10
00:02:42,580 --> 00:02:39,950

11
00:02:44,199 --> 00:02:42,590
Tina Jason at the hospital house and I

12
00:02:47,140 --> 00:02:44,209
can't think of a better way to start my

13
00:02:49,000 --> 00:02:47,150

morning here then Boca as you all know

14

00:02:51,129 --> 00:02:49,010

Cleveland is considered the bulk of

15

00:02:53,589 --> 00:02:51,139

capital of the world even though mark

16

00:02:55,240 --> 00:02:53,599

are no has told me recently that Canada

17

00:03:00,009 --> 00:02:55,250

has claimed that title but in my heart

18

00:03:03,129 --> 00:03:00,019

26

00:03:38,500 --> 00:03:33,980

Tomas mission specialist claims

27

00:03:41,260 --> 00:03:38,510

Cleveland Ohio as his hometown beer

28

00:03:45,670 --> 00:03:41,270

barrel polka performed by a friend of

29

00:03:47,230 --> 00:03:45,680

Don's gene hecka Mac who is a an

30

00:03:53,110 --> 00:03:47,240

employee here at the Johnson Space

31

00:03:58,270 --> 00:03:53,120

Center performs locally much he didn't

32

00:04:02,470 --> 00:03:58,280

bamako and yes Nancy we're getting down

33

00:04:04,060 --> 00:04:02,480

link right now okay is the first part if

34

00:04:06,240 --> 00:04:04,070

he caught it was bought on near down

35

00:04:08,710 --> 00:04:06,250

there this morn working out in the truth

36

00:04:16,720 --> 00:04:08,720

Tom working with hercules train the

37

00:04:19,690 --> 00:04:16,730

activation portion Cathy and it's got

38

00:04:30,900 --> 00:04:19,700

any of dawn on their dominance there yes

39

00:04:35,760 --> 00:04:33,330

and now here's commander Tom Henrik's

40

00:04:42,000 --> 00:04:35,770

working on one of the laptop computers

41

00:04:44,700 --> 00:04:42,010

onboard the shuttle he's in the forward

42

00:05:07,780 --> 00:04:44,710

flight deck area right now in the

43

00:05:29,750 --> 00:05:10,540

discovery Houston 90 seconds 20 he will

44

00:05:34,650 --> 00:05:32,520

discovery mark we had about 4 30 minutes

45

00:05:38,520 --> 00:05:34,660

ago and we loosely you I pick it back up

46

00:05:41,970 --> 00:05:38,530

in 1945 copy Nancy and we sure like the

47

00:05:46,470 --> 00:05:41,980

video we realize now how big an

48

00:05:48,600 --> 00:05:46,480

experiment Hercules really is yeah

49

00:05:51,240 --> 00:05:48,610

wasn't sure whether you have received he

50

00:05:53,010 --> 00:05:51,250

must sound like it's been quite a a

51
00:05:54,300 --> 00:05:53,020
crowded place get on the flight peckish

52
00:05:55,920 --> 00:05:54,310
might imagine what this camera the

53
00:05:57,300 --> 00:05:55,930
windex camera and all our other cameras

54
00:06:00,330 --> 00:05:57,310
on board so it's been hard to get the

55
00:06:02,520 --> 00:06:00,340
footage they see a puss in the corner of

56
00:06:04,380 --> 00:06:02,530
the pictures here that's me trying to

57
00:06:27,909 --> 00:06:04,390
get up in the slowest corner possible to

58
00:06:50,650 --> 00:06:30,589
mission specialist on Thomas completing

59
00:07:15,530 --> 00:06:54,250
and you said this is a mess too during

60
00:07:27,890 --> 00:07:19,280
and used to this is immense to during

61
00:07:31,100 --> 00:07:27,900
the CPC g status check Andy's discovery

62
00:07:33,890 --> 00:07:31,110
we see that jumpy monitor scene is it

63
00:07:38,630 --> 00:07:33,900

good ah yes it looks good at our end and

64

00:07:41,150 --> 00:07:38,640

we're looking at done right now that's

65

00:07:45,320 --> 00:07:41,160

it he's working star X here and I think

66

00:08:00,959 --> 00:07:45,330

he's taken a 900 call that's what we

67

00:08:18,329 --> 00:08:05,519

this is ms 3 working at BDS bring the

68

00:08:20,519 --> 00:08:18,339

fluid flow study copy this view on the

69

00:08:21,959 --> 00:08:20,529

videotape downlink is mission specialist

70

00:08:24,809 --> 00:08:21,969

Mary Ellen Weber working with the

71

00:09:16,420 --> 00:08:24,819

bioreactor looking at how fluids flow in

72

00:09:21,880 --> 00:09:19,630

and mark this is a picture as you can

73

00:09:24,300 --> 00:09:21,890

see of the fetal goddess ready for orbit

74

00:09:26,889 --> 00:09:24,310

here this is our training team and

75

00:09:28,750 --> 00:09:26,899

without their help we sir couldn't have

76

00:09:30,910 --> 00:09:28,760

been doing the great job we did today in

77

00:09:32,620 --> 00:09:30,920

the past week and we never would have

78

00:09:34,780 --> 00:09:32,630

gotten the tea dress off on time without

79

00:09:36,550 --> 00:09:34,790

these people so we really all the

80

00:09:39,790 --> 00:09:36,560

success of this mission to this group of

81

00:09:44,010 --> 00:09:39,800

00:09:55,660 --> 00:09:53,600

one crew secretary who really helped out

86

00:09:57,699 --> 00:09:55,670

with our families and has been keeping

87

00:09:59,230 --> 00:09:57,709

our life organized for the last six

88

00:10:01,600 --> 00:09:59,240

months or so so we thank all those

89

00:10:03,610 --> 00:10:01,610

90

00:11:06,050 --> 00:10:03,620

94

00:11:25,170 --> 00:11:23,110

currently at on a course that will take

95

00:11:40,980 --> 00:11:25,180
