

1  
00:00:35,990 --> 00:00:33,910  
these views were recorded about 4 30 p.m

2  
00:00:39,190 --> 00:00:36,000  
central time yesterday

3  
00:00:42,869 --> 00:00:39,200  
and they show our hurricane earl

4  
00:00:45,750 --> 00:00:42,879  
from an altitude of 218 statute miles as

5  
00:00:47,190 --> 00:00:45,760  
it is moving just to the northeast of

6  
00:00:51,430 --> 00:00:47,200  
puerto rico

7  
00:00:54,950 --> 00:00:53,029  
in the foreground we can see the

8  
00:00:55,830 --> 00:00:54,960  
progress of the seven space

9  
00:00:57,350 --> 00:00:55,840  
week

10  
00:01:01,590 --> 00:00:57,360  
resupply craft

11  
00:01:07,109 --> 00:01:01,600  
and the soyuz tma-18 spacecraft

12  
00:01:22,630 --> 00:01:10,310  
earl was a category 4 storm at this

13  
00:01:22,640 --> 00:01:27,109

it is continuing to

14

00:01:32,550 --> 00:01:30,310

roll toward the u.s coast

15

00:01:35,030 --> 00:01:32,560

after

16

00:01:37,350 --> 00:01:35,040

striking some of the tiny islands across

17

00:01:41,429 --> 00:01:37,360

the northern caribbean with heavy rain

18

00:01:46,469 --> 00:01:41,439

and winds that damaged some homes and

19

00:01:51,670 --> 00:01:49,510

latest forecast is for earl to brush the

20

00:01:54,550 --> 00:01:51,680

eastern coast of the united states on

21

00:01:58,310 --> 00:01:54,560

late thursday

22

00:02:04,630 --> 00:02:01,910

turns back out into the atlantic

23

00:02:07,270 --> 00:02:04,640

possibility exists for it to

24

00:02:11,589 --> 00:02:07,280

take a swipe at the new england area and

25

00:02:17,510 --> 00:02:14,869

the u.s national hurricane center has

26

00:02:19,750 --> 00:02:17,520

warned residents from north carolina to
