

1
00:00:11,120 --> 00:00:23,910
oh

2
00:00:23,920 --> 00:00:42,150
is

3
00:00:42,160 --> 00:00:47,430
if i cry

4
00:01:03,670 --> 00:00:49,830
will you

5
00:01:10,149 --> 00:01:07,670
a man dreams one day to fly

6
00:01:12,710 --> 00:01:10,159
a man takes his rocket ship

7
00:01:14,469 --> 00:01:12,720
into the skies

8
00:01:17,510 --> 00:01:14,479
he lives on a star

9
00:01:19,510 --> 00:01:17,520
that's dying in the night

10
00:01:30,230 --> 00:01:19,520
and follows in the trail

11
00:01:45,749 --> 00:01:33,190
thank you for joining us this evening

12
00:01:50,069 --> 00:01:47,350
we're just trying to do

13
00:01:52,389 --> 00:01:50,079

a simple thing which is remind people

14

00:02:11,910 --> 00:01:52,399

back on earth that the impossible is

15

00:02:15,750 --> 00:02:13,510

zooming in there's

16

00:02:17,910 --> 00:02:15,760

nothing i can't do without and lens to

17

00:02:20,630 --> 00:02:17,920

see it all up close to magnify what no

18

00:02:44,790 --> 00:02:20,640

one knows never in company never alone

19

00:02:48,229 --> 00:02:46,949

this is just a run-through

20

00:02:58,949 --> 00:02:48,239

just so you're

21

00:03:02,309 --> 00:03:01,030

crew of the international space station

22

00:03:04,550 --> 00:03:02,319

up there

23

00:03:06,390 --> 00:03:04,560

this is expression 20.

