

1  
00:00:05,670 --> 00:00:02,629  
hello i'd like to give you a quick tour

2  
00:00:09,110 --> 00:00:05,680  
of uh my crew quarters uh this is where

3  
00:00:11,190 --> 00:00:09,120  
i slept during expedition 18. i started

4  
00:00:15,030 --> 00:00:11,200  
off in the russian crew quarters

5  
00:00:16,950 --> 00:00:15,040  
in the service module but once sts-126

6  
00:00:19,109 --> 00:00:16,960  
the uf2 flight came

7  
00:00:21,750 --> 00:00:19,119  
they brought with them

8  
00:00:23,269 --> 00:00:21,760  
the starboard and port crew quarters

9  
00:00:25,670 --> 00:00:23,279  
here in node 2

10  
00:00:27,189 --> 00:00:25,680  
some assembly required thanks sandy for

11  
00:00:32,310 --> 00:00:27,199  
putting them together

12  
00:00:32,320 --> 00:00:35,990  
has my name on it and everything

13  
00:00:40,389 --> 00:00:37,510

you can see inside

14

00:00:41,830 --> 00:00:40,399

on the left hand side is my sleeping bag

15

00:00:45,110 --> 00:00:41,840

you can see we're strapped against the

16

00:00:46,630 --> 00:00:45,120

wall and we do indeed sleep standing up

17

00:00:49,190 --> 00:00:46,640

i have a few personal effects you know

18

00:00:50,549 --> 00:00:49,200

pictures of my family my wedding band so

19

00:00:51,430 --> 00:00:50,559

i don't lose it

20

00:00:53,510 --> 00:00:51,440

and then

21

00:00:55,510 --> 00:00:53,520

also a computer here i really think it's

22

00:00:56,790 --> 00:00:55,520

important to have a computer inside

23

00:00:59,189 --> 00:00:56,800

that way i can

24

00:01:01,510 --> 00:00:59,199

read my books i love love reading books

25

00:01:03,590 --> 00:01:01,520

in my spare time and so you can see

26

00:01:06,070 --> 00:01:03,600

there's a book reader on there already

27

00:01:08,550 --> 00:01:06,080

with one of my favorite magazines

28

00:01:10,070 --> 00:01:08,560

you can see there's also a light inside

29

00:01:11,270 --> 00:01:10,080

and some speakers in case there's an

30

00:01:13,270 --> 00:01:11,280

emergency

31

00:01:15,910 --> 00:01:13,280

the blue box you see there is a power

32

00:01:16,870 --> 00:01:15,920

supply this little radiation monitor

33

00:01:18,630 --> 00:01:16,880

and

34

00:01:20,230 --> 00:01:18,640

that's pretty much it

35

00:01:22,230 --> 00:01:20,240

a little uh

36

00:01:23,590 --> 00:01:22,240

handrail on the floor so we can grab it

37

00:01:26,950 --> 00:01:23,600

with our feet
