

1
00:00:05,990 --> 00:00:03,990
tranquility the next pressurized element

2
00:00:08,070 --> 00:00:06,000
of the international space station was

3
00:00:09,830 --> 00:00:08,080
given the final once-over by reporters

4
00:00:12,470 --> 00:00:09,840
at a kennedy space center media event

5
00:00:14,230 --> 00:00:12,480
january 8 prior to its scheduled launch

6
00:00:15,990 --> 00:00:14,240
aboard space shuttle endeavour next

7
00:00:18,470 --> 00:00:16,000
month right now it's very proud on space

8
00:00:19,910 --> 00:00:18,480
station and the note 3 will allow all

9
00:00:22,550 --> 00:00:19,920
these various

10
00:00:24,710 --> 00:00:22,560
crew racks and exercise devices and

11
00:00:26,870 --> 00:00:24,720
science experiments to move from space

12
00:00:28,550 --> 00:00:26,880
station to the note 3 and now free up

13
00:00:30,070 --> 00:00:28,560

space in the future for other science

14

00:00:32,069 --> 00:00:30,080

experiments that are coming up the

15

00:00:33,590 --> 00:00:32,079

tranquility node will provide room for

16

00:00:36,549 --> 00:00:33,600

many of the station's life support

17

00:00:39,030 --> 00:00:36,559

systems its cupola a unique workstation

18

00:00:41,750 --> 00:00:39,040

with seven windows resembling a circular

19

00:00:43,990 --> 00:00:41,760

bay window will provide crew members a

20

00:00:46,950 --> 00:00:44,000

vastly improved view of the station's

21

00:00:49,510 --> 00:00:46,960

exterior tranquility and its cupola will

22

00:00:52,069 --> 00:00:49,520

fly aboard endeavour on the sts-130
