

1
00:00:07,030 --> 00:00:03,590
on his way past comet hartley 2 on

2
00:00:08,870 --> 00:00:07,040
november 4th 2010 nasa's epoxy mission

3
00:00:10,870 --> 00:00:08,880
spacecraft flew through a storm of

4
00:00:13,030 --> 00:00:10,880
fluffy ice particles spewed out by

5
00:00:14,950 --> 00:00:13,040
carbon dioxide jets coming from the

6
00:00:16,950 --> 00:00:14,960
rough ends of the comet and through

7
00:00:19,349 --> 00:00:16,960
water vapor flowing from its smooth

8
00:00:21,910 --> 00:00:19,359
middle portion the new findings show

9
00:00:24,230 --> 00:00:21,920
that hartley 2 works quite differently
