

1
00:01:03,910 --> 00:01:00,069
i see

2
00:01:10,230 --> 00:01:07,109
red roses stew

3
00:01:12,710 --> 00:01:10,240
i see them flew

4
00:01:17,350 --> 00:01:12,720
from me and you

5
00:01:17,360 --> 00:01:23,510
what i wonder was

6
00:01:31,990 --> 00:01:28,630
i see skies are blue

7
00:01:35,030 --> 00:01:32,000
and clouds of white

8
00:01:37,590 --> 00:01:35,040
the brightness of this

9
00:01:41,749 --> 00:01:37,600
dark sacred night

10
00:01:41,759 --> 00:01:49,350
what a wonderful

11
00:01:55,910 --> 00:01:52,389
the colors of the rainbow

12
00:02:01,510 --> 00:01:58,789
also on the faces

13
00:02:04,950 --> 00:02:01,520

of people going by

14

00:02:06,149 --> 00:02:04,960

i see friends shaking hands

15

00:02:09,270 --> 00:02:06,159

saying

16

00:02:12,229 --> 00:02:09,280

how do you do

17

00:02:13,030 --> 00:02:12,239

they're really saying

18

00:02:15,110 --> 00:02:13,040

i

19

00:02:19,190 --> 00:02:15,120

love you

20

00:02:28,150 --> 00:02:19,200

i hear baby cry

21

00:02:28,160 --> 00:02:41,190

and i think to myself

22

00:02:41,200 --> 00:02:46,309

i think to myself

23

00:02:46,319 --> 00:03:01,670

what a wonderful

24

00:03:05,430 --> 00:03:03,910

lannister houston good morning and it's

25

00:03:07,270 --> 00:03:05,440

27
00:03:11,350 --> 00:03:08,480

00:03:22,720 --> 00:03:28,470
will do

33
00:03:33,030 --> 00:03:30,630
atlantis mere houston sorry for the calm

34
00:03:35,350 --> 00:03:33,040
dropout we're back with you again we had

35
00:03:41,990 --> 00:03:35,360
some blockage off the ku and we were off

36
00:03:46,470 --> 00:03:44,710
jim the call out about now

37
00:03:48,149 --> 00:03:46,480
for com activation

38
00:03:50,869 --> 00:03:48,159

that was a misprint it should have been

39

00:03:53,030 --> 00:03:50,879

vhf radio setup

40

00:03:57,830 --> 00:03:53,040

it's in the mirror shuttle non-joint

41

00:06:14,309 --> 00:04:01,190

is doing that now thank you

42

00:06:19,830 --> 00:06:17,029

atlantis mere houston

43

00:06:21,749 --> 00:06:19,840

where scott is in the eva

44

00:06:24,870 --> 00:06:21,759

checklist right now

45

00:06:27,270 --> 00:06:24,880

due to the level of the cabin co2 when

46

00:06:29,350 --> 00:06:27,280

the helmet was installed

47

00:08:19,830 --> 00:06:29,360

it would be possible to get a monitor

48

00:09:33,030 --> 00:08:20,950

and

49

00:09:33,040 --> 00:09:36,470

right place

50

00:09:36,480 --> 00:09:41,990

i will make picture i cannot

51
00:10:01,190 --> 00:09:44,550
lost with childs

52
00:10:01,200 --> 00:10:32,389
it is loosened

53
00:10:32,399 --> 00:10:45,190
there you go

54
00:11:13,670 --> 00:10:47,590
great

55
00:11:13,680 --> 00:11:53,110
but right not okay

56
00:11:57,190 --> 00:11:56,310
okay that's completely

57
00:11:59,750 --> 00:11:57,200
yep

58
00:12:01,269 --> 00:11:59,760
okay are you close okay close it the

59
00:12:03,430 --> 00:12:01,279
rest of the way vladimir

60
00:12:05,670 --> 00:12:03,440
yes

61
00:12:13,430 --> 00:12:05,680
bloomer it's a two minute zoe but we'll

62
00:12:13,440 --> 00:12:31,269
once again

63
00:12:31,279 --> 00:12:35,110

get up here a little bit

64

00:12:35,120 --> 00:12:50,949

antenna very close left

65

00:12:54,870 --> 00:12:52,470

there you go that's better

66

00:12:57,110 --> 00:12:54,880

so i'm trying to move outward so that i

67

00:12:59,590 --> 00:12:57,120

avoid it all together if you're looking

68

00:13:01,590 --> 00:12:59,600

good now you just uh you got uh

69

00:13:15,509 --> 00:13:01,600

vladimir's safety together on the top of

70

00:13:15,519 --> 00:13:36,069

good very good

71

00:13:36,079 --> 00:13:40,949

oh beautiful view

72

00:13:40,959 --> 00:13:48,069

south america

73

00:13:48,079 --> 00:14:14,069

indeed

74

00:14:14,079 --> 00:14:42,550

yes

75

00:14:42,560 --> 00:14:46,069

there it there it is

76

00:14:46,079 --> 00:15:02,949

fully closed

77

00:15:12,150 --> 00:15:04,470

you push me

78

00:15:16,069 --> 00:15:13,910

here i'm right here

79

00:15:17,509 --> 00:15:16,079

okay good

80

00:15:19,430 --> 00:15:17,519

step a little bit higher in the docking

81

00:15:20,790 --> 00:15:19,440

module so we can

82

00:15:33,509 --> 00:15:20,800

feel like that

83

00:15:37,189 --> 00:15:35,269

this is mission control houston again

84

00:15:38,310 --> 00:15:37,199

this sequential still video being

