They are both looking towards the camera. The background shows various pieces of equipment and a window.

STS-130 Mission Specialist

1  
00:00:09,830 --> 00:00:08,230  
hi i'm mike massimino we've been

2  
00:00:11,190 --> 00:00:09,840  
following along with the astronauts who

3  
00:00:12,950 --> 00:00:11,200  
are going to fly the next shuttle

4  
00:00:15,430 --> 00:00:12,960  
mission to the international space

5  
00:00:17,269 --> 00:00:15,440  
station what you are about to see is the

6  
00:00:18,790 --> 00:00:17,279  
crew practicing for their mission the

7  
00:00:20,710 --> 00:00:18,800  
team that is responsible for training

8  
00:00:24,150 --> 00:00:20,720  
them and get a sense of what it's like

9  
00:00:26,070 --> 00:00:24,160  
to fly the shuttle this is scs-130

10  
00:00:28,630 --> 00:00:26,080  
behind the scenes

11  
00:00:30,390 --> 00:00:28,640  
hold it what's up

12  
00:00:31,349 --> 00:00:30,400  
terry birds howdy what's going on in

13  
00:00:33,270 --> 00:00:31,359

here aren't you supposed to be in the

14

00:00:34,069 --> 00:00:33,280

simulator we are the guy sitting in the

15

00:00:35,510 --> 00:00:34,079

mouth

16

00:00:36,950 --> 00:00:35,520

yeah they let you push the big red

17

00:00:39,110 --> 00:00:36,960

button making malfunctions for my

18

00:00:41,350 --> 00:00:39,120

roommates

19

00:00:43,990 --> 00:00:41,360

now we're going over all of our node 3

20

00:00:45,110 --> 00:00:44,000

activation procedures oh my goodness yes

21

00:00:46,549 --> 00:00:45,120

there's a lot

22

00:00:48,869 --> 00:00:46,559

this is a nine hour long procedure we're

23

00:00:50,310 --> 00:00:48,879

going over right now wow yes

24

00:00:51,990 --> 00:00:50,320

you get paid a little overtime maybe for

25

00:00:54,389 --> 00:00:52,000

that yes well for the last hour the

26

00:00:55,510 --> 00:00:54,399

first aid is regular

27

00:00:56,950 --> 00:00:55,520

yeah yeah

28

00:01:00,229 --> 00:00:56,960

so far you try to claim it to what

29

00:01:01,750 --> 00:01:00,239

happens now once they launch your job is

30

00:01:03,189 --> 00:01:01,760

pretty much done is that right for the

31

00:01:04,630 --> 00:01:03,199

other community but you have a role

32

00:01:05,910 --> 00:01:04,640

during a mission as well

33

00:01:07,590 --> 00:01:05,920

in theory our only role during the

34

00:01:08,870 --> 00:01:07,600

mission is to be on call if there's a

35

00:01:10,630 --> 00:01:08,880

real-time problem that they need a

36

00:01:11,910 --> 00:01:10,640

simulator called up for

37

00:01:13,109 --> 00:01:11,920

so if they're trying to make a decision

38

00:01:14,310 --> 00:01:13,119

on orbit or they want to know how

39

00:01:15,429 --> 00:01:14,320

something's going to they're going to do

40

00:01:16,789 --> 00:01:15,439

something they didn't expect they won't

41

00:01:18,070 --> 00:01:16,799

know how it's going to go yeah we're on

42

00:01:19,429 --> 00:01:18,080

call to pull up the simulator if they

43

00:01:20,789 --> 00:01:19,439

want to check it all right other than

44

00:01:22,550 --> 00:01:20,799

that most of these guys will do flight

45

00:01:24,070 --> 00:01:22,560

following because you work so many

46

00:01:25,109 --> 00:01:24,080

months training the mission you kind of

47

00:01:27,429 --> 00:01:25,119

want to see how it goes see what you

48

00:01:28,870 --> 00:01:27,439

guys do yeah um

49

00:01:31,350 --> 00:01:28,880

and we also use it as a time to teach

50

00:01:33,190 --> 00:01:31,360

new instructors i mean all these guys

51  
00:01:34,710 --> 00:01:33,200  
we have to simulate real-time operations

52  
00:01:36,469 --> 00:01:34,720  
