

1
00:00:42,960 --> 00:00:48,630
it robonaut is not here

2
00:00:48,640 --> 00:00:53,670
that's what we're afraid of

3
00:00:53,680 --> 00:01:01,189
it's like unearthing a mummy

4
00:01:04,149 --> 00:01:03,270
well at least the mummy would be here we

5
00:01:06,070 --> 00:01:04,159
just

6
00:01:08,830 --> 00:01:06,080
have an empty

7
00:01:29,650 --> 00:01:08,840
box where robonaut is supposed to be

8
00:01:29,660 --> 00:01:36,789
[Music]

9
00:01:36,799 --> 00:01:41,510
we'll put that in work

10
00:01:50,630 --> 00:01:43,590
and station huntsville is somebody

11
00:01:59,030 --> 00:01:52,550
well nobody is walking but we have

12
00:01:59,040 --> 00:02:05,749
you guys are bad

13
00:02:05,759 --> 00:02:16,550

and we're on our two camera

14

00:02:25,990 --> 00:02:18,309

eastern huntsville do you see what we

15

00:02:26,000 --> 00:02:33,910

[Music]

16

00:02:33,920 --> 00:02:41,030

wait for us to get him out of the box

17

00:02:41,040 --> 00:02:47,030

totally awesome

18

00:02:47,040 --> 00:03:22,869

thanks for that guys

19

00:03:26,309 --> 00:03:24,710

i'd like to introduce you to the newest

20

00:03:28,229 --> 00:03:26,319

member of our crew

21

00:03:30,470 --> 00:03:28,239

i'm not sure if he's expedition 26 or

22

00:03:33,030 --> 00:03:30,480

expedition 27 but he's definitely on

23

00:03:34,710 --> 00:03:33,040

board this is robonaut 2

24

00:03:37,270 --> 00:03:34,720

and i'd like to take this opportunity to

25

00:03:39,270 --> 00:03:37,280

thank all the engineers that

26

00:03:41,430 --> 00:03:39,280

got this guy ready to fly in quite a

27

00:03:42,710 --> 00:03:41,440

hurry i think just a little while ago he

28

00:03:44,630 --> 00:03:42,720

didn't even know he'd be on the space

29

00:03:46,550 --> 00:03:44,640

station and now he's up here with us and

30

00:03:48,149 --> 00:03:46,560

we're going to see what robonaut can do

31

00:03:49,509 --> 00:03:48,159

so thanks to everybody who worked so

32

00:03:51,430 --> 00:03:49,519

hard to get him ready we know it was a

33

00:04:03,190 --> 00:03:51,440

lot of work and we're happy to have him

34

00:04:07,830 --> 00:04:05,030

and station huntsville of course the

35

00:04:09,589 --> 00:04:07,840

robonaut team is cheering here uh

36

00:04:11,589 --> 00:04:09,599

awesome job

37

00:04:15,509 --> 00:04:11,599

and are you sure this guy isn't related

38

00:04:20,949 --> 00:04:17,030

oh you know since we found him already

39

00:04:23,749 --> 00:04:22,150

since we already found him uh

40

00:04:26,629 --> 00:04:23,759

controlling the space station we're sure

41

00:04:28,629 --> 00:04:26,639

that he is related to how but we'll see

42

00:04:30,629 --> 00:04:28,639

it's actually a fascinating partnership

43

00:04:33,270 --> 00:04:30,639

you know nasa and gm

44

00:04:34,550 --> 00:04:33,280

in terms of the robotics involved in in

45

00:04:35,590 --> 00:04:34,560

robonaut and we're really looking

46

00:04:37,670 --> 00:04:35,600

forward to

47

00:04:39,510 --> 00:04:37,680

understanding how he works and how he

48

00:04:41,110 --> 00:04:39,520

can work with us it's a real good

49

00:04:42,870 --> 00:04:41,120

opportunity to

50

00:04:54,390 --> 00:04:42,880

help understand the interface between

51
00:04:58,950 --> 00:04:56,550
and station houston uh we copy all

52
00:05:01,270 --> 00:04:58,960
thanks for those words katie but uh how

53
00:05:10,150 --> 00:05:01,280
come we never see dima and robo not in

54
00:05:14,170 --> 00:05:12,550
we've been wondering exactly the same

55
00:05:15,510 --> 00:05:14,180
thing we'll keep you posted

56
00:05:32,790 --> 00:05:15,520
[Music]