85

00:15:41,110 --> 00:15:38,320

provided through the s-band

86

00:15:43,189 --> 00:15:41,120

communication system on atlanta showing

87

00:15:46,430 --> 00:15:43,199

astronauts scott parazynski and vladimir

88

00:15:49,189 --> 00:15:46,440

ttov hauling up two and now fixing the

89

00:16:04,550 --> 00:15:49,199

121-pound solar array cap to the side of

90

00:16:07,269 --> 00:16:06,069

okay

91

00:16:10,629 --> 00:16:07,279

i don't know that we really need that

92

00:16:12,710 --> 00:16:10,639

here today because we've got the two

93

00:16:14,230 --> 00:16:12,720

a lot better if you did what's that i'd

94

00:16:23,269 --> 00:16:14,240

feel a lot better if you did i've

95

00:16:26,949 --> 00:16:24,870

okay scott we're all ready vladimir are

96

00:16:34,870 --> 00:16:26,959

you ready yes

97

00:16:47,749 --> 00:16:37,269

scott perezinski um deploying the hand

98

00:16:51,509 --> 00:16:49,749

yeah it looked real nice you know from

99

00:16:53,910 --> 00:16:51,519

this perspective too it

100

00:16:56,550 --> 00:16:53,920

played pretty quickly and

101
00:16:58,710 --> 00:16:56,560
we had to grab it right away

102
00:17:19,270 --> 00:16:58,720
the tether came out without any problem

103
00:17:19,280 --> 00:17:23,350
there you go

104
00:17:27,429 --> 00:17:24,630
the thrusters

105
00:17:30,870 --> 00:17:27,439
i see the aah light on

106
00:17:36,390 --> 00:17:30,880
and i want to move just a slight pitch

107
00:17:40,070 --> 00:17:38,549
okay looks like we have a good unit can

108
00:17:41,510 --> 00:17:40,080
you hear that

109
00:17:42,310 --> 00:17:41,520
that's one of the questions here yes i

110
00:18:04,630 --> 00:17:42,320
can

111
00:18:07,029 --> 00:18:04,640
them not at all okay

112
00:18:09,190 --> 00:18:07,039
and uh for what it's worth

113
00:18:12,549 --> 00:18:09,200

i put the dc or the hand controller

114

00:18:15,270 --> 00:18:12,559
module on my uh dcm patch here

115

00:18:18,150 --> 00:18:15,280
that works worked out pretty well

116

00:18:21,430 --> 00:18:19,830
and if vladimir could come over it might

117

00:18:24,789 --> 00:18:21,440
be real convenient to put that thing

118

00:18:30,230 --> 00:18:24,799
away while you're still in the uh

119

00:18:50,070 --> 00:18:34,070
looks good great thanks good lisa

120

00:18:53,110 --> 00:18:51,270
okay

121

00:19:08,150 --> 00:18:53,120
and the tomatoes and eggplants are warm

122

00:19:08,160 --> 00:19:44,630
okay

123

00:19:49,270 --> 00:19:47,029
all right great and we'll check the

124

00:19:58,630 --> 00:19:49,280
waters off one more time just remove etm

125

00:20:02,789 --> 00:19:59,990
we know you're busy getting ready to

126

00:20:06,310 --> 00:20:02,799

re-press but we just wanted to say that

127

00:20:08,710 --> 00:20:06,320

outstanding job on the eva today and for

128

00:20:11,110 --> 00:20:08,720

uh scott congratulations

129

00:20:13,669 --> 00:20:11,120

uh becoming a member of that exclusive

130

00:20:15,430 --> 00:20:13,679

club of spacewalkers i can't speak from

131

00:20:16,549 --> 00:20:15,440

experience myself with steve smith's

132

00:20:18,549 --> 00:20:16,559

here and

133

00:20:21,830 --> 00:20:18,559

he watched the whole thing outstanding

134

00:20:23,590 --> 00:20:21,840

job also for volodya uh you're making

135

00:20:26,390 --> 00:20:23,600

history today of course is the first

136

00:20:27,750 --> 00:20:26,400

non-american to wear an emu

137

00:20:29,510 --> 00:20:27,760

you both worked

138

00:20:31,669 --> 00:20:29,520

fabulously out there and bloomer

139

00:20:35,510 --> 00:20:31,679

congratulations great job orchestrating

140

00:20:37,750 --> 00:20:35,520

the eva welcome back

141

00:20:39,830 --> 00:20:37,760

thanks a lot mark this is a thrill of a

142

00:20:41,750 --> 00:20:39,840

lifetime i've waited my entire life to

143

00:20:43,750 --> 00:20:41,760

do something like this and

144

00:20:46,230 --> 00:20:43,760

it was even better than uh better than

145

00:20:48,630 --> 00:20:46,240

what i had imagined and uh

146

00:20:50,710 --> 00:20:48,640

appreciate all the work uh you guys did

147

00:20:53,350 --> 00:20:50,720

on the ground and of course my my good

148

00:20:55,590 --> 00:20:53,360

friend valodia and bloomer as well for

149

00:20:57,510 --> 00:20:55,600

helping orchestrate this and it's nice
