

1
00:00:00,000 --> 00:01:12,980

I
2
00:01:12,990 --> 00:01:21,649
meh

3
00:01:21,659 --> 00:02:08,200
you

4
00:02:13,220 --> 00:02:11,180
good morning Atlantis I'm sure Jerry's

5
00:02:14,300 --> 00:02:13,230
glad to hear that hear that you just

6
00:02:16,640 --> 00:02:14,310
want him to hold on because you're

7
00:02:19,010 --> 00:02:16,650
coming we're about a minute to the z OE

8
00:02:22,340 --> 00:02:19,020
this will be a pretty long one will pick

9
00:02:24,620 --> 00:02:22,350
you back up at 12 13 Charlie we've also

10
00:02:26,900 --> 00:02:24,630
got some information on your supply

11
00:02:32,510 --> 00:02:26,910
wastewater dump which is coming up in

12
00:02:33,890 --> 00:02:32,520
about 15 minutes okay well good morning

13
00:02:36,320 --> 00:02:33,900

bill by the sounds of that it must be

14

00:03:00,420 --> 00:02:36,330

time to rock and roll and go ahead with

15

00:03:20,470 --> 00:03:07,030

Charlie we're on board come on go

16

00:03:27,160 --> 00:03:20,480

rockets nice hat I like it we don't like

17

00:03:28,899 --> 00:03:27,170

it surely we worked in the water dump

18

00:03:30,459 --> 00:03:28,909

effects going to be a little change

19

00:03:32,229 --> 00:03:30,469

developed filter VX so we're going to

20

00:03:36,300 --> 00:03:32,239

put up new vector and targets and then

21

00:03:36,310 --> 00:06:19,369

okay that's right

22

00:06:24,749 --> 00:06:22,200

eason last concept on my time the

23

00:06:28,529 --> 00:06:24,759

pressurization equalization is about

24

00:06:31,770 --> 00:06:28,539

over we live in clay Charlie we see that

25

00:06:33,899 --> 00:06:31,780

we're going to lose you to the z OE in a

26

00:06:39,320 --> 00:06:33,909

little under two minutes and we'll have

27

00:06:42,689 --> 00:06:41,309

manage euston were with you on the west

28

00:06:47,969 --> 00:06:42,699

and we're looking at you and hatch

29

00:06:50,640 --> 00:06:47,979

Charles okay Chris the video looks good

30

00:06:53,279 --> 00:06:50,650

you were ready to open looks great and

31

00:07:51,650 --> 00:06:53,289

sounds fine is all you have a you have a

32

00:08:44,760 --> 00:07:54,950

delana come on in sister we got Elena

33

00:08:50,080 --> 00:08:47,830

Jerry's going to bring up the patrolman

34

00:08:54,310 --> 00:08:50,090

colors here he's going to show us how to

35

00:08:57,850 --> 00:08:54,320

fly through the mirror stage a fake a

36

00:08:59,500 --> 00:08:57,860

logjam on behalf welcome everybody back

37

00:09:12,850 --> 00:08:59,510

in his demands great to have the shuttle

38

00:09:49,960 --> 00:09:15,350

personnel entering the base book and

39

00:10:14,759 --> 00:09:52,119

this is vasily says these can hardly

40

00:10:19,319 --> 00:10:17,400

we've got just about everybody sasha is

41

00:10:21,479 --> 00:10:19,329

going to come join us at the table here

42

00:10:24,629 --> 00:10:21,489

and say hello to the folks at the soup

43

00:10:26,249 --> 00:10:24,639

also I think Jerry might want to say

44

00:10:30,569 --> 00:10:26,259

something to you guys there in a control

45

00:10:32,129 --> 00:10:30,579

center do a great job appreciate you

46

00:10:33,989 --> 00:10:32,139

getting the crew up here like you didn't

47

00:10:35,429 --> 00:10:33,999

Charlie just water right in steady as

48

00:10:36,329 --> 00:10:35,439

can be you was great to see them and

49

00:10:41,340 --> 00:10:36,339

it's going to be a great celebration

50

00:10:42,809 --> 00:10:41,350

here Jerry it's a great to see you and

51
00:10:57,210 --> 00:10:42,819
we're looking forward to having you back

52
00:11:09,239 --> 00:10:57,220
at ellington it's also on tradition like

53
00:11:10,650 --> 00:11:09,249
a bird and fold Lana smear Houston if

54
00:11:14,699 --> 00:11:10,660
someone just wants to push and hold the

55
00:11:17,129 --> 00:11:14,709
button it's a pretty good area Mike okay

56
00:11:20,699 --> 00:11:17,139
Chris we're doing that and we've got one