57
00:05:34,390 --> 00:05:32,800
i'd like to introduce you to the newest

58
00:05:36,310 --> 00:05:34,400
member of our crew

59
00:05:38,629 --> 00:05:36,320
we're not sure if he's expedition 26 or

60
00:05:41,110 --> 00:05:38,639
exhibition 27 but he's definitely on

61
00:05:42,790 --> 00:05:41,120
board this is robonaut 2.

62
00:05:45,749 --> 00:05:42,800
and i'd like to take this opportunity to

63
00:05:48,150 --> 00:05:45,759

thank all the engineers that uh got this

64

00:05:49,670 --> 00:05:48,160

guy ready to fly in quite a hurry i

65

00:05:51,110 --> 00:05:49,680

think just a little while ago he didn't

66

00:05:52,870 --> 00:05:51,120

even know he'd be on the space station

67

00:05:54,790 --> 00:05:52,880

and now he's up here with us and we're

68

00:05:56,469 --> 00:05:54,800

going to see what robonaut can do so

69

00:05:57,749 --> 00:05:56,479

thanks to everybody who worked so hard

70

00:06:18,870 --> 00:05:57,759

to get him ready we know it was a lot of

71

00:06:18,880 --> 00:06:26,390

this

72

00:06:41,029 --> 00:06:28,950

[Music]

73

00:06:58,390 --> 00:06:43,670

one of them recorded this

74

00:07:00,070 --> 00:06:58,400

[Music]

75

00:07:02,309 --> 00:07:00,080

you guys never told us there was a

76
00:07:10,790 --> 00:07:02,319
motion stopped in there moving through

77
00:07:14,070 --> 00:07:12,469
so vern i'm making a joke because it was

78
00:07:16,250 --> 00:07:14,080
written nine times in the procedure and

79
00:07:25,110 --> 00:07:16,260
yes we retrieved the

80
00:07:31,250 --> 00:07:26,309
so you're getting live video right now

81
00:07:54,550 --> 00:07:33,990
[Music]

82
00:07:54,560 --> 00:07:58,660
okay

83
00:07:58,670 --> 00:08:10,790
[Music]

84
00:08:10,800 --> 00:08:24,550
if

85
00:08:35,750 --> 00:08:26,510
just too

86
00:08:35,760 --> 00:08:50,389
um

87
00:08:50,399 --> 00:08:53,720
yes

88
00:09:09,750 --> 00:09:02,150

[Music]

89

00:09:12,550 --> 00:09:11,269

do they want to see anything special

90

00:09:13,930 --> 00:09:12,560

under here

91

00:09:15,590 --> 00:09:13,940

because i don't know

92

00:09:17,030 --> 00:09:15,600

[Music]

93

00:09:18,949 --> 00:09:17,040

the power connectors yeah that's it but

94

00:09:20,790 --> 00:09:18,959

the parking is capped so do they want to

95

00:09:21,480 --> 00:09:20,800

see anything else special

96

00:09:28,410 --> 00:09:21,490

can

97

00:09:40,710 --> 00:09:31,670

[Music]

98

00:09:59,269 --> 00:09:42,150

anything else

99

00:10:04,790 --> 00:10:01,670

is good so

100

00:10:06,949 --> 00:10:04,800

nothing else required on that they saw

101

00:10:09,200 --> 00:10:06,959

all the power switch and everything

102

00:10:19,670 --> 00:10:09,210

thanks

103

00:10:30,949 --> 00:10:21,350

you know those things might seem small

104

00:10:34,069 --> 00:10:32,310

really must have been so um more to get

105

00:10:35,670 --> 00:10:34,079

me ready it's free and i don't watch

106

00:10:36,870 --> 00:10:35,680

this delay because

107

00:10:42,150 --> 00:10:36,880

you know that doesn't help you guys

108

00:10:58,310 --> 00:10:44,700

times like this
