

1
00:00:05,510 --> 00:00:03,830
hi i'm mike massimino for the past few

2
00:00:07,749 --> 00:00:05,520
shuttle flights we've taken you behind

3
00:00:09,350 --> 00:00:07,759
the scenes to meet the crews as they

4
00:00:11,190 --> 00:00:09,360
train for their flights and the people

5
00:00:13,110 --> 00:00:11,200
around the country who make those

6
00:00:15,030 --> 00:00:13,120
missions fly but there's a lot of

7
00:00:16,710 --> 00:00:15,040
footage that we haven't shown you yet so

8
00:00:18,790 --> 00:00:16,720
we'd like to take you back to some of

9
00:00:20,710 --> 00:00:18,800
our recent flights and introduce you to

10
00:00:23,670 --> 00:00:20,720
more of the people who do everything at

11
00:00:35,110 --> 00:00:23,680
nasa we hope you enjoy this episode of

12
00:00:38,470 --> 00:00:36,630
the flight director job is pretty cool

13
00:00:40,630 --> 00:00:38,480

job i mean a lot of people would love to

14

00:00:42,310 --> 00:00:40,640

grow up to be a flight director right so

15

00:00:44,069 --> 00:00:42,320

how did this happen for you brian how

16

00:00:45,430 --> 00:00:44,079

did how did you want to do this when

17

00:00:47,110 --> 00:00:45,440

you're a little kid or

18

00:00:49,510 --> 00:00:47,120

uh what happened

19

00:00:50,869 --> 00:00:49,520

i did not yeah so many times you hear

20

00:00:52,630 --> 00:00:50,879

the story of

21

00:00:54,069 --> 00:00:52,640

people saying hey i've known i wanted to

22

00:00:56,709 --> 00:00:54,079

work for nasa ever since i couldn't look

23

00:00:58,229 --> 00:00:56,719

up and see the stars

24

00:00:59,670 --> 00:00:58,239

when i was growing up i looked up and i

25

00:01:01,430 --> 00:00:59,680

just saw the lights on the basketball

26

00:01:03,270 --> 00:01:01,440

court i was on and that's as far as i

27

00:01:04,229 --> 00:01:03,280

saw the lights are still on we're still

28

00:01:06,630 --> 00:01:04,239

playing

29

00:01:08,710 --> 00:01:06,640

that's what my childhood consists of

30

00:01:10,630 --> 00:01:08,720

baseball and basketball this was in

31

00:01:12,390 --> 00:01:10,640

philadelphia yeah

32

00:01:13,429 --> 00:01:12,400

all right and i never thought about

33

00:01:16,469 --> 00:01:13,439

coming to

34

00:01:18,469 --> 00:01:16,479

nasa yeah it wasn't until i finished my

35

00:01:20,390 --> 00:01:18,479

undergraduate degree at villanova and i

36

00:01:22,950 --> 00:01:20,400

wanted to work i worked for a defense

37

00:01:25,670 --> 00:01:22,960

contractor in camden new jersey

38

00:01:27,749 --> 00:01:25,680

and the first couple years i worked on

39

00:01:29,990 --> 00:01:27,759

naval projects yeah these class

40

00:01:29,990 --> 00:01:31,030

destroyers and some systems with that

41

00:01:34,789 --> 00:01:32,550

and then they reassigned me to something

42

00:01:37,270 --> 00:01:34,799

called the space station program

43

00:01:39,270 --> 00:01:37,280

i said okay yeah i love to take that

44

00:01:40,789 --> 00:01:39,280

design job what are we doing we had to

45

00:01:42,469 --> 00:01:40,799

redesign some

46

00:01:43,910 --> 00:01:42,479

some uh

47

00:01:45,270 --> 00:01:43,920

