shuttle atlantis for the international

11  
00:00:28,070 --> 00:00:27,039  
space station on may 14 at 2 20 pm

12  
00:00:29,589 --> 00:00:28,080  
eastern

13  
00:00:31,509 --> 00:00:29,599

sts

14

00:00:33,750 --> 00:00:31,519

will deliver a russian mini research

15

00:00:36,310 --> 00:00:33,760

module and a cargo carrier filled with

16

00:00:36,320 --> 00:00:39,030

yeah

17

00:00:43,350 --> 00:00:41,110

well folks

18

00:00:44,790 --> 00:00:43,360

thanks for showing up again

19

00:00:46,549 --> 00:00:44,800

i think it's been

20

00:00:48,150 --> 00:00:46,559

not quite a month since we were here

21

00:00:50,389 --> 00:00:48,160

last pretty quick at least it seems to

22

00:00:51,590 --> 00:00:50,399

our from our point of view and i bet

23

00:00:52,869 --> 00:00:51,600

that you guys are a lot more arrested

24

00:00:54,790 --> 00:00:52,879

than the last time we were here because

25

00:00:56,470 --> 00:00:54,800

that was a pretty busy day

26

00:00:58,069 --> 00:00:56,480

and a couple of us were talking on the

27

00:01:00,229 --> 00:00:58,079

way out here about what's been going on

28

00:01:02,549 --> 00:01:00,239

on space station these days and uh i

29

00:01:05,270 --> 00:01:02,559

think a progress just undocked

30

00:01:07,990 --> 00:01:05,280

yesterday i'm not exactly sure

31

00:01:09,190 --> 00:01:08,000

and uh i'm pretty darn sure that a soyuz

32

00:01:11,109 --> 00:01:09,200

has to

33

00:01:13,109 --> 00:01:11,119

relocate from the port that we're going

34

00:01:14,149 --> 00:01:13,119

to put our mrm

35

00:01:15,830 --> 00:01:14,159

module

36

00:01:17,990 --> 00:01:15,840

and then go to the aft part of space

37

00:01:19,350 --> 00:01:18,000

station and all that's got to happen in

38

00:01:20,870 --> 00:01:19,360

the next few days before we get off the

39

00:01:22,230 --> 00:01:20,880

ground so once again we're in a

40

00:01:24,149 --> 00:01:22,240

situation where there's a heck of a lot

41

00:01:25,109 --> 00:01:24,159

going on in space and it's pretty darn

42

00:01:27,350 --> 00:01:25,119

cool

43

00:01:29,670 --> 00:01:27,360

uh we had a great trip town today uh

44

00:01:32,630 --> 00:01:29,680

unfortunately one of our airplanes

45

00:01:34,789 --> 00:01:32,640

broke on takeoff had to go back to uh

46

00:01:36,550 --> 00:01:34,799

to jsc to get another airplane and uh he

47

00:01:37,830 --> 00:01:36,560

caught up with us and we actually ended

48

00:01:38,950 --> 00:01:37,840

up coming across here in a diamond

49

00:01:40,550 --> 00:01:38,960

formation hopefully we looked a little

50

00:01:43,670 --> 00:01:40,560

better today

51  
00:01:47,350 --> 00:01:45,590  
anyway we are ready to

52  
00:01:49,109 --> 00:01:47,360  
to launch

53  
00:01:51,190 --> 00:01:49,119  
we've completed every bit of training we

54  
00:01:52,630 --> 00:01:51,200  
can and

55  
00:01:53,429 --> 00:01:52,640  
we're confident

56  
00:01:54,789 --> 00:01:53,439  
we

57  
00:01:56,709 --> 00:01:54,799  
appreciate all the hard work from the

58  
00:01:58,630 --> 00:01:56,719  
104 team down here they've done an

59  
00:02:00,709 --> 00:01:58,640  
amazing job getting the vehicle turned

60  
00:02:03,109 --> 00:02:00,719  
around on the pad and ready to go and

61  
00:02:04,709 --> 00:02:03,119  
from absolutely every report i've read

62  
00:02:06,630 --> 00:02:04,719  
they the air they are playing the

63  
00:02:08,710 --> 00:02:06,640

spaceship is ready to go and we're ready

64

00:02:11,190 --> 00:02:08,720

to fly so

65

00:02:13,190 --> 00:02:11,200

look for a good show on friday