and the best way to do that is to

53  
00:01:38,230 --> 00:01:36,479  
actually watch it happen especially as

54  
00:01:39,670 --> 00:01:38,240  
you're bringing new instructors there so

55  
00:01:41,030 --> 00:01:39,680  
this team will be doing flight following

56  
00:01:42,389 --> 00:01:41,040  
during the missions and as you can

57  
00:01:43,510 --> 00:01:42,399  
imagine certain people come in at

58  
00:01:46,230 --> 00:01:43,520  
certain times

59  
00:01:48,149 --> 00:01:46,240  
motion control guys love docking

60  
00:01:49,749 --> 00:01:48,159  
but eva day

61  
00:01:51,510 --> 00:01:49,759  
robotics

62  
00:01:53,270 --> 00:01:51,520  
they don't care so much but all the robo

63  
00:01:54,950 --> 00:01:53,280

guys come in for that so

64

00:01:56,950 --> 00:01:54,960

that's kind of what we do once you once

65

00:01:59,190 --> 00:01:56,960

you guys get going

66

00:02:00,149 --> 00:01:59,200

so what's going on here okay to check

67

00:02:02,389 --> 00:02:00,159

with you guys i'm gonna break your

68

00:02:04,550 --> 00:02:02,399

concentration you guys think if we just

69

00:02:07,270 --> 00:02:04,560

saw zambo and steve over in the center

70

00:02:08,389 --> 00:02:07,280

on the shuttle side you guys are here on

71

00:02:10,309 --> 00:02:08,399

the youtube you're pretending like

72

00:02:11,589 --> 00:02:10,319

you're space walk yeah hours and we

73

00:02:13,430 --> 00:02:11,599

can't pretend that you're space walking

74

00:02:14,630 --> 00:02:13,440

so what are you doing to try to uh

75

00:02:16,309 --> 00:02:14,640

because the whole team needs to pretend

76

00:02:18,150 --> 00:02:16,319

like you're spaceball

77

00:02:20,150 --> 00:02:18,160

so go ahead in order to help the whole

78

00:02:22,070 --> 00:02:20,160

team pretend that we are spacewalking

79

00:02:24,390 --> 00:02:22,080

actually i don't know if uh at one of

80

00:02:25,430 --> 00:02:24,400

these days you'll swing by the envy over

81

00:02:27,350 --> 00:02:25,440

the commercial

82

00:02:29,589 --> 00:02:27,360

all this training so what we're doing is

83

00:02:32,790 --> 00:02:29,599

actually watching a videotape of

84

00:02:34,949 --> 00:02:32,800

ourselves actually a dvd of ourselves on

85

00:02:36,550 --> 00:02:34,959

our laptops so we can see the motions

86

00:02:39,030 --> 00:02:36,560

that we go through out at the training

87

00:02:40,630 --> 00:02:39,040

facility underwater we play that back to

88

00:02:42,550 --> 00:02:40,640

make sure we don't get ahead or behind

89

00:02:44,229 --> 00:02:42,560

of ourselves when the folks are

90

00:02:45,750 --> 00:02:44,239

listening to what we would say as we

91

00:02:47,750 --> 00:02:45,760

actually go off and do these tasks and

92

00:02:50,229 --> 00:02:47,760

so over in the shuttle like you said you

93

00:02:52,790 --> 00:02:50,239

talked to george and you talk to steve

94

00:02:54,710 --> 00:02:52,800

and they're pretending like they're also

95

00:02:56,070 --> 00:02:54,720

seeing us out the window and things like

96

00:02:58,070 --> 00:02:56,080

that they don't have videotapes of

97

00:03:00,309 --> 00:02:58,080

themselves sitting at a chair like we

98

00:03:02,710 --> 00:03:00,319

have videotapes of ourselves sitting at

99

00:03:04,229 --> 00:03:02,720

our work location underneath the

100

00:03:06,550 --> 00:03:04,239

big trust that's sitting in the bottom

101  
00:03:08,710 --> 00:03:06,560  
of the swimming pool out there

102  
00:03:10,550 --> 00:03:08,720  
all right and nick

103  
00:03:12,309 --> 00:03:10,560  
yes you're doing the same you've got

104  
00:03:14,710 --> 00:03:12,319  
your headset on i'm watching a different

105  