calm equipment for the space station

48

00:01:47,350 --> 00:01:45,280

this is when it went from freedom to

49

00:01:49,670 --> 00:01:47,360

international space station and the

50

00:01:52,830 --> 00:01:49,680

inclination of the orbit changed to

51
00:01:55,590 --> 00:01:52,840
accommodate the russians yeah and that

52
00:01:57,190 --> 00:01:55,600
inclination uh had a higher radiation

53
00:01:59,670 --> 00:01:57,200
feeling and so some boxes need to be

54
00:02:00,630 --> 00:01:59,680
redesigned that's how i got into future

55
00:02:02,630 --> 00:02:00,640
sets

56
00:02:04,550 --> 00:02:02,640
right working at the very design level

57
00:02:06,149 --> 00:02:04,560
the chip level for some of the equipment

58
00:02:07,429 --> 00:02:06,159
that's on right now

59
00:02:09,190 --> 00:02:07,439
i did that for a couple of years and

60
00:02:11,830 --> 00:02:09,200
then i started thinking wouldn't it be

61
00:02:13,830 --> 00:02:11,840
pretty cool to work for nasa

62
00:02:15,910 --> 00:02:13,840
and operate so i thought i'll beat an

63
00:02:17,510 --> 00:02:15,920

operator would be wrong yeah

64

00:02:20,229 --> 00:02:17,520

so i blindly turned my resume into

65

00:02:22,710 --> 00:02:20,239

united space alliance

66

00:02:24,710 --> 00:02:22,720

got married one on my honeymoon got back

67

00:02:27,110 --> 00:02:24,720

from a two-week trip i have a phone call

68

00:02:28,470 --> 00:02:27,120

from usa hey we got your application

69

00:02:32,070 --> 00:02:28,480

we'd like to talk to you of course the

70

00:02:35,830 --> 00:02:33,750

that's right you want to seem too eager

71

00:02:37,509 --> 00:02:35,840

yeah yeah yeah that's good so anyway

72

00:02:39,670 --> 00:02:37,519

that led to the job as a flight

73

00:02:41,670 --> 00:02:39,680

controller yeah and i worked that i came

74

00:02:43,830 --> 00:02:41,680

down here in 1998 okay as a flight

75

00:02:45,190 --> 00:02:43,840

controller for a few years and then

76

00:02:46,630 --> 00:02:45,200

started thinking that was the first time

77

00:02:49,190 --> 00:02:46,640

i started thinking about flight drivers

78

00:02:50,390 --> 00:02:49,200

a couple years into my flight controller

79

00:02:52,070 --> 00:02:50,400

what position did you have as a flight

80

00:02:53,990 --> 00:02:52,080

controller communications tracking

81

00:02:55,509 --> 00:02:54,000

office okay on the space station all

82

00:02:57,110 --> 00:02:55,519

right so you worked worked there you

83

00:02:59,430 --> 00:02:57,120

were one of these folks sitting behind a

84

00:03:01,190 --> 00:02:59,440

console worked your way up through there

85

00:03:02,550 --> 00:03:01,200

right first the back room i guess right

86

00:03:04,790 --> 00:03:02,560

you know to the front room we got

87

00:03:06,390 --> 00:03:04,800

reunited with that hardware that i had

88

00:03:08,309 --> 00:03:06,400

had worked on as an engineer which was

89

00:03:09,270 --> 00:03:08,319

really cool i got to build it and fly it

90

00:03:10,869 --> 00:03:09,280

yeah

91

00:03:13,750 --> 00:03:10,879

and then applied to be a flight director

92

00:03:16,070 --> 00:03:13,760

and slept in the class of 2005.

