9  
00:00:31,750 --> 00:00:29,279  
orbiting 220 miles above our beautiful

10  
00:00:33,910 --> 00:00:31,760  
planet earth

11  
00:00:35,670 --> 00:00:33,920  
on behalf of the men and women of nasa

12  
00:00:37,750 --> 00:00:35,680  
it is our honor to accept the governor's

13  
00:00:39,430 --> 00:00:37,760

award for lifetime achievement from the

14

00:00:41,990 --> 00:00:39,440

mid-south chapter of the national

15

00:00:44,229 --> 00:00:42,000

academy of television arts and sciences

16

00:00:45,670 --> 00:00:44,239

nasa television as you know it today was

17

00:00:48,709 --> 00:00:45,680

born with the launch of the first space

18

00:00:51,110 --> 00:00:48,719

shuttle in 1981 but the agency actually

19

00:00:52,709 --> 00:00:51,120

pioneered the use of live satellite and

20

00:00:55,590 --> 00:00:52,719

television technology since it was

21

00:00:57,590 --> 00:00:55,600

founded 50 years ago

22

00:00:59,670 --> 00:00:57,600

and from those first grainy images

23

00:01:01,590 --> 00:00:59,680

broadcast from the surface of the moon

24

00:01:04,310 --> 00:01:01,600

to the first high definition video from

25

00:01:06,310 --> 00:01:04,320

space television has played a vital role

26

00:01:08,469 --> 00:01:06,320

for the safety and success of our

27

00:01:10,390 --> 00:01:08,479

missions and it has enabled the entire

28

00:01:11,429 --> 00:01:10,400

world to share in our exploration

29

00:01:13,109 --> 00:01:11,439

efforts

30

00:01:14,630 --> 00:01:13,119

so we're excited for the chance to take

31

00:01:17,429 --> 00:01:14,640

you into space for the miracle of

32

00:01:19,030 --> 00:01:17,439

television and i can assure you the best

33

00:01:21,109 --> 00:01:19,040

is yet to come

34

00:01:31,510 --> 00:01:21,119

again thank you on behalf of nasa for

35

00:01:35,429 --> 00:01:33,429

thank you commander and here on earth

36

00:01:43,030 --> 00:01:35,439

the statue is being accepted by bob

37

00:01:47,109 --> 00:01:45,190

thank you congressman gordon i'd like to

38

00:01:49,429 --> 00:01:47,119

uh take this opportunity to thank him

39

00:01:51,350 --> 00:01:49,439

for his leadership in the house science

40

00:01:52,870 --> 00:01:51,360

and technology committee it's

41

00:01:54,870 --> 00:01:52,880

because of him that we're able to do a

42

00:01:58,870 --> 00:01:54,880

lot of the work that you

43

00:02:01,910 --> 00:02:00,230

and i'd also like to thank of course the

44

00:02:03,350 --> 00:02:01,920

board of governors for recognizing nasa

45

00:02:04,630 --> 00:02:03,360

television a lot of people do a lot of

46

00:02:07,590 --> 00:02:04,640

hard work

47

00:02:08,869 --> 00:02:07,600

to bring you the images from space

48

00:02:10,150 --> 00:02:08,879

and

49

00:02:12,150 --> 00:02:10,160

they're just a tremendous group of

50

00:02:13,750 --> 00:02:12,160

people to work with

51  
00:02:15,990 --> 00:02:13,760  
personally this is an exciting night for

52  
00:02:18,070 --> 00:02:16,000  
me because i'm a nashville native and i

53  
00:02:19,990 --> 00:02:18,080  
began my television career

54  
00:02:20,830 --> 00:02:20,000  
many years ago

55  
00:02:25,430 --> 00:02:20,840  
with

56  
00:02:26,630 --> 00:02:25,440  
wsmv and uh guys keep up the good work

57  
00:02:27,750 --> 00:02:26,640  
love watching you when i get to come

58  
00:02:29,670 --> 00:02:27,760  
into town

59  
00:02:32,309 --> 00:02:29,680  
uh but about 10 years ago when i had the

60  
00:02:34,229 --> 00:02:32,319  
opportunity to join nasa i was

61  
00:02:35,910 --> 00:02:34,239  
struggling with the idea of moving from

62  
00:02:37,990 --> 00:02:35,920  
news into government and a friend of

63  
00:02:39,910 --> 00:02:38,000

mine said you can continue to write

64

00:02:41,110 --> 00:02:39,920

about history or you could become a part

65

00:02:44,470 --> 00:02:41,120

of it

66

00:02:45,430 --> 00:02:44,480

and uh i never look back and those guys

67

00:02:47,030 --> 00:02:45,440

uh

68

00:02:48,550 --> 00:02:47,040

that work on asset television from the

69

00:02:50,470 --> 00:02:48,560

astronauts to the scientists to the

70

00:02:52,229 --> 00:02:50,480

engineers the producers

71

00:02:54,869 --> 00:02:52,239

they all work very hard to make you a

72

00:03:02,830 --> 00:02:54,879

part of the space program so for them

73

00:03:06,470 --> 00:03:04,949

much well this tribute would be

74

00:03:07,990 --> 00:03:06,480

incomplete without highlighting the

75

00:03:09,030 --> 00:03:08,000

scientific work done at the marshall

76

00:03:11,190 --> 00:03:09,040

space flight center here in the

77

00:03:14,070 --> 00:03:11,200

mid-south region

78

00:03:16,229 --> 00:03:14,080

85

00:03:35,830 --> 00:03:27,840

lab one among other accomplishments

86

00:03:41,350 --> 00:03:38,390

i want to add my congratulations to the

87

00:03:43,110 --> 00:03:41,360

very talented people at nasa who created

88

00:03:45,830 --> 00:03:43,120

nasa tv

89

00:03:48,710 --> 00:03:45,840

they have opened a magnificent window

90

00:03:51,190 --> 00:03:48,720

into exploration for all of the american

91

00:03:54,309 --> 00:03:51,200

public and this window is particularly

92

00:03:56,949 --> 00:03:54,319

important to us today in america as a as

93

00:03:59,990 --> 00:03:56,959

an attraction for our students who will

94

00:04:01,990 --> 00:04:00,000

become the nation's future explorers and

95

00:04:04,630 --> 00:04:02,000

who are making their career decisions

96

00:04:06,789 --> 00:04:04,640

right now i want to recognize the nasa