00:03:15,910 --> 00:03:14,720  
video this is video of me because we

106  
00:03:17,670 --> 00:03:15,920  
have two separate cameras when we do

107  
00:03:18,949 --> 00:03:17,680  
this in the nbl yeah so i'm watching my

108  
00:03:21,910 --> 00:03:18,959  
video

109  
00:03:23,910 --> 00:03:21,920  
it helps keep things realistic and also

110  
00:03:26,630 --> 00:03:23,920  
as bob said it helps us to make sure we

111  
00:03:28,070 --> 00:03:26,640  
do things right so i'm about to make a

112  
00:03:28,949 --> 00:03:28,080  
make a call here

113  
00:03:31,350 --> 00:03:28,959

all right

114

00:03:33,430 --> 00:03:31,360

and uh if we wait too long between

115

00:03:35,190 --> 00:03:33,440

making calls over to uh steve he thinks

116

00:03:37,270 --> 00:03:35,200

that we our comm system our

117

00:03:38,949 --> 00:03:37,280

communications is broken and so he needs

118

00:03:40,390 --> 00:03:38,959

to start working a failure for how to

119

00:03:41,830 --> 00:03:40,400

get his new radio we don't want to get

120

00:03:44,630 --> 00:03:41,840

him excited we don't want to give him

121

00:03:46,390 --> 00:03:44,640

steve i have that uh m2 jumper connected

122

00:03:51,750 --> 00:03:46,400

to the fifth string when i'm ready for

123

00:03:54,789 --> 00:03:53,190

okay

124

00:03:57,589 --> 00:03:54,799

make sure it's very dark so that you can

125

00:03:59,589 --> 00:03:57,599

inspect both sides

126  
00:04:01,350 --> 00:03:59,599  
and the booties often expect inspecting

127  
00:04:04,309 --> 00:04:01,360  
both sides so both sides are three or

128  
00:04:05,910 --> 00:04:04,319  
four damage and anomalous conditions

129  
00:04:08,070 --> 00:04:05,920  
steve

130  
00:04:11,110 --> 00:04:08,080  
on the female qd check that the button

131  
00:04:13,429 --> 00:04:11,120  
is up the walking collar is locked

132  
00:04:15,429 --> 00:04:13,439  
on the female button is up and the

133  
00:04:17,830 --> 00:04:15,439  
locking collar is locked right now we're

134  
00:04:19,509 --> 00:04:17,840  
talking about right band non-verbal

135  
00:04:21,189 --> 00:04:19,519  
quick disconnects

136  
00:04:22,870 --> 00:04:21,199  
and the forward white band is not

137  
00:04:24,550 --> 00:04:22,880  
visible steve and there's this whole

138  
00:04:29,189 --> 00:04:24,560

series of things we have to go through

139

00:04:33,350 --> 00:04:31,030

okay i've mated the qd to the venting

140

00:04:34,790 --> 00:04:33,360

tool the forward white band is now

141

00:04:38,950 --> 00:04:34,800

visible

142

00:04:41,430 --> 00:04:40,150

this is where we snap back the collar

143

00:04:43,510 --> 00:04:41,440

and make sure that we don't have what's

144

00:04:45,189 --> 00:04:43,520

called female interlock complete

145

00:04:47,430 --> 00:04:45,199

okay snap back test complete forward

146

00:04:51,189 --> 00:04:47,440

white bend is again visible

147

00:04:52,310 --> 00:04:51,199

and a full capture visual gap cut

148

00:04:53,909 --> 00:04:52,320

pull test

149

00:04:59,270 --> 00:04:53,919

is complete

150

00:05:01,510 --> 00:04:59,280

right in color unlock

151  
00:05:02,950 --> 00:05:01,520  
okay steve i'm unlocking the locking

152  
00:05:04,870 --> 00:05:02,960  
color

153  
00:05:06,870 --> 00:05:04,880  
okay now we'll vent it you press the

154  
00:05:08,790 --> 00:05:06,880  
button push the bell forward then check

155  
00:05:11,270 --> 00:05:08,800  
the app white band is visible and the

156  
00:05:13,590 --> 00:05:11,280  
button is popped up

157  
00:05:15,350 --> 00:05:13,600  
okay steve i'm throwing the bale

158  
00:05:16,310 --> 00:05:15,360  
the valve is now open opt white fan

159  
