

1
00:00:06,630 --> 00:00:04,870
thanks eric uh well first off

2
00:00:08,470 --> 00:00:06,640
let me tell you what a pleasure it is to

3
00:00:10,390 --> 00:00:08,480
come over here and not have to walk

4
00:00:12,629 --> 00:00:10,400
through a construction site

5
00:00:13,589 --> 00:00:12,639
it is amazing and it's a lot safer too i

6
00:00:18,070 --> 00:00:13,599
think

7
00:00:21,590 --> 00:00:18,080
neat about it is you know it's not just

8
00:00:24,630 --> 00:00:21,600
strictly designed for a specific purpose

9
00:00:26,950 --> 00:00:24,640
this is a very flexible uh functional

10
00:00:29,990 --> 00:00:26,960
facility that will support commercial

11
00:00:32,790 --> 00:00:30,000
operations any rocket we want to test

12
00:00:34,950 --> 00:00:32,800
any part of in a launch environment

13
00:00:36,630 --> 00:00:34,960

we can do it here all the hard work that

14

00:00:39,350 --> 00:00:36,640

went into this that the constellation

15

00:00:42,150 --> 00:00:39,360

program paid for it's going to get used

16

00:00:44,229 --> 00:00:42,160

it's critical to our future as we design

17

00:00:45,590 --> 00:00:44,239

where we're going and we do have a great

18

00:00:48,869 --> 00:00:45,600

future

19

00:00:50,790 --> 00:00:48,879

the launch equipment test facility left

20

00:00:53,510 --> 00:00:50,800

at nasa's kennedy space center in

21

00:00:56,950 --> 00:00:53,520

florida held a ribbon-cutting ceremony

22

00:00:59,270 --> 00:00:56,960

on august 27 to mark the four-year 35

23

00:01:02,470 --> 00:00:59,280

million comprehensive upgrade the

24

00:01:05,270 --> 00:01:02,480

facility has undergone the left was

25

00:01:06,950 --> 00:01:05,280

established in the 1970s to support the

26

00:01:09,429 --> 00:01:06,960

qualification of the space shuttle

27

00:01:11,830 --> 00:01:09,439

program's umbilical and t-zero

28

00:01:13,670 --> 00:01:11,840

mechanisms throughout the years the

29

00:01:16,310 --> 00:01:13,680

facility has supported the development

30

00:01:18,950 --> 00:01:16,320

of systems for shuttle and space station

31

00:01:21,270 --> 00:01:18,960

delta and atlas rockets and various

32

00:01:23,910 --> 00:01:21,280

research and development programs across

33

00:01:26,710 --> 00:01:23,920

the agency the left has unique

34

00:01:29,510 --> 00:01:26,720

capabilities to evolve into a versatile

35

00:01:59,830 --> 00:01:29,520

test and development area that supports

36

00:01:59,840 --> 00:02:10,630

okay

37

00:02:10,640 --> 00:02:26,070

huh

38

00:02:26,080 --> 00:02:36,070

so

39

00:02:36,080 --> 00:03:13,350

cool

40

00:03:13,360 --> 00:03:40,309

oh

41

00:03:40,319 --> 00:03:50,550

have you ever met

42

00:03:50,560 --> 00:04:06,710

see
