

1  
00:00:07,269 --> 00:00:05,110  
later we'll have some payload medtech

2  
00:00:18,630 --> 00:00:07,279  
experiments to come off now those were

3  
00:00:18,640 --> 00:00:23,029  
i guess right over that way

4  
00:00:27,509 --> 00:00:24,870  
you got this all we got

5  
00:00:38,389 --> 00:00:27,519  
we got six okay one two three four five

6  
00:00:46,229 --> 00:00:40,310  
are y'all able to hear me

7  
00:00:51,110 --> 00:00:48,150  
okay thanks very much hey where are we

8  
00:00:54,310 --> 00:00:52,869  
okay we'll look straight ahead

9  
00:00:56,869 --> 00:00:54,320  
we'll fix the camera

10  
00:01:01,029 --> 00:00:56,879  
okay well good evening everybody we uh

11  
00:01:02,790 --> 00:01:01,039  
we're back as we came it's dark outside

12  
00:01:05,750 --> 00:01:02,800  
hey i just

13  
00:01:07,030 --> 00:01:05,760

want to say that sts 130 is mission

14

00:01:09,910 --> 00:01:07,040

complete

15

00:01:11,670 --> 00:01:09,920

we're safe on deck here in

16

00:01:13,429 --> 00:01:11,680

kennedy space center

17

00:01:15,749 --> 00:01:13,439

and that's due to the work of a lot of

18

00:01:18,310 --> 00:01:15,759

people we had a great team

19

00:01:21,910 --> 00:01:18,320

we had tremendous hardware to bring up

20

00:01:23,990 --> 00:01:21,920

note 3 was pristine cupola was beautiful

21

00:01:26,789 --> 00:01:24,000

both in design and care

22

00:01:28,390 --> 00:01:26,799

before we left and endeavor my goodness

23

00:01:30,630 --> 00:01:28,400

what what a machine

24

00:01:31,910 --> 00:01:30,640

she was uh she was perfect throughout

25

00:01:33,990 --> 00:01:31,920

the flight and

26  
00:01:36,310 --> 00:01:34,000  
we brought her back safe and sound due

27  
00:01:37,590 --> 00:01:36,320  
to a great mission control team as well

28  
00:01:40,950 --> 00:01:37,600  
so

29  
00:01:45,510 --> 00:01:40,960  
thanks to all who are involved and

30  
00:01:49,270 --> 00:01:47,590  
it is so great to be back on earth and i

31  
00:01:51,109 --> 00:01:49,280  
just want to echo zambo's thoughts of

32  
00:01:52,950 --> 00:01:51,119  
thanking all the folks here at kennedy

33  
00:01:54,389 --> 00:01:52,960  
space center and also in houston and

34  
00:01:55,990 --> 00:01:54,399  
also around the world especially our

35  
00:01:58,230 --> 00:01:56,000  
italian partners for making this mission

36  
00:02:00,149 --> 00:01:58,240  
possible what a phenomenal flight that

37  
00:02:02,389 --> 00:02:00,159  
we had that's going to take some time to

38  
00:02:04,630 --> 00:02:02,399

digest all that we did it was it was an

39

00:02:06,310 --> 00:02:04,640

amazing experience great to be back on

40

00:02:08,550 --> 00:02:06,320

earth and

41

00:02:10,389 --> 00:02:08,560

that's it thanks

42

00:02:12,470 --> 00:02:10,399

do you want to say anything okay okay

43

00:02:16,150 --> 00:02:12,480

thanks

44

00:02:18,309 --> 00:02:16,160

it's great to be back at ksc

45

00:02:20,309 --> 00:02:18,319

thanks so much for the good weather here

46

00:02:22,470 --> 00:02:20,319

and again thanks to all the folks who

47

00:02:25,430 --> 00:02:22,480

process the space shuttle

48

00:02:26,390 --> 00:02:25,440

the orbiter the tanks the boosters

49

00:02:32,710 --> 00:02:26,400

all

50

00:02:35,589 --> 00:02:32,720

space center thanks again for providing

51  
