

1
00:01:33,530 --> 00:01:30,980
where is et al Ric ladies and gentlemen

2
00:01:46,000 --> 00:01:33,540
the President of Russian Federation

3
00:01:51,680 --> 00:01:48,680
athleta good afternoon was that our

4
00:01:58,750 --> 00:01:51,690
lives here youngistan congratulations on

5
00:02:07,480 --> 00:02:03,010
Nigel ganache no biggie said live you

6
00:02:10,389 --> 00:02:07,490
know 50 years by choice rock is a long

7
00:02:13,210 --> 00:02:10,399
period lowest on the standpoint of a

8
00:02:15,610 --> 00:02:13,220
human lifespan but then again as I was

9
00:02:17,920 --> 00:02:15,620
just commenced presenting medals to the

10
00:02:20,200 --> 00:02:17,930
leaders of our space industry nasheman

11
00:02:21,820 --> 00:02:20,210
after their cosmonauts she seemed to

12
00:02:25,030 --> 00:02:21,830
preach it to everybody who's involved

13
00:02:27,370 --> 00:02:25,040

Scott space exploration oh gosh as I was

14

00:02:30,190 --> 00:02:27,380

doing that I said this is still the

15

00:02:33,550 --> 00:02:30,200

early childhood face for mankind the

16

00:02:36,250 --> 00:02:33,560

mankind with that dared to take the step

17

00:02:39,190 --> 00:02:36,260

into the space when I'm smoothly and in

18

00:02:41,800 --> 00:02:39,200

that sense we're fortunate nation my

19

00:02:44,980 --> 00:02:41,810

name's analytic a meteor least a ship

20

00:02:47,920 --> 00:02:44,990

that we come in the footsteps of those

21

00:02:49,450 --> 00:02:47,930

great accomplishments of the past that

22

00:02:52,750 --> 00:02:49,460

have been made possible by our

23

00:02:54,910 --> 00:02:52,760

predecessors and those who are here in

24

00:02:58,240 --> 00:02:54,920

this room today thank you and I'd be

25

00:03:01,660 --> 00:02:58,250

hard-pressed to think of any other one

26

00:03:06,820 --> 00:03:01,670

idea there would be as consolidating as

27

00:03:10,110 --> 00:03:06,830

space exploration use them yeah Masha

28

00:03:14,740 --> 00:03:10,120

yeah and it's a great fortune

29

00:03:17,020 --> 00:03:14,750

exactly 50 years our country may come on

30

00:03:19,660 --> 00:03:17,030

up you did the first cosmonaut yuri

31

00:03:21,220 --> 00:03:19,670

gagarin perform this feat even the

32

00:03:23,500 --> 00:03:21,230

violin when we see what that is why

33

00:03:26,410 --> 00:03:23,510

we're here today even if I up this is

34

00:03:28,300 --> 00:03:26,420

what brings us here this is what we're

35

00:03:30,910 --> 00:03:28,310

celebrating and this is what our whole

36

00:03:33,810 --> 00:03:30,920

country is celebrating and more easily

37

00:03:36,400 --> 00:03:33,820

not just our country but all the world

38

00:03:38,580 --> 00:03:36,410

but it's that we have our guests in this

39

00:03:42,040 --> 00:03:38,590

room today they represent the

40

00:03:45,550 --> 00:03:42,050

international core of astronauts and

41

00:03:47,920 --> 00:03:45,560

cosmonauts it's quite extensive over 500

42

00:03:51,130 --> 00:03:47,930

people are formed to space at this point

43

00:03:53,949 --> 00:03:51,140

and many international crew members have

44

00:03:56,380 --> 00:03:53,959

flown with our crews and it felt so

45

00:03:59,220 --> 00:03:56,390

great earlier today when I was

46

00:04:01,870 --> 00:03:59,230

presenting the medals in a word to our

47

00:04:05,229 --> 00:04:01,880

incredible veterans with your

48

00:04:07,370 --> 00:04:05,239

international friends are you a TIA it

