

1
00:00:21,490 --> 00:00:17,960
was it media dear friends really

2
00:00:24,500 --> 00:00:21,500
solution of the most robust from the

3
00:00:26,120 --> 00:00:24,510
from our management and from the hearts

4
00:00:27,769 --> 00:00:26,130
of all the Kazakhstan people we would

5
00:00:30,259 --> 00:00:27,779
like to congratulate the crew with a

6
00:00:33,200 --> 00:00:30,269
successful landing back to mother earth

7
00:00:37,130 --> 00:00:33,210
this is managed or we all know that each

8
00:00:39,410 --> 00:00:37,140
of you has your own personal experience

9
00:00:41,330 --> 00:00:39,420
working in space alexander cadet is

10
00:00:44,540 --> 00:00:41,340
there for the fifth time what is not a

11
00:00:47,440 --> 00:00:44,550
Buddhist is Iggy Pop and so with your

12
00:01:17,360 --> 00:00:47,450
work please allow us to make a gift

13
00:01:43,779 --> 00:01:20,880

that's a good food trust in g greetings

14

00:01:47,840 --> 00:01:46,039

you should reverse it you must be very

15

00:01:49,130 --> 00:01:47,850

suspicious one more time allows to

16

00:01:51,620 --> 00:01:49,140

congratulate you with a successful

17

00:01:53,480 --> 00:01:51,630

landing with you wish you and your

18

00:01:56,840 --> 00:01:53,490

families and your friends the best of

19

00:02:00,770 --> 00:01:56,850

luck and also thank you to all who have

20

00:02:08,359 --> 00:02:00,780

provided for your safety and for your

21

00:02:13,309 --> 00:02:08,369

safe arrival back to earth Thank You

22

00:02:16,699 --> 00:02:13,319

Lucia dear friends from the rescue team

23

00:02:18,770 --> 00:02:16,709

that have allowed us to support you and

24

00:02:21,699 --> 00:02:18,780

your safe landing I would like to give

25

00:02:38,070 --> 00:02:21,709

you our souvenirs this is for you

26

00:02:41,820 --> 00:02:40,050

what you can review so the disc affinity

27

00:02:45,710 --> 00:02:41,830

for elf thank you sir now the

28

00:03:00,630 --> 00:02:55,320

the museum dear friends you please allow

29

00:03:02,730 --> 00:03:00,640

me to give you gift books that you may

30

00:03:04,920 --> 00:03:02,740

remember because right now we are

31

00:03:09,360 --> 00:03:04,930

celebrating the 50 year anniversary of

32

00:03:11,430 --> 00:03:09,370

flight in space and be sure to note that

33

00:03:13,140 --> 00:03:11,440

these books contain your pictures too

34

00:03:32,380 --> 00:03:13,150

because you all mean very much to our

35

00:03:39,200 --> 00:03:36,080

that I've heard you plan to meet your

36

00:03:40,970 --> 00:03:39,210

twin brother for the space but then his

37

00:03:44,570 --> 00:03:40,980

flight was delayed and so on do you feel

38

00:03:46,880 --> 00:03:44,580

regret looking over 21 now I don't I

39

00:03:51,680 --> 00:03:46,890

don't feel any regret that was something

40

00:03:53,450 --> 00:03:51,690

that was always it's kind of a nice to

41

00:03:59,200 --> 00:03:53,460

have kind of thing it wasn't part of any

42

00:04:02,720 --> 00:03:59,210

kind of plan so I'm feeling goes on

43

00:04:04,820 --> 00:04:02,730

smoothly she's a local store issues no

44

00:04:09,940 --> 00:04:04,830

pedal board risk we todavia cascara de

45

00:04:47,460 --> 00:04:13,490

that finished some simple expedient or

46

00:04:54,610 --> 00:04:49,690

expedition 26 commander Scott Kelly

47

00:04:56,490 --> 00:04:54,620

welcome home 159 days in space quite an

48

00:04:59,830 --> 00:04:56,500

expedition what were your thoughts

49

00:05:01,330 --> 00:04:59,840

undocked today the Soyuz backed away

50

00:05:04,990 --> 00:05:01,340

from the station that had been your home

51
00:05:08,920 --> 00:05:05,000
from six months well you know I kind of

52
00:05:11,620 --> 00:05:08,930
I guess I reflected on how much work we

53
00:05:15,150 --> 00:05:11,630
did and how much we accomplished thought

54
00:05:20,050 --> 00:05:15,160
that you know it's such an amazing

55
