

1  
00:00:05,180 --> 00:00:02,000  
the International Space Station program

2  
00:00:07,430 --> 00:00:05,190  
is the recipient of the 2009 Collier

3  
00:00:09,770 --> 00:00:07,440  
trophy the award is considered

4  
00:00:11,480 --> 00:00:09,780  
Aviation's highest honor and is bestowed

5  
00:00:13,580 --> 00:00:11,490  
by the country's oldest national

6  
00:00:16,849 --> 00:00:13,590  
aviation organization the National

7  
00:00:19,310 --> 00:00:16,859  
Aeronautics Association it was formally

8  
00:00:22,340 --> 00:00:19,320  
presented to the ISS team at the annual

9  
00:00:25,189 --> 00:00:22,350  
cogger dinner held Mather teeth outside

10  
00:00:27,200 --> 00:00:25,199  
Washington the ISS was recognized not

11  
00:00:28,939 --> 00:00:27,210  
only force design development and

12  
00:00:31,880 --> 00:00:28,949  
assembly of the world's largest

13  
00:00:34,490 --> 00:00:31,890

spacecraft but also for the complexes

14

00:00:39,470 --> 00:00:34,500

pioneering discoveries and progressive

15

00:00:42,680 --> 00:00:39,480

international cooperation accepting the

16

00:00:45,500 --> 00:00:42,690

award on behalf of the ISS team was NASA

17

00:00:47,420 --> 00:00:45,510

deputy administrator lori garver truly

18

00:00:50,000 --> 00:00:47,430

and standing on the shoulders of giants

19

00:00:52,010 --> 00:00:50,010

I of course only been back to NASA for

20

00:00:54,799 --> 00:00:52,020

ten months and while I was there in the

21

00:00:57,260 --> 00:00:54,809

90s was not an integral part of a space

22

00:00:58,670 --> 00:00:57,270

station team so I always a while I was a

23

00:01:01,310 --> 00:00:58,680

cheerleader which shouldn't be a

24

00:01:04,250 --> 00:01:01,320

surprise to all I was never that top

25

00:01:07,100 --> 00:01:04,260

girl on the Mount so tonight I feel like

26

00:01:08,359 --> 00:01:07,110

I am standing on the shoulders so so

27

00:01:11,240 --> 00:01:08,369

many of you who really deserve this

28

00:01:14,179 --> 00:01:11,250

prize and have contributed to the

29

00:01:16,370 --> 00:01:14,189

International Space Station success so

30

00:01:18,859 --> 00:01:16,380

many of you in the room tonight have

31

00:01:21,140 --> 00:01:18,869

made this possible for NASA and it is

32

00:01:24,020 --> 00:01:21,150

really your award the collier trophy is

33

00:01:25,580 --> 00:01:24,030

awarded annually quote for the greatest

34

00:01:28,190 --> 00:01:25,590

achievement in aeronautics or

35

00:01:30,469 --> 00:01:28,200

astronautics in america with respect to

36

00:01:33,469 --> 00:01:30,479

improving the performance efficiency and

37

00:01:35,140 --> 00:01:33,479

safety of air or space vehicles the

38

00:01:38,210 --> 00:01:35,150

value of which has been thoroughly

39

00:01:40,999 --> 00:01:38,220

demonstrated by actual use during the

40

00:01:42,499 --> 00:01:41,009

preceding year in quote the

41

00:01:44,960 --> 00:01:42,509

international space station will

42

00:01:48,109 --> 00:01:44,970

celebrate 10 years of continuous human

43

00:01:50,060 --> 00:01:48,119

presence in orbit later this year the

44

00:01:53,300 --> 00:01:50,070

station is a joint effort between NASA