57
00:11:22,650 --> 00:11:20,709
other gift for fashion Vasily for making

58
00:11:27,480 --> 00:11:22,660
them honorary 84 members with a little

59
00:11:36,809 --> 00:11:27,490
hat that shows our patch it's a day out

60
00:11:38,819 --> 00:11:36,819
you Usher but you wanted to know if the

61
00:11:41,309 --> 00:11:38,829
little symbol on the Hat meant that he

62
00:11:43,470 --> 00:11:41,319
was an admiral but we prefer general in

63
00:11:45,030 --> 00:11:43,480

the air force of course since watching I

64

00:11:47,699 --> 00:11:45,040

have both Air Force types we'll just go

65

00:11:54,989 --> 00:11:47,709

with that and for jolly rogers pretzels

66

00:11:59,039 --> 00:11:54,999

align and these guys were longing for

67

00:12:02,129 --> 00:11:59,049

tea so you do bit of a CH IC morning

68

00:12:04,799 --> 00:12:02,139

chase after them we've got all kinds of

69

00:12:13,499 --> 00:12:04,809

chases here for these guys tea with

70

00:12:18,879 --> 00:12:17,230

and we're ready to get to work here as

71

00:12:22,859 --> 00:12:18,889

soon as we get through some of this

72

00:12:24,730 --> 00:12:22,869

bread and tea and pretzels but in fact

73

00:12:26,259 --> 00:12:24,740

and Houston things couldn't be better

74

00:12:29,829 --> 00:12:26,269

right now than what it is for us on the

75

00:12:31,540 --> 00:12:29,839

station well Charlie from down here what

76

00:12:34,119 --> 00:12:31,550

each of these guys say a little bit

77

00:12:36,129 --> 00:12:34,129

before we run out of video Charlie it

78

00:12:38,949 --> 00:12:36,139

was a picture-perfect docking and it's

79

00:12:40,449 --> 00:12:38,959

just a great sense that we got to

80

00:12:42,189 --> 00:12:40,459

participate at all what a nice job you

81

00:12:43,780 --> 00:12:42,199

folks did on board taking up and getting

82

00:12:46,329 --> 00:12:43,790

a duct you took it right down the center

83

00:12:48,249 --> 00:12:46,339

of the pipe all the way in right through

84

00:12:50,650 --> 00:12:48,259

the middle of the docking mechanism

85

00:12:58,960 --> 00:12:50,660

perfect down the hatch and it's great to

86

00:13:01,809 --> 00:12:58,970

see all together up there now well I

87

00:13:04,299 --> 00:13:01,819

think that I've told you many many times

88

00:13:07,059 --> 00:13:04,309

I was saying to me and this time is true

89

00:13:09,160 --> 00:13:07,069

it's a very strong fear especially the

90

00:13:10,660 --> 00:13:09,170

human aspect of its opening a door and

91

00:13:14,259 --> 00:13:10,670

shaking hands with people who have been

92

00:13:17,379 --> 00:13:14,269

there like in a further way home that

93

00:13:20,319 --> 00:13:17,389

that was a very very great feeling they

94

00:13:22,239 --> 00:13:20,329

got to do and very glad to share this

95

00:13:29,499 --> 00:13:22,249

instance with all those friends over

96

00:13:31,269 --> 00:13:29,509

here so I can't think of a better all

97

00:13:33,759 --> 00:13:31,279

what is start off my career is an

98

00:13:36,429 --> 00:13:33,769

astronaut this is the that's a second it

99

00:13:41,169 --> 00:13:36,439

started to be and must be back among

100

00:13:42,819 --> 00:13:41,179

friends again so like to say that this

101
00:13:45,400 --> 00:13:42,829
is odd it's amazing I can't believe

102
00:13:47,470 --> 00:13:45,410
we're actually here and Charlie flew a

103
00:13:53,220 --> 00:13:47,480
beautiful docking and I'm sure the

104
00:13:57,369 --> 00:13:56,289
well I want a big smile on my face I've

105
00:14:08,980 --> 00:13:57,379
been looking forward to seeing these

106
00:14:10,749 --> 00:14:08,990
guys but want to get the ship ready and

107
00:14:13,239 --> 00:14:10,759
get these going and the transfer started

108
00:14:14,859 --> 00:14:13,249
until us together the south side of it

109
00:14:17,650 --> 00:14:14,869
clearly need to get to open their

110
00:14:19,509 --> 00:14:17,660