24

00:03:09,750 --> 00:03:06,400

we're happy to hear your voices guys

25

00:03:11,670 --> 00:03:09,760

this is really really incredible we're

26

00:03:13,110 --> 00:03:11,680

so moved that you

27

00:03:15,030 --> 00:03:13,120

would take some time out of your

28

00:03:17,750 --> 00:03:15,040

schedule well we're working for the

29

00:03:20,630 --> 00:03:17,760

benefit of uh humankind and we're trying

30

00:03:23,030 --> 00:03:20,640

to work for the future

31

00:03:25,830 --> 00:03:23,040

well that is great are you excited about

32

00:03:28,309 --> 00:03:25,840

the the future uh colonel

33

00:03:29,990 --> 00:03:28,319

we have one hundred percent of certainty

34

00:03:30,869 --> 00:03:30,000

student is that everything will be very

35

00:03:32,630 --> 00:03:30,879

great

36

00:03:33,830 --> 00:03:32,640

with your help and with our help in

37

00:03:35,509 --> 00:03:33,840

space guys

38

00:03:37,430 --> 00:03:35,519

we need to work together on the ground

39

00:03:44,710 --> 00:03:37,440

and in space and everywhere where

40

00:03:49,910 --> 00:03:47,110

every hour and a half the uh

41

00:03:52,869 --> 00:03:49,920

international space station

42

00:03:54,710 --> 00:03:52,879

goes around the world they're asleep now

43

00:03:56,789 --> 00:03:54,720

their geosynchronous

44

00:03:57,509 --> 00:03:56,799

rhythms would have them asleep but they

45

00:03:59,190 --> 00:03:57,519

did

46

00:04:00,869 --> 00:03:59,200

they left us a message earlier it's a

47

00:04:03,509 --> 00:04:00,879

little short message

48

00:04:07,110 --> 00:04:03,519

um so i'm going to try and

49

00:04:08,710 --> 00:04:07,120

try and see if we can get in touch now

50

00:04:10,149 --> 00:04:08,720

let me see

51
00:04:12,630 --> 00:04:10,159
here you go

52
00:04:16,229 --> 00:04:12,640
i asked him for a message for dublin

53
00:04:22,550 --> 00:04:18,390
hello crock park we hear the boys are

54
00:04:26,469 --> 00:04:24,550
hello dublin what's the crack you all

55
00:04:27,350 --> 00:04:26,479
having a good night

56
00:04:32,230 --> 00:04:27,360
and

57
00:04:35,749 --> 00:04:32,240
one special message for us at croke park

58
00:04:54,950 --> 00:04:37,830
future needs a big kiss

59
00:04:54,960 --> 00:05:15,990
oh

60
00:05:20,629 --> 00:05:17,990
the more you can move around and

61
00:05:22,629 --> 00:05:20,639
establish that you're weightless that's

62
00:05:36,390 --> 00:05:22,639
a good thing anything that explains to

63
00:05:41,510 --> 00:05:40,230

so many extraordinary people have

64

00:05:43,990 --> 00:05:41,520

led the

65

00:05:45,510 --> 00:05:44,000

mission to explore space great

66

00:05:49,029 --> 00:05:45,520

scientists

67

00:05:52,390 --> 00:05:50,790

the international space station coming

68

00:05:54,550 --> 00:05:52,400

out of nasa

69

00:05:58,870 --> 00:05:54,560

russia all over

70

00:06:02,390 --> 00:05:58,880

you're the first artist in space and

71

00:06:21,830 --> 00:06:02,400

that really connects with the crowd here

72

00:06:26,469 --> 00:06:24,150

all right we've got something

73

00:06:28,870 --> 00:06:26,479

something very special for you

74

00:06:31,029 --> 00:06:28,880

tonight uh tampa

75

00:06:32,950 --> 00:06:31,039

we're hooking ourselves into this

76

00:06:35,029 --> 00:06:32,960

worldwide

77

00:06:36,870 --> 00:06:35,039

event that's going on tonight

78

00:06:38,230 --> 00:06:36,880

an out of this world

79

00:06:40,070 --> 00:06:38,240

event actually

80

00:06:42,790 --> 00:06:40,080

because while we're here

81

00:06:43,990 --> 00:06:42,800

playing rock and roll

82

00:06:45,909 --> 00:06:44,000

our friend

83

00:06:48,950 --> 00:06:45,919

gila liberty who

84

00:06:51,990 --> 00:06:48,960

was the founder of cirque du soleil

85

00:06:55,350 --> 00:06:52,000

he is orbiting the earth

86

00:06:59,350 --> 00:06:57,189

for his uh

87

00:07:00,230 --> 00:06:59,360

his mission he's on a mission

88

00:07:03,589 --> 00:07:00,240

to

89

00:07:05,510 --> 00:07:03,599

the planet

90

00:07:08,870 --> 00:07:05,520

and uh we love

91

00:07:12,150 --> 00:07:08,880

you here he is first of all hi tampa hi

92

00:07:15,029 --> 00:07:12,160

dan hi youtube hi everybody so happy to

93

00:07:17,029 --> 00:07:15,039

be here it's still great this is amazing

94

00:07:20,070 --> 00:07:17,039

experience uh

95

00:07:22,309 --> 00:07:20,080

and uh i'm so glad to be here

96

00:07:24,469 --> 00:07:22,319

well tell me this guy what has it been

97

00:07:26,309 --> 00:07:24,479

like what's the weightless

98

00:07:30,150 --> 00:07:26,319

stuff what are you learning up in space

99

00:07:32,230 --> 00:07:30,160

what's uh what's happening up there

100

00:07:33,990 --> 00:07:32,240

can you hear me

101
00:07:36,230 --> 00:07:34,000
well first of all i'm learning how to

102
00:07:39,510 --> 00:07:36,240
float i'm learning uh

103
00:07:43,189 --> 00:07:39,520
how this fantastic adventure and

104
00:07:45,670 --> 00:07:43,199
and space station is is functioning

105
00:07:48,390 --> 00:07:45,680
and uh plus i'm preparing and i'm doing

106
00:07:51,189 --> 00:07:48,400
tonight my poetic social mission i'm so

107
00:07:54,629 --> 00:07:51,199
happy that you guys are participating in

108
00:07:57,510 --> 00:07:54,639
it well you are the first clown in space

109
00:07:58,710 --> 00:07:57,520
and we think it's a great idea

