 00:07:22,720
it's not a problem in there just a

63
00:07:26,960 --> 00:07:55,029

that looks okay

64

00:07:55,039 --> 00:08:07,270

okay thank you

65

00:08:07,280 --> 00:08:19,430

okay

66

00:09:07,030 --> 00:08:38,389

so

67

00:09:10,550 --> 00:09:08,790

was okay

68

00:09:12,470 --> 00:09:10,560

i was up there and i just hand carried

69

00:09:14,230 --> 00:09:12,480

with me when i went yeah

70

00:09:16,550 --> 00:09:14,240

and uh

71

00:09:22,070 --> 00:09:16,560

after i get checked out on a new

72

00:09:22,080 --> 00:09:24,630

uh

73

00:09:29,030 --> 00:09:26,389

supposedly

74

00:09:30,230 --> 00:09:29,040

a lot better than one last try they made

75

00:09:31,990 --> 00:09:30,240

to make

76

00:09:33,750 --> 00:09:32,000

we need to put the dowels in and run

77

00:09:35,509 --> 00:09:33,760

some tape across the top of them to keep

78

00:09:38,550 --> 00:09:35,519

them straight

79

00:09:48,389 --> 00:09:38,560

and then get the rtv off the top of his

80

00:09:48,399 --> 00:10:08,310

already

81

00:10:10,949 --> 00:10:09,269

okay

82

00:10:29,509 --> 00:10:10,959

you can just kind of raise your hand up

83

00:10:29,519 --> 00:10:36,230

right

84

00:11:02,790 --> 00:10:38,230

okay just gotta lay your hands down in

85

00:11:02,800 --> 00:11:14,150

yes

86

00:11:17,670 --> 00:11:15,750

what to use with three moles this one

87

00:11:19,990 --> 00:11:17,680

they use for the uh finger length that's

88

00:11:21,670 --> 00:11:20,000

why we need to get good you know

89

00:11:23,110 --> 00:11:21,680

finger trials area try to get the full

90

00:11:24,710 --> 00:11:23,120

length of your finger

91

00:11:26,230 --> 00:11:24,720

the first one we poured

92

00:11:28,470 --> 00:11:26,240

they're mostly interesting this area

93

00:11:30,790 --> 00:11:28,480

right here for your thumb crotch

94

00:11:39,509 --> 00:11:30,800

then the next mold this one

95

00:11:47,350 --> 00:11:40,790

actually

96

00:11:50,310 --> 00:11:49,350

and this one too we have to make sure

97

00:11:52,069 --> 00:11:50,320

that

98

00:11:53,590 --> 00:11:52,079

you kind of keep your fingers spread out

99

00:11:55,030 --> 00:11:53,600

when you're and how's that different

100

00:11:57,670 --> 00:11:55,040

from the first one

101
00:11:59,910 --> 00:11:57,680
uh first we had it laid in that pedestal

102
00:12:01,430 --> 00:11:59,920
so it makes your thumb and your thumb

103
00:12:04,310 --> 00:12:01,440
cross prominent

104
00:12:07,350 --> 00:12:05,509
this is one areas where they have a

105
00:12:09,269 --> 00:12:07,360
problem with the thumb is right i'm with

106
00:12:10,870 --> 00:12:09,279
that gloves running through here

107
00:12:13,110 --> 00:12:10,880
getting full

108
00:12:35,030 --> 00:12:13,120
anytime you lose any thumb crotch you

109
00:12:35,040 --> 00:12:51,350
here

110
00:12:51,360 --> 00:13:22,150
okay go ahead pull her on out

111
00:13:26,710 --> 00:13:24,310
okay great

112
00:13:28,230 --> 00:13:26,720
this does it get nice and hard and i'll

113
00:13:30,710 --> 00:13:28,240

take them out of the boxes and take them

114

00:13:32,470 --> 00:13:30,720

apart and see what they look like

115

00:13:34,629 --> 00:13:32,480

re-vaseline and put them back together

116

00:13:35,990 --> 00:13:34,639

and pour some molds

117

00:13:42,550 --> 00:13:36,000

when you come in thursday i'll be able

118

00:13:42,560 --> 00:14:28,069

thank you

119

00:14:28,079 --> 00:14:42,069

the dark blue

120