49

00:04:10,420 --> 00:04:07,380

does not someone dearly module boots

50

00:04:14,380 --> 00:04:10,430

nice you see this may very well be

51
00:04:16,960 --> 00:04:14,390
keturah exactly are the original idea

52
00:04:20,000 --> 00:04:16,970
nationalities of the mankind that was

53
00:04:22,810 --> 00:04:20,010
accidentally devised by our thinkers

54
00:04:27,740 --> 00:04:22,820
such as Constantine sulkowski and then

55
00:04:31,190 --> 00:04:27,750
built upon by such great designers as

56
00:04:34,570 --> 00:04:31,200
Sergei Korolev apology and this idea

57
00:04:39,110 --> 00:04:34,580
came into existence and came to fruition

58
00:04:42,320 --> 00:04:39,120
and I think this is precisely over the

59
00:04:44,270 --> 00:04:42,330
impulse that we need that should

60
00:04:47,390 --> 00:04:44,280
motivate motivate us towards future

61
00:04:50,150 --> 00:04:47,400
action and the new math this action

62
00:04:53,690 --> 00:04:50,160
should push should follow is obvious

63
00:04:56,600 --> 00:04:53,700

Russia cannot and should not lose what

64

00:04:59,900 --> 00:04:56,610

it's accomplished in space and we were

65

00:05:02,030 --> 00:04:59,910

able to accomplish a lot we were able to

66

00:05:03,470 --> 00:05:02,040

send the first satellite into space we

67

00:05:06,590 --> 00:05:03,480

were able to send the first man into

68

00:05:09,620 --> 00:05:06,600

space and many more great achievements

69

00:05:13,040 --> 00:05:09,630

followed and today space is not just a

70

00:05:16,730 --> 00:05:13,050

grand idea but rather a tool used by

71

00:05:19,600 --> 00:05:16,740

mankind to devise and modifies modify

72

00:05:22,460 --> 00:05:19,610

new technologies come up with new

73

00:05:25,430 --> 00:05:22,470

medicine and new communication assets

74

00:05:28,640 --> 00:05:25,440

space has become more than just a matter

75

00:05:31,220 --> 00:05:28,650

of ideology instead becoming a part of

76

00:05:33,970 --> 00:05:31,230

our day-to-day lives these become a

77

00:05:37,130 --> 00:05:33,980

routine in the best sense of the word

78

00:05:39,770 --> 00:05:37,140

having done that the space has not lost

79

00:05:42,890 --> 00:05:39,780

its romantic luster my thousand x only

80

00:05:45,500 --> 00:05:42,900

10 here today we need to think of

81

00:05:47,810 --> 00:05:45,510

everyone who's been there to explore and

82

00:05:51,490 --> 00:05:47,820

conquer the space we need to remember

83

00:05:54,050 --> 00:05:51,500

all the veterans that have created our

84

00:05:56,990 --> 00:05:54,060

great achievements silly though it's all

85

00:05:59,270 --> 00:05:57,000

the Explorers all the scientists and

86

00:06:02,450 --> 00:05:59,280

useless here and of course all the

87

00:06:05,450 --> 00:06:02,460

cosmonauts did that who have flown goes

88

00:06:08,510 --> 00:06:05,460

into space issue William a thousand

89

00:06:10,940 --> 00:06:08,520

exponent and today Peter one we need to

90

00:06:13,610 --> 00:06:10,950

commemorate the name of our very first

91

00:06:17,210 --> 00:06:13,620

cosmonaut yuri gagarin that's our

92

00:06:18,680 --> 00:06:17,220

national hero whatever there was

93

00:06:21,690 --> 00:06:18,690

congratulations

94

00:06:24,030 --> 00:06:21,700

good luck and take care and I'm

95

00:06:26,280 --> 00:06:24,040

confident that Russia and all of mankind

96

00:06:28,830 --> 00:06:26,290

has many more victories to come many