00:02:37,910 --> 00:02:35,599  
us such a wonderful spacecraft and i

52  
00:02:38,949 --> 00:02:37,920  
hope we didn't beat it up too much

53  
00:02:41,030 --> 00:02:38,959  
because we know that you're going to be

54  
00:02:47,670 --> 00:02:41,040  
turning around one more time to fly it

55  
00:02:51,190 --> 00:02:49,990  
it is indeed great to be back in florida

56  
00:02:52,790 --> 00:02:51,200  
and you know a lot of people worked on

57  
00:02:55,030 --> 00:02:52,800  
the space shuttle and the space shuttle

58  
00:02:57,430 --> 00:02:55,040  
program for decades before we even ever

59  
00:02:59,509 --> 00:02:57,440  
got to fly and and a lot of most of

60  
00:03:01,350 --> 00:02:59,519  
those folks are retired now looking back

61  
00:03:03,030 --> 00:03:01,360  
and this is your legacy this amazing

62  
00:03:06,149 --> 00:03:03,040  
thing you created so thank you to you

63  
00:03:09,190 --> 00:03:07,990

it's it's hard to believe we're back

64

00:03:10,869 --> 00:03:09,200  
after

65

00:03:12,390 --> 00:03:10,879  
two weeks in space

66

00:03:15,030 --> 00:03:12,400  
visiting the amazing international space

67

00:03:16,470 --> 00:03:15,040  
station and after a year of training

68

00:03:18,149 --> 00:03:16,480  
really hard to believe there's one of

69

00:03:19,589 --> 00:03:18,159  
course one more really important and

70

00:03:20,710 --> 00:03:19,599  
interesting phase of this flight left

71

00:03:22,149 --> 00:03:20,720  
which is

72

00:03:23,350 --> 00:03:22,159  
sharing the experience with everybody

73

00:03:27,750 --> 00:03:23,360  
here on earth and we're really looking

74

00:03:31,430 --> 00:03:29,910  
well when you go last there's not a lot

75

00:03:33,030 --> 00:03:31,440  
left to say but

76

00:03:35,509 --> 00:03:33,040

i do want to thank all the folks here at

77

00:03:37,910 --> 00:03:35,519

ksc for providing us such a good ship

78

00:03:40,630 --> 00:03:37,920

all the folks in italy for providing us

79

00:03:42,390 --> 00:03:40,640

node 3 and the cupola in such

80

00:03:44,149 --> 00:03:42,400

tip-top shape as well

81

00:03:46,390 --> 00:03:44,159

now we're just glad to be back here in

82

00:03:48,470 --> 00:03:46,400

florida on our first attempt to come in

83

00:03:51,430 --> 00:03:48,480

for a landing which is uh really

84

00:03:53,509 --> 00:03:51,440

exciting to do it on the first time and

85

00:03:56,390 --> 00:03:53,519

happy to put a nice capstone on such a

86

00:03:57,910 --> 00:03:56,400

successful mission thank you all and uh

87

00:04:02,949 --> 00:03:57,920

i'll pass it over to george here if he's

88

00:04:06,869 --> 00:04:05,030

thank you all it's time for us to hit

89

00:04:08,630 --> 00:04:06,879

the showers and start getting used to

90

00:04:28,870 --> 00:04:08,640

life on earth again

91

00:04:34,469 --> 00:04:31,909

and the crew now boarding the astra van

92

00:04:35,909 --> 00:04:34,479

for the 20-minute ride

93

00:04:41,030 --> 00:04:35,919

back to the

94

00:04:45,830 --> 00:04:43,270

kay hire

95

00:05:29,189 --> 00:04:45,840

from kennedy space center

96

00:05:34,070 --> 00:05:32,469

once they get back they'll

97

00:05:35,749 --> 00:05:34,080

beat their families have something to

98

00:05:39,749 --> 00:05:35,759

eat

99

00:05:48,469 --> 00:05:41,990

have some debriefings and then
