

1  
00:00:11,720 --> 00:00:08,930  
space shuttle Endeavour is one step

2  
00:00:14,539 --> 00:00:11,730  
closer to lift off on its sts-1 30

3  
00:00:16,010 --> 00:00:14,549  
mission endeavour moved out of Kennedy

4  
00:00:19,849 --> 00:00:16,020  
Space Center's Vehicle Assembly Building

5  
00:00:22,640 --> 00:00:19,859  
and 413 am a cold pre-dawn journey to

6  
00:00:24,620 --> 00:00:22,650  
launch pad 39a the track crawler

7  
00:00:26,960 --> 00:00:24,630  
transporter carried the shuttle and its

8  
00:00:29,570 --> 00:00:26,970  
launch platform at less than one mile an

9  
00:00:31,849 --> 00:00:29,580  
hour that's a flow director Dana

10  
00:00:34,040 --> 00:00:31,859  
Hutchison explains how the shuttle team

11  
00:00:35,930 --> 00:00:34,050  
and endeavour itself were protected from

12  
00:00:38,090 --> 00:00:35,940  
bone-chilling overnight temperatures

13  
00:00:40,130 --> 00:00:38,100

that dipped below freezing it is a

14

00:00:43,130 --> 00:00:40,140

little bit chilly for for us floridians

15

00:00:44,990 --> 00:00:43,140

here at the Cape for the technical side

16

00:00:46,970 --> 00:00:45,000

of the peak of the orbiter we actually

17

00:00:48,380 --> 00:00:46,980

do have heaters and purges going on the

18

00:00:49,880 --> 00:00:48,390

vehicle to keep the vehicle nice and

19

00:00:51,830 --> 00:00:49,890

warm and cozy we are a little concerned

20

00:00:53,720 --> 00:00:51,840

about the personnel being outside during

21

00:00:56,180 --> 00:00:53,730

these cold temperatures overnight we

22

00:00:57,770 --> 00:00:56,190

have the team rotating in and out about

23

00:01:00,230 --> 00:00:57,780

30 minutes shifts so they can get a

24

00:01:02,870 --> 00:01:00,240

little bit warm and come in and and take

25

00:01:06,319 --> 00:01:02,880

a break the shuttle reached the launch

26

00:01:10,459 --> 00:01:06,329

pads gate at 8 45 a.m. and the move was

27

00:01:12,319 --> 00:01:10,469

complete at 1037 am now teams can begin

28

00:01:13,849 --> 00:01:12,329

final preparations for endeavours

29

00:01:17,690 --> 00:01:13,859

mission to the international space

30

00:01:19,219 --> 00:01:17,700

station this is a very exciting time the

31

00:01:20,870 --> 00:01:19,229

team is in good spirits you know have a

32

00:01:22,489 --> 00:01:20,880

great team working with us and we're and

33

00:01:24,230 --> 00:01:22,499

everybody seems to be focused on the

34

00:01:26,359 --> 00:01:24,240

task at hand and giving endeavour