00:05:18,310 --> 00:05:16,320  
visible

160  
00:05:19,749 --> 00:05:18,320  
and the button is um

161  
00:05:21,990 --> 00:05:19,759  
we try and keep the pace of these things

162  
00:05:33,590 --> 00:05:22,000  
so that they uh copy and bob uh after

163  
00:05:37,430 --> 00:05:35,749

say your name for the camera so the pao

164

00:05:38,390 --> 00:05:37,440

people know who you are i'm alan

165

00:05:41,510 --> 00:05:38,400

alexander

166

00:05:42,950 --> 00:05:41,520

i'm david mastracchio gregory sparkman

167

00:05:45,590 --> 00:05:42,960

all right so now we got that out of the

168

00:05:49,430 --> 00:05:45,600

way what are you guys doing today

169

00:05:52,390 --> 00:05:49,440

uh well uh david is uh gonna get trained

170

00:05:54,070 --> 00:05:52,400

uh he was he's already trained he does

171

00:05:55,830 --> 00:05:54,080

know what he's doing uh but he was gone

172

00:05:57,430 --> 00:05:55,840

for about a year what do you mean

173

00:05:59,590 --> 00:05:57,440

he says he's gonna get trained how many

174

00:06:01,590 --> 00:05:59,600

times are you my safety diver

175

00:06:04,390 --> 00:06:01,600

like i'm responsible for my life down

176

00:06:11,430 --> 00:06:04,400

there as a diver and now

177

00:06:15,909 --> 00:06:13,590

everything has to be redone all right so

178

00:06:17,110 --> 00:06:15,919

because of the the time lapse everything

179

00:06:18,629 --> 00:06:17,120

yeah that's right you got to start from

180

00:06:20,550 --> 00:06:18,639

scratch pretty much so don't you

181

00:06:22,390 --> 00:06:20,560

shouldn't take any offense no no even

182

00:06:23,749 --> 00:06:22,400

though if you're jumping stone didn't

183

00:06:25,189 --> 00:06:23,759

jacques still have to go through this he

184

00:06:26,870 --> 00:06:25,199

would have to he would have to redo it

185

00:06:29,110 --> 00:06:26,880

greg tolman i went on a jock who saw one

186

00:06:30,550 --> 00:06:29,120

at the uh or one of his sons

187

00:06:31,990 --> 00:06:30,560

wanted to dive in a tank and he made

188

00:06:33,670 --> 00:06:32,000

this and he made him go through the dive

189

00:06:34,790 --> 00:06:33,680

check out yeah yeah we want to make sure

190

00:06:36,790 --> 00:06:34,800

everybody's safe but you're gonna die

191

00:06:37,830 --> 00:06:36,800

check out what's everything i guess you

192

00:06:39,270 --> 00:06:37,840

gotta look at what you're doing all

193

00:06:40,469 --> 00:06:39,280

right but so you're gonna train him but

194

00:06:41,830 --> 00:06:40,479

you're also gonna be

195

00:06:42,870 --> 00:06:41,840

doing other stuff with the crew too

196

00:06:44,230 --> 00:06:42,880

correct so

197

00:06:45,909 --> 00:06:44,240

we'll be we'll be the safety diver

198

00:06:48,710 --> 00:06:45,919

supporting the crew today so if anything

199

00:06:49,589 --> 00:06:48,720

goes wrong uh we'll be there to assist

200

00:06:51,430 --> 00:06:49,599

um

201  
00:06:53,830 --> 00:06:51,440  
as well as just during the run if things

202  
00:06:55,909 --> 00:06:53,840  
need uh one g support anything like that

203  
00:06:57,350 --> 00:06:55,919  
one g being if if something's too heavy

204  
00:06:59,029 --> 00:06:57,360  
because you're in one ground even you're

205  
00:07:16,629 --> 00:06:59,039  
in the water you're one gravity right

206  
00:07:22,550 --> 00:07:17,909  
and maintaining the way out throughout

207  
00:07:27,830 --> 00:07:24,790  
are we ready to put this suit on

208  
00:07:31,670 --> 00:07:27,840  
are we ready yes we are okay

209  
00:07:34,230 --> 00:07:31,680  
so bob's getting his pants on first

210  
00:07:51,670 --> 00:07:34,240  
he'll be floating in space