scientists are 12 5 months ago I'm so

111
00:14:22,820 --> 00:14:19,519
happy just to relax and take it out in a

112
00:14:25,460 --> 00:14:22,830
very notice with Sasha and Vasily weeks

113
00:14:27,170 --> 00:14:25,470

arises j-hope Tiffany can the rest of us

114

00:14:29,180 --> 00:14:27,180

cause of infinite space a few days and I

115

00:14:37,000 --> 00:14:29,190

hope very much to have the kind of skool

116

00:14:46,010 --> 00:14:37,010

skool go hard when they move around I'm

117

00:14:51,980 --> 00:14:46,020

here the algorithm haiku American cool

118

00:14:54,230 --> 00:14:51,990

and my Russian crew last time I was here

119

00:14:56,810 --> 00:14:54,240

I only got within 30 feet they would

120

00:14:58,220 --> 00:14:56,820

love to get any closer but sorry I got a

121

00:15:00,050 --> 00:14:58,230

chance to come all the way to mere

122

00:15:02,030 --> 00:15:00,060

Charlie did such a excellent job of

123

00:15:04,070 --> 00:15:02,040

bringing us in here today and we are

124

00:15:15,050 --> 00:15:04,080

ready to go to work and keep this space

125

00:15:20,890 --> 00:15:15,060

program rolling thanks everybody hey

126

00:15:23,180 --> 00:15:20,900

Chris are you Sarah we sure are Charlie

127

00:15:24,860 --> 00:15:23,190

before we run out of video with you I

128

00:15:26,180 --> 00:15:24,870

just want to say thanks to everybody in

129

00:15:28,040 --> 00:15:26,190

both control centers we don't have a

130

00:15:29,780 --> 00:15:28,050

contest with the super 8 out there if

131

00:15:32,300 --> 00:15:29,790

you passed to them what makes our

132

00:15:33,800 --> 00:15:32,310

corporation helping everyone there on

133

00:15:36,260 --> 00:15:33,810

the ground on the control sound Houston

134

00:15:37,850 --> 00:15:36,270

all the training team takes all the pies

135

00:15:39,860 --> 00:15:37,860

out of specialists everybody put this

136

00:15:41,330 --> 00:15:39,870

together I can't think of a more normal

137

00:15:42,950 --> 00:15:41,340

way to go to a little bit come to the

138

00:15:44,900 --> 00:15:42,960

station back and get ready to go to work

139

00:15:46,130 --> 00:15:44,910

than what we had to experience here in

140

00:15:47,990 --> 00:15:46,140

the last couple of days just been

141

00:15:49,700 --> 00:15:48,000

perfect or not thank you all so you did

142

00:15:53,990 --> 00:15:49,710

may have looked at those on because I

143

00:15:55,730 --> 00:15:54,000

will look thanks for the good words

144

00:16:28,570 --> 00:15:55,740

Charlie and they're going directly

145

00:16:36,350 --> 00:16:31,010

Atlantis mere houston we have an image

146

00:16:38,240 --> 00:16:36,360

coming down on the downlink okay this is

147

00:17:02,370 --> 00:16:38,250

a little meal get together we had after

148

00:17:11,020 --> 00:17:06,280

boys to mrs. I Atlantis a discovery no

149

00:17:12,490 --> 00:17:11,030

prob you know better that's fear um your

150

00:17:15,790 --> 00:17:12,500

massive pipe remember would like to

151
00:17:18,400 --> 00:17:15,800
report that he has a voice switched over

152
00:17:21,300 --> 00:17:18,410
to the side we have done a successful

153
00:17:24,220 --> 00:17:21,310
check of my spacesuit in the Soyuz and

154
00:17:27,400 --> 00:17:24,230
most important the food is getting ready

155
00:17:28,510 --> 00:17:27,410
in the base block endure I guess we're

156
00:17:30,250 --> 00:17:28,520
sitting back hanging on the wall

157
00:17:33,030 --> 00:17:30,260
inspector so I'd like to report that I

158
00:17:38,260 --> 00:17:33,040
have a exchange places of Jerry and

159
00:17:40,570 --> 00:17:38,270
looking forward to my station we can't

160
00:17:42,460 --> 00:17:40,580
be very here I stand relieved of duties

161
00:17:46,510 --> 00:17:42,470
out of there it's good to be back on us

162
00:17:48,220 --> 00:17:46,520
soil joint totally Precourt screws and

163
00:17:50,380 --> 00:17:48,230

looking forward to seeing you all back
