help ours right we should have that vent

32

00:17:21,530 --> 00:16:59,600

hooked up here in just a moment

33

00:17:21,540 --> 00:17:40,460

Shannen how do you like your new home

34

00:17:47,450 --> 00:17:46,070

we file I have everybody here okay well

35

00:17:53,840 --> 00:17:47,460

it's a bigger crowd than we usually get

36

00:17:57,560 --> 00:17:53,850

in space a long time I just like to

37

00:17:59,600 --> 00:17:57,570

begin by saying this today has been kind

38

00:18:02,240 --> 00:17:59,610

of an unreal day and a very real day for

39

00:18:03,920 --> 00:18:02,250

us the whole approach coming in know

40

00:18:05,780 --> 00:18:03,930

everybody kept commenting on board the

41

00:18:06,620 --> 00:18:05,790

shuttle how we just can't believe we're

42

00:18:08,810 --> 00:18:06,630

here

43

00:18:11,720 --> 00:18:08,820

mirror doesn't look real although it

44

00:18:15,350 --> 00:18:11,730

certainly is and it looks I can't akan

45

00:18:17,360 --> 00:18:15,360

the way and and that's the unreal part

46

00:18:19,210 --> 00:18:17,370

of it the real part though is the fact

47

00:18:22,010 --> 00:18:19,220

that there's a space station up here and

48

00:18:24,800 --> 00:18:22,020

we flew a shuttle up to it and dock to

49

00:18:27,050 --> 00:18:24,810

it and it's a just a good reminder now

50

00:18:29,780 --> 00:18:27,060

having done this three times that this

51

00:18:32,690 --> 00:18:29,790

is the operation of doing this is

52

00:18:35,090 --> 00:18:32,700

maturing and that this is what we ought

53

00:18:37,100 --> 00:18:35,100

to be doing this is the first time in my

54

00:18:39,110 --> 00:18:37,110

three flights that I've actually gone

55

00:18:53,200 --> 00:18:39,120

someplace when I left the planet Earth

56

00:18:58,610 --> 00:18:55,970

I'm happy to be here and Kevin did a

57

00:19:03,950 --> 00:18:58,620

good job is little bit up and 76

58

00:19:15,560 --> 00:19:03,960

goodness here Thank You Sharon's you're

59

00:19:20,989 --> 00:19:19,219

and Dave we've brought some books along

60

00:19:24,399 --> 00:19:20,999

for the children of your in Europe

61

00:19:26,599 --> 00:19:24,409

because we both share the same dreams

62

00:19:29,840 --> 00:19:26,609

and that is for a future space

63

00:19:31,999 --> 00:19:29,850

exploration and for the future of our

64

00:19:33,889 --> 00:19:32,009

children and we both have talked about

65

00:19:36,349 --> 00:19:33,899

this before and we know it's very

66

00:19:38,419 --> 00:19:36,359

important that we continue on with our

67

00:19:40,519 --> 00:19:38,429

exploration of space and the

68

00:19:43,430 --> 00:19:40,529

construction of the space station and

69

00:19:47,389 --> 00:19:43,440

stand beyond not only for ourselves but

70

00:21:25,430 --> 00:19:47,399

for our children one of the finest

71

00:21:34,220 --> 00:21:30,410

go ahead chilly well I'm over in mirror

72

00:21:36,920 --> 00:21:34,230

with Yuri and I brought the PTV a bottom

73

00:21:38,990 --> 00:21:36,930

47 and there he told me there's a

74

00:21:40,730 --> 00:21:39,000

refrigerator inspector who wants stuff a

75

00:21:57,730 --> 00:21:40,740

lot of stone in there my checklist says

76

00:22:04,580 --> 00:22:02,690

chili we think it needs to go into the

77

00:22:07,940 --> 00:22:04,590

refrigerator in the base block in

78

00:22:10,970 --> 00:22:07,950

Spectre if we think it's too large to go

79

00:22:13,670 --> 00:22:10,980

into the test and it needs to be

80

00:22:19,490 --> 00:22:13,680

refrigerated and not frozen and that's

81

00:22:23,990 --> 00:22:19,500

why we don't want it in the t hoff okay

82

00:22:29,030 --> 00:22:24,000

so you want it in the base block thank

83

00:22:53,470 --> 00:22:29,040

you six that is in position 500 and just

84

00:22:58,560 --> 00:22:55,660

we tell Atlantis we're getting ready to

85

00:23:05,800 --> 00:23:01,710

step 6

86

00:23:09,880 --> 00:23:05,810

51 minutes copy that Linda did you have

87

00:23:12,670 --> 00:23:09,890

a completion time for fo 10-step of love

88

00:24:39,250 --> 00:23:12,680

and we may have had ready calm and I

89

00:24:39,260 --> 00:24:52,490

thanks chili