93

00:03:17,430 --> 00:03:16,080

same as uh mike south all right the guy

94

00:03:20,390 --> 00:03:17,440

you'll be working that's pretty cool

95

00:03:22,630 --> 00:03:20,400

right yes so the path was it wasn't

96

00:03:25,270 --> 00:03:22,640

something i'd set my sights on as a kid

97

00:03:28,550 --> 00:03:25,280

it was something that i methodically

98

00:03:30,630 --> 00:03:28,560

ended up going towards just

99

00:03:33,110 --> 00:03:30,640

see key decision points along my

100

00:03:34,789 --> 00:03:33,120

interests make it interesting yeah

101

00:03:37,030 --> 00:03:34,799

going after interesting jobs and just

102

00:03:38,949 --> 00:03:37,040

making the right decisions and having

103

00:03:41,190 --> 00:03:38,959

having some luck

104

00:03:42,630 --> 00:03:41,200

you know a lot of it too is

105

00:03:44,949 --> 00:03:42,640

you have a lot to offer but does it

106

00:03:47,190 --> 00:03:44,959

match what the company needs at the time

107

00:03:49,509 --> 00:03:47,200

that worked out for me yeah so that's

108

00:03:50,869 --> 00:03:49,519

cool because it wasn't exactly the the

109

00:03:52,789 --> 00:03:50,879

goal you had when you first got to

110

00:03:54,149 --> 00:03:52,799

college you didn't have this as a goal

111

00:03:56,390 --> 00:03:54,159

but you had

112

00:03:58,149 --> 00:03:56,400

uh goals to you know get a job getting

113

00:04:00,229 --> 00:03:58,159

work as an engineer and so on and it led

114

00:04:01,589 --> 00:04:00,239

you to this really cool career because

115

00:04:03,110 --> 00:04:01,599

you kept taking the opportunities that

116

00:04:05,110 --> 00:04:03,120

were in front of you yeah pretty awesome

117

00:04:06,229 --> 00:04:05,120

exactly how it happened all right well

118

00:04:07,429 --> 00:04:06,239

we've got some of your friends here

119

00:04:09,270 --> 00:04:07,439

waiting

120

00:04:10,789 --> 00:04:09,280

to sit down at your at the desk here and

121

00:04:12,390 --> 00:04:10,799

probably go to work is that right that's

122

00:04:14,309 --> 00:04:12,400

right

123

00:04:16,469 --> 00:04:14,319

really you're all guys all together all

124

00:04:17,590 --> 00:04:16,479

right well thanks very much we'll get

125

00:04:18,390 --> 00:04:17,600

out of your way so you guys can go to

126
00:04:20,310 --> 00:04:18,400
work

127
00:04:25,350 --> 00:04:20,320
thanks very much brian and uh we look

128
00:04:30,870 --> 00:04:28,150
crew transport vehicle pretty much it

129
00:04:31,990 --> 00:04:30,880
supports the shuttle when it lands and

130
00:04:33,749 --> 00:04:32,000
um

131
00:04:35,990 --> 00:04:33,759
we just go out and

132
00:04:37,749 --> 00:04:36,000
pick up the crew it's

133
00:04:39,350 --> 00:04:37,759
actually like a medical

134
00:04:40,790 --> 00:04:39,360
on wheels there's a medical on wheels

135
00:04:42,629 --> 00:04:40,800
for the crew when they come back it's

136
00:04:44,469 --> 00:04:42,639
only used for landing right exactly all

137
00:04:45,830 --> 00:04:44,479
right so you drive it from up here yeah

138
00:04:47,510 --> 00:04:45,840

to the front and here we've got all

139

00:04:49,189 --> 00:04:47,520

these everyone's sitting in these chairs

140

00:04:51,030 --> 00:04:49,199

that's where the crew is going to go

141

00:04:52,710 --> 00:04:51,040

okay so what docks with the uh with the

142

00:04:55,670 --> 00:04:52,720

orbiters are this end the platform the

143

00:04:57,030 --> 00:04:55,680

platform that platform yeah so space

144

00:04:58,710 --> 00:04:57,040

shuttle is going to land right you're

145

00:05:01,350 --> 00:04:58,720

going to drive hiawatha what's your last

146

00:05:02,950 --> 00:05:01,360

name bro hi uh well we had you earlier

147

00:05:04,790 --> 00:05:02,960

we filmed you driving the exactly the

148

00:05:07,029 --> 00:05:04,800

131 crew out there

149

00:05:08,710 --> 00:05:07,039

okay so you drive all these things yes

150

00:05:09,909 --> 00:05:08,720

he drives everything for you you have a

151
00:05:11,189 --> 00:05:09,919