211  
00:07:55,350 --> 00:07:53,350  
jeff williams who's living on the space

212  
00:07:58,469 --> 00:07:55,360  
station right now

213  
00:08:00,950 --> 00:07:58,479

we might get tj creamer's help for our

214

00:08:03,589 --> 00:08:00,960

second and third uh space box instead of

215

00:08:07,029 --> 00:08:05,110

you should take some good video of this

216

00:08:09,430 --> 00:08:07,039

because everybody makes their own

217

00:08:10,469 --> 00:08:09,440

special face

218

00:08:13,909 --> 00:08:10,479

when they're when they're wedging

219

00:08:17,350 --> 00:08:15,670

we compared those mic we collected up

220

00:08:22,390 --> 00:08:17,360

all the big faces that people make when

221

00:08:27,670 --> 00:08:26,070

okay that seems uh pretty good

222

00:08:29,510 --> 00:08:27,680

and now it's like a two-person job to

223

00:08:31,110 --> 00:08:29,520

get a guy like me off now in space this

224

00:08:32,310 --> 00:08:31,120

will be easy you're gonna float right up

225

00:08:46,949 --> 00:08:32,320

yeah

226

00:08:50,470 --> 00:08:49,030

i did three spacewalks on my last flight

227

00:08:52,949 --> 00:08:50,480

and this one should be this place should

228

00:08:54,630 --> 00:08:52,959

be three more spacewalks

229

00:08:56,230 --> 00:08:54,640

there's a lot of spacewalks that's a lot

230

00:08:57,829 --> 00:08:56,240

of spacewalks but none of mine have been

231

00:09:00,070 --> 00:08:57,839

as long as uh

232

00:09:01,430 --> 00:09:00,080

either of yours so yeah but you

233

00:09:03,430 --> 00:09:01,440

we're going to write the book on these

234

00:09:05,910 --> 00:09:03,440

next years you never know maybe it could

235

00:09:07,030 --> 00:09:05,920

be a really long spaceball but

236

00:09:08,230 --> 00:09:07,040

i don't know i wouldn't encourage it

237

00:09:09,829 --> 00:09:08,240

because i thought i was going to get

238

00:09:11,590 --> 00:09:09,839

paid a little over time but there is no

239

00:09:12,310 --> 00:09:11,600

overnight there's no overtime

240

00:09:13,750 --> 00:09:12,320

no

241

00:09:16,550 --> 00:09:13,760

you get this you might as well come in

242

00:09:18,150 --> 00:09:16,560

on time then or even early because yeah

243

00:09:19,509 --> 00:09:18,160

early is probably yeah i didn't realize

244

00:09:29,110 --> 00:09:19,519

that glad you told me about the no

245

00:09:32,230 --> 00:09:30,949

that wasn't bad at all

246

00:09:33,670 --> 00:09:32,240

no

247

00:09:37,350 --> 00:09:33,680

you didn't grimace very much i'm sorry

248

00:09:41,110 --> 00:09:39,030

today is your birthday it is is that

249

00:09:42,389 --> 00:09:41,120

right is his birthday

250

00:09:44,150 --> 00:09:42,399

okay all right

251

00:09:46,310 --> 00:09:44,160

you're on camera linda smile

252

00:09:48,150 --> 00:09:46,320

okay good so uh

253

00:09:49,750 --> 00:09:48,160

and you said you turned you turned one

254

00:09:52,150 --> 00:09:49,760

year older than jim dutton so we have to

255

00:09:53,590 --> 00:09:52,160

ask him his age yes another astronaut

256

00:09:54,630 --> 00:09:53,600

that's right to find out how old you are

257

00:09:55,910 --> 00:09:54,640

that's right what did you get did you

258

00:09:58,790 --> 00:09:55,920

get some cards can you show us what you

259

00:10:01,430 --> 00:09:58,800

got for your birthday cards

260

00:10:03,350 --> 00:10:01,440

very nice cards for my training team

261

00:10:06,150 --> 00:10:03,360

and my crew and how are they doing by

262

00:10:09,910 --> 00:10:07,590

and gentlemen all right see but you're

263

00:10:11,910 --> 00:10:09,920

used to training us on 125 so your

264

00:10:13,670 --> 00:10:11,920

