156
00:11:55,750 --> 00:11:53,839
down and see the earth and now we're in

157
00:11:57,829 --> 00:11:55,760

158
00:12:15,509 --> 00:11:57,839

for the last three years we have been

163
00:12:42,790 --> 00:12:40,320

trying to figure out where you are

164

00:12:46,470 --> 00:12:42,800

whether it's in germany or moscow or

165

00:12:47,590 --> 00:12:46,480

star city or japan or canada or texas

166

00:12:49,829 --> 00:12:47,600

and now

167

00:12:52,310 --> 00:12:49,839

we know exactly where you are

168

00:12:53,910 --> 00:12:52,320

we know exactly we can find out at any

169

00:12:56,470 --> 00:12:53,920

moment precisely where you are and

170

00:12:58,310 --> 00:12:56,480

you're only i don't know 200 and 200

171

00:13:00,310 --> 00:12:58,320

miles away so

172

00:13:04,870 --> 00:13:00,320

you see close to us now

173

00:13:08,150 --> 00:13:06,389

i love you guys and we won't have to

174

00:13:15,750 --> 00:13:08,160

178

00:13:31,990 --> 00:13:25,360

closer

179

00:13:35,829 --> 00:13:33,750

coming from here too i missed you guys

180

00:13:37,829 --> 00:13:35,839

and i was thinking of you traveling from

181

00:13:39,509 --> 00:13:37,839

uh lincoln or back to moscow and

182

00:13:55,829 --> 00:13:39,519

thinking that we had the easy road just

183

00:13:55,839 --> 00:14:02,230

go ahead

184

00:14:05,910 --> 00:14:03,750

i just stand to say hello to all the

185

00:14:07,110 --> 00:14:05,920

other folks that came to the launch i

186

00:14:27,350 --> 00:14:07,120

really appreciate that they came and

187

00:14:27,360 --> 00:14:37,750

though we are on the uh

188

00:14:42,069 --> 00:14:39,910

capacity to work

189

00:14:44,949 --> 00:14:42,079

so that the mission would not be just an

190

00:14:48,150 --> 00:14:44,959

ordinary one but from you

191