special chauffeur's license for this

152
00:05:15,029 --> 00:05:11,199
thing

153
00:05:18,310 --> 00:05:16,710
yeah you're making that up james bond

154
00:05:21,350 --> 00:05:18,320
you have a license to kill yourself is

155
00:05:21,360 --> 00:05:27,510
come on what kind of license you got

156
00:05:31,909 --> 00:05:29,909
that's what we use for the crew okay

157
00:05:33,990 --> 00:05:31,919
everybody that drives the astronaut crew

158
00:05:35,189 --> 00:05:34,000
yeah double07 double oh seven yes

159
00:05:36,710 --> 00:05:35,199
there's nothing to do with a license to

160
00:05:38,629 --> 00:05:36,720
kill them no it's just a license to

161
00:05:39,670 --> 00:05:38,639
drive astronaut vehicles pretty much

162
00:05:40,950 --> 00:05:39,680
okay now you're over there how'd you get

163
00:05:43,270 --> 00:05:40,960

on the other side of this thing okay so

164

00:05:44,870 --> 00:05:43,280

you're you you drive this here this

165

00:05:46,629 --> 00:05:44,880

thing is going to dock the little

166

00:05:48,870 --> 00:05:46,639

platform yeah they're going to dock with

167

00:05:51,510 --> 00:05:48,880

the chassis all right

168

00:05:54,710 --> 00:05:51,520

what did you say the tab

169

00:05:57,270 --> 00:05:54,720

that's the truck that docks with the

170

00:05:58,550 --> 00:05:57,280

orbiter okay so another truck

171

00:06:00,150 --> 00:05:58,560

is going to divert

172

00:06:01,510 --> 00:06:00,160

where is that truck can we see that

173

00:06:02,870 --> 00:06:01,520

later yeah we'll see that later all

174

00:06:05,110 --> 00:06:02,880

right we're going to say that later you

175

00:06:06,230 --> 00:06:05,120

drive that one too no we don't drive you

176

00:06:09,189 --> 00:06:06,240

don't drive that one no we don't who

177

00:06:12,070 --> 00:06:09,199

drives that one uh i got the double away

178

00:06:13,909 --> 00:06:12,080

yeah the move-through guy the move crew

179

00:06:15,350 --> 00:06:13,919

yeah okay so someone else they die and

180

00:06:17,430 --> 00:06:15,360

then this thing docks with that vehicle

181

00:06:19,189 --> 00:06:17,440

yeah this dock with that vehicle okay it

182

00:06:20,469 --> 00:06:19,199

docks with the orbiter and we talked

183

00:06:23,270 --> 00:06:20,479

with that vehicle

184

00:06:25,590 --> 00:06:23,280

and everybody loads off and going to uh

185

00:06:27,670 --> 00:06:25,600

the orbiter and get the crew out okay

186

00:06:29,350 --> 00:06:27,680

and come back on this vehicle and they

187

00:06:31,270 --> 00:06:29,360

get medical treatment if they need it

188

00:06:33,350 --> 00:06:31,280

and they do fine they just change into

189

00:06:34,390 --> 00:06:33,360

their jumpsuits right do a walk around

190

00:06:36,150 --> 00:06:34,400

and

191

00:06:37,510 --> 00:06:36,160

that's it now this is very you got all

192

00:06:40,469 --> 00:06:37,520

kinds of controls on what you got all

193

00:06:41,670 --> 00:06:40,479

these fancy controls for but this

194

00:06:44,309 --> 00:06:41,680

you got your

195

00:06:45,350 --> 00:06:44,319

in and out for your platform yeah which

196

00:06:46,309 --> 00:06:45,360

goes out

197

00:06:48,629 --> 00:06:46,319

right

198

00:06:50,390 --> 00:06:48,639

oh look at that it's going out

199

00:06:51,990 --> 00:06:50,400

and then you got some nothing right

200

00:06:56,230 --> 00:06:52,000

right you're gonna turn right you've got

201

00:07:01,990 --> 00:06:58,469

all right yeah and then you got your

202

00:07:04,070 --> 00:07:02,000

platform that jackson pawed up and down

203

00:07:05,830 --> 00:07:04,080

okay

204

00:07:08,230 --> 00:07:05,840

what goes up in there

205

00:07:09,749 --> 00:07:08,240

the pod what pod this part of the tv

206

00:07:10,870 --> 00:07:09,759

this whole thing yeah the whole thing

207

00:07:13,749 --> 00:07:10,880

the whole thing goes up can you can you

208

00:07:15,270 --> 00:07:13,759

do that or you can scare people no

209

00:07:16,870 --> 00:07:15,280

so it's like one of them low rider

210

00:07:18,230 --> 00:07:16,880

