

1
00:00:17,519 --> 00:00:16,470
when we landed on the moon and we were

2
00:00:19,439 --> 00:00:17,529
waiting for the first television

3
00:00:22,170 --> 00:00:19,449
pictures from the moon I was at Houston

4
00:00:24,570 --> 00:00:22,180
and at that moment up and tell that

5
00:00:27,089 --> 00:00:24,580
moment television have always been a

6
00:00:29,159 --> 00:00:27,099
goal but not a requirement

7
00:00:30,689 --> 00:00:29,169
so television did not have to be

8
00:00:32,400 --> 00:00:30,699
transmitted from the moon the mission

9
00:00:40,729 --> 00:00:32,410
would still be success because the

10
00:00:46,380 --> 00:00:43,950
once we landed safely the only thing

11
00:00:48,090 --> 00:00:46,390
that counted was for us to see the

12
00:00:49,830 --> 00:00:48,100
picture that's when I realized the

13
00:00:52,799 --> 00:00:49,840

pressure of everything better work that

14

00:00:55,260 --> 00:00:52,809

we had worked all these years maybe two

15

00:00:58,439 --> 00:00:55,270

years in a rush program to have in place

16

00:01:01,139 --> 00:00:58,449

so what I felt at that moment was my

17

00:01:04,320 --> 00:01:01,149

gosh it's all coming down now that once

18

00:01:06,630 --> 00:01:04,330

we landed the TV better work or else and

19

00:01:08,790 --> 00:01:06,640

if it doesn't they rarely will know who

20

00:01:17,580 --> 00:01:08,800

I am because I'll be the man who didn't

21

00:01:19,200 --> 00:01:17,590

bring you television from the moon so it

22

00:01:20,550 --> 00:01:19,210

was pretty nerve-wracking until we got

23

00:01:22,649 --> 00:01:20,560

the pictures and of course they were

24

00:01:24,749 --> 00:01:22,659

ghostie whatever but it kind of fit in

25

00:01:26,999 --> 00:01:24,759

with what you would expect from from the