110
00:08:00,950 --> 00:07:58,720
for you

111
00:08:02,550 --> 00:08:00,960
to give us your perspective

112
00:08:07,270 --> 00:08:02,560
on our little planet

113
00:08:08,790 --> 00:08:07,280

and instead looking down on it and how

114

00:08:14,390 --> 00:08:08,800

do we look from here how does our little

115

00:08:19,830 --> 00:08:17,510

well i will tell you every time that

116

00:08:20,869 --> 00:08:19,840

i look downstairs i see in a fantastic

117

00:08:21,990 --> 00:08:20,879

planet

118

00:08:23,670 --> 00:08:22,000

uh

119

00:08:25,830 --> 00:08:23,680

the blue of it

120

00:08:28,790 --> 00:08:25,840

uh when there's

121

00:08:30,629 --> 00:08:28,800

sunrise sunset there's amazing image

122

00:08:32,790 --> 00:08:30,639

sometimes you see the moon and earth at

123

00:08:36,230 --> 00:08:32,800

the same time in the perspective that we

124

00:08:39,110 --> 00:08:36,240

cannot see and i'm looking all around me

125

00:08:40,949 --> 00:08:39,120

i see stars i see darkness

126

00:08:44,630 --> 00:08:40,959

i see uh

127

00:08:47,110 --> 00:08:44,640

emptiness and and and you know what

128

00:08:48,630 --> 00:08:47,120

planet earth looks so great but also so

129

00:08:51,430 --> 00:08:48,640

fragile so

130

00:08:53,670 --> 00:08:51,440

this is today is a tribute to earth and

131

00:08:56,150 --> 00:08:53,680

i'm telling you you're looking great and

132

00:08:58,470 --> 00:08:56,160

we should not forget that we have a

133

00:09:01,430 --> 00:08:58,480

great privilege to to live on planet

134

00:09:06,070 --> 00:09:03,590

thank you guys

135

00:09:10,790 --> 00:09:06,080

first clown in space

136

00:09:18,230 --> 00:09:12,470

so let's get for

137

00:09:18,240 --> 00:09:26,949

are you ready for liftoff timber

138

00:09:41,350 --> 00:09:28,790

returning to the space station paving

139

00:09:44,710 --> 00:09:43,430

you'll hear them talking okay capcom go

140

00:09:46,870 --> 00:09:44,720

to the video and do it in front of your

141

00:09:52,790 --> 00:09:46,880

video two of these things in fact we got

142

00:09:56,949 --> 00:09:53,750

and

143

00:09:59,430 --> 00:09:56,959

a couple of troublemakers calling

144

00:10:01,590 --> 00:09:59,440

growing space they enabled was he i want

145

00:10:04,310 --> 00:10:01,600

to ask the the crew

146

00:10:06,470 --> 00:10:04,320

of the iss was it different having an

147

00:10:08,870 --> 00:10:06,480

artist other than a

148

00:10:10,710 --> 00:10:08,880

an engineer or a scientist with you how

149

00:10:11,990 --> 00:10:10,720

how did he behave

150

00:10:15,110 --> 00:10:12,000

he was a

151

00:10:17,430 --> 00:10:15,120

big big professional up here

152

00:10:19,829 --> 00:10:17,440

he did very well we all enjoyed it

153

00:10:22,230 --> 00:10:19,839

thoroughly but of course uh we don't

154

00:10:24,389 --> 00:10:22,240

usually run around with red noses and he

155

00:10:25,590 --> 00:10:24,399

did so it was it was a change for us for

156

00:10:27,269 --> 00:10:25,600

sure

157

00:10:28,630 --> 00:10:27,279

it was very fun it was really nice to

158

00:10:31,110 --> 00:10:28,640

have him here

159

00:10:33,190 --> 00:10:31,120

and uh it was nice to have a different

160

00:10:34,790 --> 00:10:33,200

perspective on the whole the whole space

161

00:10:36,790 --> 00:10:34,800

thing we all really appreciate how

162

00:10:38,470 --> 00:10:36,800

beautiful the planet is and and try as

163

00:10:40,389 --> 00:10:38,480

much as possible to look out the window

164

00:10:41,990 --> 00:10:40,399

but it's always nice to see somebody who

165

00:10:44,310 --> 00:10:42,000

has a little different perspective come

166

00:10:45,829 --> 00:10:44,320

up here and share it with us as well

167

00:10:47,990 --> 00:10:45,839

we've had our breath taken away this

168

00:10:49,430 --> 00:10:48,000

morning to be led in here into this

169

00:10:50,949 --> 00:10:49,440

place it is

170

00:10:53,110 --> 00:10:50,959

there's an amazing church of

171

00:10:54,870 --> 00:10:53,120

possibilities and

172

00:10:57,190 --> 00:10:54,880

that you represent so

173

00:11:10,310 --> 00:10:57,200

we're here to pay homage and

174

00:11:10,320 --> 00:11:17,190

of our little space station then

175

00:11:22,310 --> 00:11:19,750

when we feel right at home here

176
00:11:23,509 --> 00:11:22,320
in houston home

177
00:11:29,030 --> 00:11:23,519
homes

178
00:11:32,710 --> 00:11:30,470
and uh

179
00:11:34,870 --> 00:11:32,720
the home of space exploration is a great

180
00:11:35,990 --> 00:11:34,880
feeling and we went we want to thank all

181
00:11:37,750 --> 00:11:36,000
our friends

182
00:11:41,110 --> 00:11:37,760
at nasa

183
00:11:45,269 --> 00:11:43,190
incredible effort

184
00:11:46,389 --> 00:11:45,279
to make our show

185
00:11:47,829 --> 00:11:46,399
better

186
00:11:49,670 --> 00:11:47,839
i hear your music on earth and it

187
00:11:51,110 --> 00:11:49,680
reminds me of what i've seen in space

188
00:11:52,470 --> 00:11:51,120

which really is a gift that you've given

189

00:11:54,150 --> 00:11:52,480

us because

190

00:11:56,470 --> 00:11:54,160

the scenes that we see go really well

191

00:11:58,230 --> 00:11:56,480

with

192

00:12:00,230 --> 00:11:58,240

we saw you last night we were getting in

193

00:12:02,790 --> 00:12:00,240

the car to go home and my wife turned to
