encouraged the students to pursue their

8
00:00:24,550 --> 00:00:20,640
interest in science technology

9
00:00:26,550 --> 00:00:24,560
engineering and math i salute you for

10
00:00:28,830 --> 00:00:26,560
your innovation your hard work your

robotic teams work quickly making last

14

00:00:37,350 --> 00:00:35,440

minute tweaks to their robots the

15

00:00:39,030 --> 00:00:37,360

morning of the competition hey can

16

00:00:39,910 --> 00:00:39,040

someone zip tie this cereal cable so

i've never done anything like this it's

22

00:00:56,790 --> 00:00:53,750

it's just been nonstop excitement the

23

00:01:00,229 --> 00:00:58,709

students showed their robotic spirit by

24

00:01:02,150 --> 00:01:00,239

dressing up in costumes and bright

25

00:01:03,750 --> 00:01:02,160

colors

26

00:01:05,350 --> 00:01:03,760

this year's competition was a new

27

00:01:07,109 --> 00:01:05,360

experience for everyone and offered

28

00:01:09,190 --> 00:01:07,119

unique challenges

29

00:01:11,109 --> 00:01:09,200

what the game is called is breakaway

30

00:01:16,390 --> 00:01:11,119

this year and it's basically playing

31

00:01:21,590 --> 00:01:18,789

nasa industry partners and area

32

00:01:23,830 --> 00:01:21,600

businesses sponsor the robotics teams

33

00:01:26,230 --> 00:01:23,840

and mentors help the students build and

34

00:01:28,310 --> 00:01:26,240

program the robots as you can see nasa

35

00:01:30,230 --> 00:01:28,320

is one of our sponsors and so because of

36

00:01:31,350 --> 00:01:30,240

this we have the next fundraising to be

37

00:01:35,830 --> 00:01:31,360

able to

38

00:01:36,870 --> 00:01:35,840

build our robot do what we need to do

39

00:01:37,990 --> 00:01:36,880

four
