

1
00:00:07,990 --> 00:00:05,269
nasa and lockheed martin space systems

2
00:00:11,190 --> 00:00:08,000
company held a ceremony on thursday july

3
00:00:12,470 --> 00:00:11,200
8 at nasa's michoud assembly facility in

4
00:00:14,549 --> 00:00:12,480
new orleans

5
00:00:16,550 --> 00:00:14,559
the event pays tribute to the external

6
00:00:19,349 --> 00:00:16,560
tank rollout for the last space shuttle

7
00:00:22,470 --> 00:00:19,359
flight and commemorates tank deliveries

8
00:00:25,750 --> 00:00:22,480
for 134 shuttle launches the last

9
00:00:28,230 --> 00:00:25,760
external tank designated et-138

10
00:00:30,950 --> 00:00:28,240
was carried on a wheel transporter one

11
00:00:33,350 --> 00:00:30,960
mile to the michoud barge dock it was

12
00:00:36,229 --> 00:00:33,360
accompanied by the storyville stompers a

13
00:00:38,630 --> 00:00:36,239

traditional area brass band and hundreds

14

00:00:41,110 --> 00:00:38,640

of handkerchief waving employees the

15

00:00:43,110 --> 00:00:41,120

tank will travel on a 900-mile sea

16

00:00:45,590 --> 00:00:43,120

journey to nasa's kennedy space center

17

00:01:04,469 --> 00:00:45,600

in florida where it will support shuttle

18

00:01:04,479 --> 00:02:20,630

so

19

00:02:33,509 --> 00:02:29,190

uh

20

00:02:34,710 --> 00:02:33,519

i couldn't ask for more dedicated group

21

00:02:36,949 --> 00:02:34,720

of people i can't think of any place

22

00:02:39,270 --> 00:02:36,959

else i'd rather be than have worked with

23

00:02:41,350 --> 00:02:39,280

these people and and i i mean it you

24

00:02:42,869 --> 00:02:41,360

know highly skilled obviously to be able

25

00:02:45,589 --> 00:02:42,879

to do what they do

26

00:02:46,869 --> 00:02:45,599

unbelievable amount of dedication uh

27

00:02:48,710 --> 00:02:46,879

when you look at the hardships they've

28

00:02:50,949 --> 00:02:48,720

been through and the challenges

29

00:02:53,270 --> 00:02:50,959

and they just persevere they keep

30

00:02:56,470 --> 00:02:53,280

stepping back up and hitting home runs

31

00:02:58,550 --> 00:02:56,480

yeah i joined lockheed martin in 2004 so

32

00:03:01,990 --> 00:02:58,560

it's been an experience and it's amazing

33

00:03:04,790 --> 00:03:02,000

to work on such a big monumental

34

00:03:06,869 --> 00:03:04,800

thing for space so it's been awesome

35

00:03:09,110 --> 00:03:06,879

i've enjoyed every moment of it

36

00:03:09,990 --> 00:03:09,120

this team has a lot to be proud of

37

00:03:12,149 --> 00:03:10,000

uh

38

00:03:13,830 --> 00:03:12,159

they have done above and beyond anything

39

00:03:15,670 --> 00:03:13,840

that they could be ever be asked to do

40

00:03:17,270 --> 00:03:15,680

i'm just so proud of this team and and

41

00:03:19,430 --> 00:03:17,280

how they've come together and worked

42

00:03:21,830 --> 00:03:19,440

through the university

43

00:03:23,670 --> 00:03:21,840

this shows uh putting this tank out on

44

00:03:26,229 --> 00:03:23,680

time shows what what nasa is made of

45

00:03:28,869 --> 00:03:26,239

this is nasa's finest right here and

46

00:03:32,070 --> 00:03:28,879

what's amazing to me and i'm most proud

47

00:03:35,509 --> 00:03:32,080

of is the dedication and the pride and

48

00:03:37,350 --> 00:03:35,519

the integrity that these folks have had

49

00:03:38,869 --> 00:03:37,360

to stick in there

50

00:03:41,190 --> 00:03:38,879

and deliver