things like they have in california yeah

211

00:07:19,909 --> 00:07:18,240

you ever see that i'm from new york we

212

00:07:21,909 --> 00:07:19,919

didn't have those things we did we took

213

00:07:23,510 --> 00:07:21,919

the subway but in california they've got

214

00:07:24,550 --> 00:07:23,520

these things that go up and down yeah

215

00:07:26,629 --> 00:07:24,560

that's what this there let's go that

216

00:07:28,550 --> 00:07:26,639

goes on yeah all right but a lot of

217

00:07:30,790 --> 00:07:28,560

these buttons are just for lights and

218

00:07:33,189 --> 00:07:30,800

light switches okay uh you got a radio

219

00:07:35,749 --> 00:07:33,199

on us yeah we got radio you do really

220

00:07:38,070 --> 00:07:35,759

yeah play tunes yeah really can you hold

221

00:07:39,909 --> 00:07:38,080

it on that side over here

222

00:07:42,070 --> 00:07:39,919

you got your command sent over here with

223

00:07:44,790 --> 00:07:42,080

your radios for your uh

224

00:07:46,390 --> 00:07:44,800

security and oh i see no i meant like a

225

00:07:48,550 --> 00:07:46,400

radio for music and stuff so you can

226

00:07:50,629 --> 00:07:48,560

like you know jam to the tunes

227

00:07:52,070 --> 00:07:50,639

okay that's good yeah all right you got

228

00:07:53,350 --> 00:07:52,080

windshield wipers you got windshield

229

00:07:55,430 --> 00:07:53,360

wipers they've got wishy wipers for the

230

00:07:57,430 --> 00:07:55,440

doors and for the size not a cigarette

231

00:08:00,150 --> 00:07:57,440

lighter no cigarettes no zero

232

00:08:02,309 --> 00:08:00,160

no smoking in here not smoking okay

233

00:08:03,029 --> 00:08:02,319

all right this is a non-smoker ride all

234

00:08:05,110 --> 00:08:03,039

right

235

00:08:06,869 --> 00:08:05,120

it does this is uh so you drive all

236

00:08:08,550 --> 00:08:06,879

these you drop you drive the astro van

237

00:08:11,430 --> 00:08:08,560

with the crew in it to bring them out to

238

00:08:12,710 --> 00:08:11,440

the launch pad you drive this thing

239

00:08:14,309 --> 00:08:12,720

and you have a family high wealthy you

240

00:08:16,629 --> 00:08:14,319

have two how many kids you got you guys

241

00:08:18,230 --> 00:08:16,639

got four kids you got four kids yeah you

242

00:08:20,309 --> 00:08:18,240

go on family vacations with them

243

00:08:22,710 --> 00:08:20,319

sometimes you drive them around yeah

244

00:08:23,909 --> 00:08:22,720

they give you trouble no no you should

245

00:08:24,830 --> 00:08:23,919

not come on

246

00:08:26,629 --> 00:08:24,840

when you're

247

00:08:27,830 --> 00:08:26,639

driving for one okay when they were

248

00:08:29,189 --> 00:08:27,840

little you should go like on these

249

00:08:30,790 --> 00:08:29,199

family vacations

250

00:08:32,389 --> 00:08:30,800

driving around in a van or something a

251
00:08:34,469 --> 00:08:32,399
station wagon what'd you have we had a

252
00:08:35,829 --> 00:08:34,479
car you had a car you jumped they gave

253
00:08:37,509 --> 00:08:35,839
you trouble and like hey come on i've

254
00:08:38,829 --> 00:08:37,519
been driving fancy vehicles with

255
00:08:41,670 --> 00:08:38,839
astronauts in them don't give me any

256
00:08:42,870 --> 00:08:41,680
trouble then i don't get daniel

257
00:08:44,630 --> 00:08:42,880
all right that would leave him on the

258
00:08:45,910 --> 00:08:44,640
side of the road you would

259
00:08:47,670 --> 00:08:45,920
you have a lesson after not on the side

260
00:08:48,630 --> 00:08:47,680
of the road no let me tell you something

261
00:08:50,070 --> 00:08:48,640
a couple of these guys that are coming

262
00:08:51,190 --> 00:08:50,080
off the space shuttle you may want to

263
00:08:52,870 --> 00:08:51,200

leave them in there

264

00:08:54,949 --> 00:08:52,880

really yeah i don't know i'd be careful

265

00:08:56,070 --> 00:08:54,959

you know that they're not you know i

266

00:08:57,670 --> 00:08:56,080

think you need to get you got to have a

267

00:08:59,670 --> 00:08:57,680

ticket to get on here though do they you

268

