

1
00:00:25,790 --> 00:00:23,810
a real space-age adventure is coming to

2
00:00:27,530 --> 00:00:25,800
the coast over a hundred and

3
00:00:29,690 --> 00:00:27,540
thirty-eight schools in a four-county

4
00:00:32,420 --> 00:00:29,700
area will be participating it's called

5
00:00:34,850 --> 00:00:32,430
post encounters a space-age adventure

6
00:00:36,740 --> 00:00:34,860
and science literacy many coastwide

7
00:00:38,900 --> 00:00:36,750
events are scheduled including astronaut

8
00:00:41,210 --> 00:00:38,910
appearances and space exhibits at area

9
00:00:43,549 --> 00:00:41,220
malls there will be a math and science

10
00:00:46,190 --> 00:00:43,559
quiz bowl and sand sculpture and poster

11
00:00:48,320 --> 00:00:46,200
contests guest lecturers will visit area

12
00:00:51,020 --> 00:00:48,330
schools and civic organizations and

13
00:00:52,729 --> 00:00:51,030

watch for a spectacular air show along

14

00:00:59,050 --> 00:00:52,739

the beach from Bay st. Louis the

15

00:01:03,550 --> 00:01:01,720

for more information on how you can get

16

00:01:05,680 --> 00:01:03,560

involved in this educational coastline

17

00:01:09,400 --> 00:01:05,690

community program have your teacher

18

00:01:13,150 --> 00:01:09,410

called Stennis Space Center at 60 1688

19

00:01:15,010 --> 00:01:13,160

3429 the important thing I think it is

20

00:01:17,620 --> 00:01:15,020

first press conference is over to get

21

00:01:19,060 --> 00:01:17,630

the education people up okay that is

22

00:01:20,890 --> 00:01:19,070

it's not as important to get the

23

00:01:22,270 --> 00:01:20,900

politicians they can you know we can

24

00:01:24,100 --> 00:01:22,280

invite that to the luncheon that's right

25

00:01:25,810 --> 00:01:24,110

take away and ask you we got to get

26

00:01:29,800 --> 00:01:25,820

these educators I cannot rely on with

27

00:01:31,780 --> 00:01:29,810

work you want to invite the school board

28

00:01:33,609 --> 00:01:31,790

to gym i'll invite school boards and

29

00:01:36,670 --> 00:01:33,619

general is fresh named president can

30

00:01:42,100 --> 00:01:36,680

tell it's not a Washington 1 2 pitch go

31

00:01:44,320 --> 00:01:42,110

board to provide a vehicle and mechanism

32

00:01:47,050 --> 00:01:44,330

to promote involvement in education by

33

00:02:26,080 --> 00:01:47,060

business and industry on the coast and

34

00:02:55,270 --> 00:02:28,400

it's really great for me to see how much

35

00:03:01,850 --> 00:02:59,210

the 14 of 18 to 20 year olds who

36

00:03:04,610 --> 00:03:01,860

represents the college join group are

37

00:03:06,530 --> 00:03:04,620

declining that's all I'm spero declining

38

00:03:08,660 --> 00:03:06,540

and it probably is going to buy our own

39

00:03:09,680 --> 00:03:08,670

is not using begin to grow up again I

40

00:03:11,600 --> 00:03:09,690

think it would be easy to find

41

00:03:13,820 --> 00:03:11,610

astronauts astronauts are really a

42

00:03:16,070 --> 00:03:13,830

pretty small for Santa Barbara corset

43

00:03:17,720 --> 00:03:16,080

but for everyone astronaut we've had

44

00:03:22,010 --> 00:03:17,730

three thousand other people working now

45

00:03:23,780 --> 00:03:22,020

that's right now if if we have to go to

46

00:03:25,280 --> 00:03:23,790

Mars we decide to go to Mars we're going

47

00:03:27,620 --> 00:03:25,290

to get even more those numbers could

48

00:03:29,300 --> 00:03:27,630

double or triple do astronauts for me to

49

00:03:31,030 --> 00:03:29,310

know we able to start now to make sure

50

00:03:34,310 --> 00:03:31,040

our children are well educated in

51
00:03:35,900 --> 00:03:34,320
history and english and especially math

52
00:03:37,790 --> 00:03:35,910
and science so that they're ready to

53
00:03:41,270 --> 00:03:37,800
take over our space program when we

54
00:03:43,280 --> 00:03:41,280
value the solar system you know by one

55
00:03:45,500 --> 00:03:43,290
estimate it takes ten thousand high

56
00:03:48,170 --> 00:03:45,510
school students expressing an interest

57
00:03:50,600 --> 00:03:48,180
in a science or engineering major to

58
00:03:53,570 --> 00:03:50,610
assure us of 20 men and women who will

59
00:03:55,820 --> 00:03:53,580
go on to receive doctoral degrees and I

60
00:03:57,979 --> 00:03:55,830
hope that each student touched by Coast

61
00:04:00,740 --> 00:03:57,989
encounters will consider a career in

62
00:04:03,229 --> 00:04:00,750
science or technology and that some of

63
00:04:06,050 --> 00:04:03,239

them consider returning the classroom as

64

00:05:50,550 --> 00:04:06,060

teachers to inspire a new generation for

65

00:05:56,140 --> 00:05:52,659

did you ever think that you would see a

66

00:05:59,830 --> 00:05:56,150

piece of the moon this close up I know I

67

00:06:03,969 --> 00:05:59,840

never thought about so it doesn't quite

68

00:06:05,439 --> 00:06:03,979

look like cheese they will want to eat

69

00:06:10,469 --> 00:06:05,449

do you know that people used to say that

70

00:06:12,909 --> 00:06:10,479

the moon look like green cheese miss
