

1  
00:00:07,049 --> 00:00:03,870  
the NASA community took time January

2  
00:00:09,629 --> 00:00:07,059  
29th to honor the men and women lost in

3  
00:00:11,549 --> 00:00:09,639  
the course of exploration at the

4  
00:00:14,339 --> 00:00:11,559  
agency's launch site Kennedy Space

5  
00:00:16,980 --> 00:00:14,349  
Center in Florida center director and

6  
00:00:19,259 --> 00:00:16,990  
former astronaut Bob Cabana marked

7  
00:00:21,570 --> 00:00:19,269  
NASA's Day of Remembrance during a

8  
00:00:24,419 --> 00:00:21,580  
wreath-laying ceremony at the astronaut

9  
00:00:26,900 --> 00:00:24,429  
Memorial located at the center's Visitor

10  
00:00:29,630 --> 00:00:26,910  
Complex president john f kennedy

11  
00:00:32,609 --> 00:00:29,640  
characterized it as the most hazardous

12  
00:00:35,040 --> 00:00:32,619  
dangerous and greatest adventure on

13  
00:00:38,040 --> 00:00:35,050

which man has ever embarked it's not an

14

00:00:39,420 --> 00:00:38,050

adventure that's without risk explorers

15

00:00:41,700 --> 00:00:39,430

throughout history have put themselves

16

00:00:44,700 --> 00:00:41,710

at risk for the never-ending quest for

17

00:00:47,279 --> 00:00:44,710

knowledge that drives us all we are well

18

00:00:49,920 --> 00:00:47,289

aware of the risks but that doesn't stop

19

00:00:52,500 --> 00:00:49,930

us from pressing on NASA's Day of

20

00:00:55,290 --> 00:00:52,510

Remembrance commemorates sacrifices made

21

00:00:59,090 --> 00:00:55,300

by explorers including three astronauts

22

00:01:01,529 --> 00:00:59,100

killed during the Apollo 1 fire in 1967

23

00:01:04,470 --> 00:01:01,539

seven who perished in the challenger

24

00:01:06,660 --> 00:01:04,480

launch in nineteen eighty six and seven

25

00:01:10,980 --> 00:01:06,670

lost and breakup of Columbia during

26

00:01:13,890 --> 00:01:10,990

reentry in 2003 each accident became a

27

00:01:16,230 --> 00:01:13,900

turning point for NASA officials note

28

00:01:18,600 --> 00:01:16,240

that the agency might not have made some

29

00:01:21,990 --> 00:01:18,610

of its strongest gains without the

30

00:01:24,750 --> 00:01:22,000

lessons of the Lost flights this is an

31

00:01:26,580 --> 00:01:24,760

exciting time and we honor those who

32

00:01:28,950 --> 00:01:26,590

have gone before us by continuing our

33

00:01:32,190 --> 00:01:28,960

quest for knowledge in this greatest

34

00:01:35,040 --> 00:01:32,200

adventure of all time as NASA looks

35

00:01:37,350 --> 00:01:35,050

forward to its future plans in space the

36

00:01:41,700 --> 00:01:37,360

agency also wants to remember the people