00:09:00,949 --> 00:08:59,680

don't have a pass to get on you know and

269

00:09:03,110 --> 00:09:00,959

they have to be dressed appropriately

270

00:09:05,269 --> 00:09:03,120

exactly space suits only exactly this

271

00:09:07,750 --> 00:09:05,279

here is where we uh hello for all our

272

00:09:09,430 --> 00:09:07,760

missions that we support oh mission that

273

00:09:11,750 --> 00:09:09,440

we support we put a patch on the wall

274

00:09:13,829 --> 00:09:11,760

the captain comes off the ship and the

275

00:09:16,389 --> 00:09:13,839

commander officer right and he put his

276

00:09:18,710 --> 00:09:16,399

patch on the wall did you

277

00:09:19,910 --> 00:09:18,720

need to come get again on my last flight

278

00:09:21,990 --> 00:09:19,920

here

279

00:09:23,190 --> 00:09:22,000

what happened we missed me missed you

280

00:09:24,870 --> 00:09:23,200

what did we do we had a walk i don't

281

00:09:27,910 --> 00:09:24,880

even remember you didn't pick us up

282

00:09:31,910 --> 00:09:27,920

we're right we should be right in here

283

00:09:34,150 --> 00:09:31,920

we're missing we live in california

284

00:09:35,030 --> 00:09:34,160

oh this is my first flight though i got

285

00:09:36,630 --> 00:09:35,040

me there

286

00:09:37,829 --> 00:09:36,640

don't drive this out to california no

287

00:09:39,990 --> 00:09:37,839

the camera you should say we're in

288

00:09:41,910 --> 00:09:40,000

florida yeah california so our patches

289

00:09:44,070 --> 00:09:41,920

are in california i guess if they do it

290

00:09:44,870 --> 00:09:44,080

like we do it i don't know

291

00:09:47,190 --> 00:09:44,880

so

292

00:09:48,870 --> 00:09:47,200

this is this side all right

293

00:09:50,470 --> 00:09:48,880

okay so these are all the patches so the

294

00:09:52,389 --> 00:09:50,480

commander comes off and he puts a patch

295

00:09:54,389 --> 00:09:52,399

up yeah you put the patch on and for

296

00:09:56,150 --> 00:09:54,399

landi after he lands okay you know

297

00:09:57,670 --> 00:09:56,160

that's the first thing you do all right

298

00:09:59,430 --> 00:09:57,680

and then they the crew come off and

299

00:10:01,750 --> 00:09:59,440

they'll get over here and ride the chair

300

00:10:04,069 --> 00:10:01,760

all right every teacher being worn by uh

301
00:10:05,750 --> 00:10:04,079
yeah see they come in and get

302
00:10:07,670 --> 00:10:05,760
comfortable and get medical treatment if

303
00:10:08,949 --> 00:10:07,680
they need it and change it to their

304
00:10:09,829 --> 00:10:08,959
flight suits or whatever right because

305
00:10:11,829 --> 00:10:09,839
they're going to become that kind of

306
00:10:12,550 --> 00:10:11,839
come off in the big orange space suits

307
00:10:27,670 --> 00:10:12,560
and

308
00:10:39,910 --> 00:10:29,269
we got a cooling unit here for them boys

309
00:10:43,590 --> 00:10:40,790
all right

310
00:10:44,949 --> 00:10:43,600
keep more comfy yeah what else we got oh

311
00:10:46,870 --> 00:10:44,959
we got

312
00:10:48,069 --> 00:10:46,880
stretchers out here in case they need

313
00:10:49,269 --> 00:10:48,079

them

314

00:10:50,870 --> 00:10:49,279

but sometimes they come back and they

315

00:10:51,910 --> 00:10:50,880

may not feel so well yeah come back from

316

00:10:53,110 --> 00:10:51,920

space

317

00:10:54,470 --> 00:10:53,120

these guys are probably i'm sure these

318

00:10:56,230 --> 00:10:54,480

guys will be fine

319

00:10:57,590 --> 00:10:56,240

doctors are on board just in case just

320

00:10:59,829 --> 00:10:57,600

in case and they're nurses and stuff

321

00:11:01,750 --> 00:10:59,839

like that

322

00:11:03,110 --> 00:11:01,760

so we got them back here too so right

323

00:11:05,590 --> 00:11:03,120

because it gets an adjustment coming

324

00:11:07,110 --> 00:11:05,600

back yeah you know it's like a hospital

325

00:11:08,630 --> 00:11:07,120

on wheels right just in case that's what

326

00:11:09,990 --> 00:11:08,640

this is all right

327

00:11:11,509 --> 00:11:10,000

what else we got we got we got a