expectations are pretty low so these

265

00:10:15,269 --> 00:10:13,680

guys i'm sure i know they're better than

266

00:10:18,230 --> 00:10:15,279

us to begin with so they must be looking

267

00:10:21,190 --> 00:10:19,750

okay so what'd you get so i got this

268

00:10:21,990 --> 00:10:21,200

card yeah

269

00:10:23,910 --> 00:10:22,000

our

270

00:10:25,590 --> 00:10:23,920

training lead army blonde he drew that

271

00:10:27,430 --> 00:10:25,600

for me it was very nice and that's a

272

00:10:28,870 --> 00:10:27,440

television right

273

00:10:31,030 --> 00:10:28,880

and what's the significance of that you

274

00:10:32,389 --> 00:10:31,040

like watching tv i do you do but what

275

00:10:33,430 --> 00:10:32,399

else is you guys cutting out they're

276

00:10:34,870 --> 00:10:33,440

they're mine

277

00:10:36,550 --> 00:10:34,880

those are your initials so tv is what

278

00:10:38,069 --> 00:10:36,560

everybody calls you all right it is all

279

00:10:40,150 --> 00:10:38,079

right so anyone calls you

280

00:10:42,230 --> 00:10:40,160

i just call you terry yes all right okay

281

00:10:43,590 --> 00:10:42,240

and you have other nicknames too uh i

282

00:10:44,949 --> 00:10:43,600

got a lot all right okay but tv all

283

00:10:47,590 --> 00:10:44,959

right so that's for your initials okay

284

00:10:49,670 --> 00:10:47,600

what else did you get uh i got presents

285

00:10:52,230 --> 00:10:49,680

last night you did anything good got a

286

00:10:53,590 --> 00:10:52,240

power drill electric cordless drill i've

287

00:10:55,750 --> 00:10:53,600

been asked for that for years i've

288

00:10:58,069 --> 00:10:55,760

already got one finally i got a lacrosse

289

00:10:59,990 --> 00:10:58,079

stick you did yeah my son wants to play

290

00:11:01,670 --> 00:11:00,000

lacrosse so so he got you this thing i

291

00:11:02,630 --> 00:11:01,680

got a lacrosse stick from that's pretty

292

00:11:03,910 --> 00:11:02,640

awesome

293

00:11:05,509 --> 00:11:03,920

do you ever play lacrosse you're from

294

00:11:06,790 --> 00:11:05,519

baltimore aren't you in high school and

295

00:11:08,710 --> 00:11:06,800

i played a little bit at the air force

296

00:11:10,470 --> 00:11:08,720

academy okay wow great and there's your

297

00:11:11,750 --> 00:11:10,480

son playing as well he's just in the

298

00:11:13,269 --> 00:11:11,760

backyard we're just on the ball that's

299

00:11:15,030 --> 00:11:13,279

all you need though i got my old high

300

00:11:16,389 --> 00:11:15,040

school lacrosse stick and oh my god all

301

00:11:17,829 --> 00:11:16,399

the leather fell out of it and stuff so

302

00:11:20,310 --> 00:11:17,839

they got you a new one so i got a new

303

00:11:22,710 --> 00:11:20,320

some great great presents yeah cool

304

00:11:24,069 --> 00:11:22,720

very nice so you got you got cards and a

305

00:11:25,910 --> 00:11:24,079

nice little video to celebrate your

306

00:11:27,750 --> 00:11:25,920

birthday and you got a sim very cool and

307

00:11:29,829 --> 00:11:27,760

i got an asset so had the sim go great

308

00:11:32,790 --> 00:11:29,839

it went really went really well yeah

309

00:11:34,870 --> 00:11:32,800

good mcc did great today and yeah we uh

310

00:11:37,190 --> 00:11:34,880

got through all four runs survived so it

311

00:11:38,470 --> 00:11:37,200

was good all right very good so things

312

00:11:40,069 --> 00:11:38,480

are good life's good you're enjoying

313

00:11:41,269 --> 00:11:40,079

yourself life's good all right we'll

314

00:11:43,670 --> 00:11:41,279

stay like this we appreciate you

315

00:11:45,590 --> 00:11:43,680

intruding on your on your birthday happy
