7
00:00:33,910 --> 00:00:31,439
it is sad to see the shuttle story

8
00:00:35,910 --> 00:00:33,920
approaching the close of its chapter

9
00:00:37,270 --> 00:00:35,920
and this mighty history book of space

10
00:00:38,950 --> 00:00:37,280
exploration

11
00:00:40,950 --> 00:00:38,960
but the book will continue with new

12
00:00:43,590 --> 00:00:40,960
exciting chapters

13
00:00:45,910 --> 00:00:43,600

about space programs and more advanced

14

00:00:46,950 --> 00:00:45,920

space vehicles to carry us into the next

15

00:00:49,910 --> 00:00:46,960

chapters

16

00:00:57,350 --> 00:00:49,920

17

00:01:01,510 --> 00:00:59,590

the challenger crew will be forever

18

00:01:04,149 --> 00:01:01,520

young in our minds

19

00:01:06,149 --> 00:01:04,159

their legacy is the challenger centers

20

00:01:07,670 --> 00:01:06,159

and an inspiration that motivates our

21

00:01:09,990 --> 00:01:07,680

children to learn

22

00:01:11,990 --> 00:01:10,000

and aspire to careers in math science

23

00:01:14,550 --> 00:01:12,000

and engineering

24

00:01:16,310 --> 00:01:14,560

they've shown us that exploration is not

25

00:01:18,550 --> 00:01:16,320

without risk

26
00:01:24,870 --> 00:01:18,560
but that we can learn from our mistakes

27
00:01:28,950 --> 00:01:27,830
this crew our co-workers

28
00:01:30,230 --> 00:01:28,960
friends

29
00:01:31,190 --> 00:01:30,240
teachers

30
00:01:34,950 --> 00:01:31,200
sons

31
00:01:37,270 --> 00:01:34,960
daughters mothers fathers boarded a ship

32
00:01:39,190 --> 00:01:37,280
named to honor the legacy of exploration

33
00:01:41,590 --> 00:01:39,200
and the pursuit of human knowledge our

34
00:01:44,310 --> 00:01:41,600
most sacred pursuit with the goal of

35
00:01:47,270 --> 00:01:44,320
accomplishing the same their sacrifice

36
00:01:49,749 --> 00:01:47,280
was a stark brutal reminder that

37
00:01:52,069 --> 00:01:49,759
our knowledge our technology our science

38
00:01:58,709 --> 00:01:52,079

and our dreams are often paid for in the

39

00:02:04,389 --> 00:02:00,950

to conclude today's ceremony

40

00:02:06,230 --> 00:02:04,399

i would like to ask june scobee rogers

41

00:02:08,229 --> 00:02:06,240