00:05:25,080 --> 00:05:20,060
research facility that we built so so

56
00:05:31,990 --> 00:05:29,140
something with music that's a place I'm

57
00:05:33,280 --> 00:05:32,000
gonna miss I certainly look forward and

58
00:05:35,830 --> 00:05:33,290
looked forward to getting back to earth

59
00:05:38,500 --> 00:05:35,840
and a lot more things I've ever laid I

60
00:05:44,280 --> 00:05:38,510
look forward to you but definitely miss

61
00:05:47,920 --> 00:05:44,290
the space station yeah I'll get the

62
00:05:51,190 --> 00:05:47,930
impressions you had as we left to stay

63
00:05:52,570 --> 00:05:51,200

friends entry like your first

64

00:05:54,750 --> 00:05:52,580

impressions as they open the hatches

65

00:05:59,170 --> 00:05:54,760

look like a scene out of the North Pole

66

00:06:01,870 --> 00:05:59,180

well entry was you know I've heard so

67

00:06:05,410 --> 00:06:01,880

much about how the Soyuz entry is kind

68

00:06:10,090 --> 00:06:05,420

of a you know a little on the rough side

69

00:06:12,460 --> 00:06:10,100

so it was sort of what I expected which

70

00:06:17,620 --> 00:06:12,470

is a series of explosions followed by a

71

00:06:19,930 --> 00:06:17,630

car crash and and then when the hatch

72

00:06:22,870 --> 00:06:19,940

opened it's just quite refreshing to get

73

00:06:26,670 --> 00:06:22,880

that cold air and you know snow blown

74

00:06:28,830 --> 00:06:26,680

inside the capsule it was it was a

75

00:06:34,080 --> 00:06:28,840

definitely a once-in-a-lifetime

76

00:06:36,390 --> 00:06:34,090

experience you're fresh out of your

77

00:06:37,439 --> 00:06:36,400

mission here but in reflection what do

78

00:06:39,330 --> 00:06:37,449

you consider to be the major

79

00:06:41,550 --> 00:06:39,340

accomplishment of your expedition there

80

00:06:43,140 --> 00:06:41,560

was so much to choose from you know

81

00:06:46,200 --> 00:06:43,150

that's really hard to say because

82

00:06:48,120 --> 00:06:46,210

because we we did so much you know there

83

00:06:53,850 --> 00:06:48,130

were so many visiting vehicles there was

84

00:06:55,560 --> 00:06:53,860

a lot of maintenance done on certain

85

00:06:57,210 --> 00:06:55,570

systems of the space station that I was

86

00:07:01,770 --> 00:06:57,220

involved in certainly a lot of science

87

00:07:04,050 --> 00:07:01,780

was done I think it's really hard to say

88

00:07:05,820 --> 00:07:04,060

there's one major accomplishment I think

89

00:07:08,689 --> 00:07:05,830

it's really the accomplishment of the

90

00:07:13,050 --> 00:07:08,699

whole team in putting such a complicated

91

00:07:14,960 --> 00:07:13,060

plan together and in executing it and I

92

00:07:17,430 --> 00:07:14,970

guess that's what I'm most proud of

93

00:07:19,020 --> 00:07:17,440

Scott it goes without saying that the

94

00:07:20,820 --> 00:07:19,030

the wounding of your sister-in-law in

95

00:07:25,230 --> 00:07:20,830

January represented the test of a

96

00:07:27,330 --> 00:07:25,240

lifetime for you in orbit and obviously

97

00:07:31,290 --> 00:07:27,340

for your brother how difficult a period

98

00:07:33,779 --> 00:07:31,300

of time was that for you as basically

99

00:07:35,490 --> 00:07:33,789

being in orbit unable to lend hands on

100

00:07:38,520 --> 00:07:35,500

assistance to your brother at a time of

101
00:07:42,120 --> 00:07:38,530
crisis like that well you know it

102
00:07:43,770 --> 00:07:42,130
certainly was difficult now you know

103
00:07:47,430 --> 00:07:43,780
having said that it was you know

104
00:07:50,070 --> 00:07:47,440
something that both mark and I are kind

105
00:07:55,379 --> 00:07:50,080
of trained to deal with his military

106
00:07:57,960 --> 00:07:55,389
pilots you know just putting your you

107
00:08:00,689 --> 00:07:57,970
know personal issues aside and focusing

108
00:08:03,149 --> 00:08:00,699
on what your job is so although I would

109