00:14:46,389 --> 00:14:44,069

all of these particular shirts that what

121

00:14:48,870 --> 00:14:46,399

you got ordered was large okay so it

122

00:14:51,990 --> 00:14:48,880

says medium length

123

00:14:55,430 --> 00:14:54,069

we're going to carry the coverage

124

00:14:56,389 --> 00:14:55,440

that's an awesome

125

00:14:59,110 --> 00:14:56,399

well

126

00:15:00,710 --> 00:14:59,120

yeah rick

127

00:15:05,670 --> 00:15:00,720

i guess this is what we'd wear off if we

128

00:15:23,430 --> 00:15:08,710

yeah what i hope we do is just uh

129

00:15:23,440 --> 00:15:35,750

the right

130

00:15:41,110 --> 00:15:38,310

we talked about

131

00:15:43,350 --> 00:15:41,120

taking our suits off and putting on uh

132

00:15:44,470 --> 00:15:43,360

just coveralls i don't see any reason to

133

00:15:47,110 --> 00:15:44,480

stow

134

00:15:48,069 --> 00:15:47,120

on board a suit for that in other words

135

00:15:50,069 --> 00:15:48,079

the uh

136

00:15:51,590 --> 00:15:50,079

doctor

137

00:15:52,710 --> 00:15:51,600

one other thing that we need to think

138

00:15:54,870 --> 00:15:52,720

about

139

00:15:56,150 --> 00:15:54,880

on that regard and that's if we have a

140

00:15:58,389 --> 00:15:56,160

towel

141

00:15:59,990 --> 00:15:58,399

that's what we're going to want to

142

00:16:02,150 --> 00:16:00,000

yeah but i wouldn't stow something for

143

00:16:04,310 --> 00:16:02,160

it i mean we've got a variety of that's

144

00:16:07,189 --> 00:16:04,320

clothing that we can pick from

145

00:16:10,310 --> 00:16:07,199

that's true i don't see why okay i just

146

00:16:16,389 --> 00:16:13,590

dark blue goes better with it

147

00:16:20,870 --> 00:16:19,030

okay so it was in there you'll find

148

00:16:22,949 --> 00:16:20,880

launch and entry coverall

149

00:16:24,470 --> 00:16:22,959

listed and

150

00:16:26,230 --> 00:16:24,480

at least from that perspective i don't

151
00:16:27,749 --> 00:16:26,240
see why we need to carry it okay i think

152
00:16:29,590 --> 00:16:27,759
that's why it's because in addition

153
00:16:31,990 --> 00:16:29,600
you're going to have the thermal uh

154
00:16:32,870 --> 00:16:32,000
expedition undergarments stowed in your

155
00:16:33,829 --> 00:16:32,880
trays

156
00:16:35,590 --> 00:16:33,839
okay

157
00:16:47,990 --> 00:16:35,600
that's right yeah and that will take up

158
00:16:51,829 --> 00:16:50,150
prescription glasses all right okay all

159
00:16:55,670 --> 00:16:51,839
right

160
00:16:55,680 --> 00:16:59,110
that's fine

161
00:17:03,749 --> 00:17:01,749
prescriptions

162
00:17:26,870 --> 00:17:03,759
make sure that it is what's wrong and

163
00:17:26,880 --> 00:17:44,390

is

164

00:17:44,400 --> 00:18:12,390

we are working

165

00:18:12,400 --> 00:18:15,669

okay

166

00:18:20,950 --> 00:18:18,470

is everyone using electric razors

167

00:18:22,789 --> 00:18:20,960

okay i will sign up for a uh

168

00:18:25,110 --> 00:18:22,799

just in case a twin blade and some

169

00:18:27,750 --> 00:18:25,120

shaving gel as a backup for anyone so it

170

00:18:32,870 --> 00:18:30,310

seems like mine failed last time

171

00:18:34,950 --> 00:18:32,880

first day twin blade this okay that's

172

00:18:36,230 --> 00:18:34,960

great yeah i killed myself with this

173

00:18:38,070 --> 00:18:36,240

sucker

174

00:18:39,990 --> 00:18:38,080

can we get a straight razor

175

00:19:08,789 --> 00:18:40,000

yeah we got one no one of these you know

176

00:19:08,799 --> 00:19:12,150

not
