

1  
00:01:08,870 --> 00:01:07,270  
this is mission control houston as you

2  
00:01:11,030 --> 00:01:08,880  
can see the first tower now being

3  
00:01:13,109 --> 00:01:11,040  
retracted we are less than 30 seconds

4  
00:01:27,429 --> 00:01:13,119  
from the liftoff of the 40 progress

5  
00:01:44,870 --> 00:01:29,109  
and the second tower now retracted

6  
00:01:48,230 --> 00:01:46,149  
in the ground control team now

7  
00:01:53,429 --> 00:01:48,240  
confirming we have liftoff of the 40

8  
00:01:59,670 --> 00:01:55,429  
for 10 seconds into the mission and it's

9  
00:02:02,950 --> 00:02:01,030  
the ground control team reporting

10  
00:02:49,589 --> 00:02:02,960  
everything going normal thus far 20

11  
00:02:52,949 --> 00:02:51,350  
and the ground control team continuing

12  
00:02:56,630 --> 00:02:52,959  
to report everything going nominal they

13  
00:02:59,270 --> 00:02:56,640

have reached max q again the progress 40

14

00:03:01,190 --> 00:02:59,280

cargo ship now launched at 10 11 am

15

00:03:03,270 --> 00:03:01,200

central time 9 11 pm

16

00:03:05,670 --> 00:03:03,280

from baikonur that launch from the

17

00:03:07,270 --> 00:03:05,680

baikonur cosmodrome in kazakhstan now

18

00:03:08,550 --> 00:03:07,280

bringing with it several thousand pounds

19

00:03:45,110 --> 00:03:08,560

of supplies and equipment to the

20

00:04:41,030 --> 00:03:46,630

and the ground team just reporting they

21

00:04:44,629 --> 00:04:43,110

the ground team continuing to report and

22

00:04:46,469 --> 00:04:44,639

monitor systems everything going

23

00:04:48,390 --> 00:04:46,479

smoothly and nominal for the progress