00:08:06,120 --> 00:08:03,159
have preferred to be able to you know

110
00:08:09,450 --> 00:08:06,130
help them in person and you know assist

111
00:08:10,740 --> 00:08:09,460
as as best I could I you know recognize

112
00:08:13,529 --> 00:08:10,750
that my place was on the space station

113
00:08:15,899 --> 00:08:13,539

and you know just focused on my work and

114

00:08:17,939 --> 00:08:15,909

I called him and my kids as much as i

115

00:08:19,980 --> 00:08:17,949

could and other you know friends and

116

00:08:21,749 --> 00:08:19,990

family as much as i could to try to

117

00:08:24,510 --> 00:08:21,759

support them and you know there's not a

118

00:08:26,370 --> 00:08:24,520

whole lot of support you can provide in

119

00:08:28,140 --> 00:08:26,380

space other than you know just emotional

120

00:08:30,779 --> 00:08:28,150

on the phone but i try to do that as

121

00:08:32,550 --> 00:08:30,789

best i could the reports on her recovery

122

00:08:34,380 --> 00:08:32,560

are so encouraging what are you looking

123

00:08:37,529 --> 00:08:34,390

forward to the most when you get

124

00:08:42,219 --> 00:08:40,480

um no just seeing them and talking to

125

00:08:45,750 --> 00:08:42,229

them and seeing how he's doing and you

126

00:08:49,240 --> 00:08:45,760

know he was talking in person versus a a

127

00:08:51,460 --> 00:08:49,250

cell phone with our satellite phone with

128

00:08:54,760 --> 00:08:51,470

very sporadic coverage that you're

129

00:08:59,949 --> 00:08:54,770

always waiting for the the you know when

130

00:09:02,410 --> 00:08:59,959

the satellite passes over so it's got a

131

00:09:06,579 --> 00:09:02,420

final question your expedition was so

132

00:09:08,800 --> 00:09:06,589

much triumph tinged with the tragedy for

133

00:09:10,780 --> 00:09:08,810

you when you when you think you'll have

134

00:09:15,360 --> 00:09:10,790

time to reflect on it all what do you

135

00:09:21,760 --> 00:09:19,660

well certainly the low is when Gabby was

136

00:09:24,310 --> 00:09:21,770

shot along with all those the other

137

00:09:27,190 --> 00:09:24,320

Tucson victims without a doubt I mean

138

00:09:28,990 --> 00:09:27,200

when you hear a you know you get a phone

139

00:09:31,199 --> 00:09:29,000

call that the chief of the astronaut

140

00:09:35,400 --> 00:09:31,209

office wants to talk to you immediately

141

00:09:37,900 --> 00:09:35,410

you know you know it's not good news and

142

00:09:45,160 --> 00:09:37,910

and then to get news like that it was

143

00:09:50,199 --> 00:09:45,170

just shocking and very sad tragic the

144

00:09:51,610 --> 00:09:50,209

highs it's like like how I answer the

145

00:09:56,410 --> 00:09:51,620

other question it's really kind of hard

146

00:10:00,970 --> 00:09:56,420

to say because we had you know a lot of

147

00:10:04,300 --> 00:10:00,980

different variety of work with visiting

148

00:10:05,620 --> 00:10:04,310

vehicles and working on certain systems

149

00:10:09,840 --> 00:10:05,630

on the space station you know certainly

150

00:10:13,499 --> 00:10:09,850

Ulf five being there was

151

00:10:18,030 --> 00:10:13,509

a lot of fun to have visitors and the

152

00:10:20,749 --> 00:10:18,040

HTV work we did was pretty complex with

153

00:10:23,370 --> 00:10:20,759

the robotics and getting it you know

154

00:10:25,110 --> 00:10:23,380

first burst and then you know partially

155

00:10:28,590 --> 00:10:25,120

unloaded and then moved and then moved

156

00:10:31,710 --> 00:10:28,600

back so I would say those those two

157

00:10:33,509 --> 00:10:31,720

things Scott Kelly expedition 26

158

00:11:16,960 --> 00:10:33,519

commander welcome back congratulations

159

00:11:22,730 --> 00:11:19,430

leave it better cause for favorite

160

00:11:26,200 --> 00:11:22,740

texting key partners FCU partners yeah

161

00:11:30,460 --> 00:11:26,210

yeah whatever Janus together cover
