

1  
00:00:04,070 --> 00:00:02,710  
this is mission control houston

2  
00:00:06,710 --> 00:00:04,080  
russian uh

3  
00:00:08,230 --> 00:00:06,720  
management uh has uh consulted

4  
00:00:09,830 --> 00:00:08,240  
and they have made the decision and it's

5  
00:00:12,070 --> 00:00:09,840  
been relayed to the flight control team

6  
00:00:13,509 --> 00:00:12,080  
here in houston that we are waving off

7  
00:00:25,670 --> 00:00:13,519  
the undocking and landing of the

8  
00:00:25,680 --> 00:00:31,109  
yes go ahead

9  
00:00:35,590 --> 00:00:33,350  
we are not going to have another attempt

10  
00:00:38,150 --> 00:00:35,600  
today for the undocking

11  
00:00:40,869 --> 00:00:38,160  
we are going to give the guys their goal

12  
00:00:41,990 --> 00:00:40,879  
for them opening the hatch and to coming

13  
00:00:46,549 --> 00:00:42,000

back

14

00:00:48,310 --> 00:00:46,559

to the iss all the details will be

15

00:00:51,110 --> 00:00:48,320

given

16

00:00:54,869 --> 00:00:51,120

later and we're going to give you more

17

00:00:57,270 --> 00:00:54,879

information about the planned

18

00:01:03,110 --> 00:00:57,280

undocking either tomorrow the day after

19

00:01:07,190 --> 00:01:05,270

thank you very much

20

00:01:08,789 --> 00:01:07,200

again here is the video that was

21

00:01:10,550 --> 00:01:08,799

downlinked just a few minutes ago for

22

00:01:12,870 --> 00:01:10,560

yoder your cheek and talking to russian

23

00:01:15,270 --> 00:01:12,880

flight controllers regarding the piece

24

00:01:18,310 --> 00:01:15,280

of gear mechanism that he found

25

00:01:20,469 --> 00:01:18,320

around the docking mechanism behind him

26

00:01:30,310 --> 00:01:20,479

to the poisk modules interface with the

27

00:01:33,590 --> 00:01:32,710

your chicken showing to the camera this

28

00:01:41,109 --> 00:01:33,600

uh

29

00:01:43,270 --> 00:01:41,119

russian

30

00:01:45,270 --> 00:01:43,280

specialists evaluating what that might

31

00:01:47,429 --> 00:01:45,280

mean

32

00:01:49,350 --> 00:01:47,439

when the camera view zooms out once

33

00:01:53,749 --> 00:01:49,360

again you'll see uh you're behind your

34

00:01:58,550 --> 00:01:56,069

the forward docking cone

35

00:02:01,030 --> 00:01:58,560

basically the hatch
