

1  
00:00:00,960 --> 00:00:05,110  
and we got it looks great thanks

2  
00:00:09,110 --> 00:00:07,510  
window from downlink video has opened up

3  
00:00:11,509 --> 00:00:09,120  
again and so now we're seeing some more

4  
00:00:13,910 --> 00:00:11,519  
of that video of the external tank

5  
00:00:16,870 --> 00:00:13,920  
shot by mike fink after endeavour's

6  
00:00:37,030 --> 00:00:16,880  
orbit

7  
00:00:40,389 --> 00:00:38,790  
okay math go ahead

8  
00:00:43,750 --> 00:00:40,399  
all right um

9  
00:00:45,510 --> 00:00:43,760  
one thing is in your pre-sleep config

10  
00:00:47,190 --> 00:00:45,520  
page 3-4

11  
00:00:49,670 --> 00:00:47,200  
step 6

12  
00:00:50,709 --> 00:00:49,680  
uh lists a few things to check the power

13  
00:00:53,430 --> 00:00:50,719

off on

14

00:00:55,110 --> 00:00:53,440

for your tv monitor power control unit

15

00:00:56,389 --> 00:00:55,120

we would like you to leave that on

16

00:01:00,389 --> 00:00:56,399

overnight

17

00:01:05,350 --> 00:01:03,670

okay leave on the tv power control unit

18

00:01:12,469 --> 00:01:05,360

we've got a note here that says and in

19

00:01:19,910 --> 00:01:13,429

uh

20

00:01:25,429 --> 00:01:21,990

okay we'll do that

21

00:01:27,990 --> 00:01:25,439

all right uh next thing is a little bit

22

00:01:29,510 --> 00:01:28,000

ago i told mark that uh there was a

23

00:01:30,710 --> 00:01:29,520

maneuver planned while you guys were

24

00:01:32,710 --> 00:01:30,720

sleeping there was going to be control

25

00:01:34,069 --> 00:01:32,720

from the ground i told them we weren't

26

00:01:35,510 --> 00:01:34,079

going to do that

27

00:01:37,190 --> 00:01:35,520

and now

28

00:01:39,749 --> 00:01:37,200

apparently we might do that we're not

29

00:01:41,510 --> 00:01:39,759

really sure so you might be maneuvering

30

00:01:42,789 --> 00:01:41,520

this evening while you're sleeping we

31

00:01:44,310 --> 00:01:42,799

can control that from the ground there's

32

00:01:46,789 --> 00:01:44,320

no action for you

33

00:01:48,710 --> 00:01:46,799

but just if you saw something happening

34

00:01:50,389 --> 00:01:48,720

we don't want you to be surprised so

35

00:01:51,910 --> 00:01:50,399

we're not sure you may or may not have a

36

00:01:55,670 --> 00:01:51,920

maneuver control from the ground this

37

00:01:59,749 --> 00:01:58,630

okay man we got that

38

00:02:01,109 --> 00:01:59,759

and then

39

00:02:03,590 --> 00:02:01,119

finally

40

00:02:06,389 --> 00:02:03,600

we have uh

41

00:02:08,790 --> 00:02:06,399

uh some words from your families they

42

00:02:10,710 --> 00:02:08,800

wanted us to let you know that they had

43

00:02:12,790 --> 00:02:10,720

a great time at the launch

44

00:02:15,190 --> 00:02:12,800

uh it was a great launch

45

00:02:16,710 --> 00:02:15,200

uh it was very very nice they appreciate

46

00:02:18,869 --> 00:02:16,720

everything you did for them and wish you

47

00:02:20,150 --> 00:02:18,879

all the best of luck in your flight

48

00:02:23,750 --> 00:02:20,160

and a great time and they'll be coming

49

00:02:26,390 --> 00:02:25,670

well that's fantastic mass thanks for

50

00:02:28,390 --> 00:02:26,400

the

51  
00:02:29,990 --> 00:02:28,400  
kind and thoughtful awards uh we all we

52  
00:02:31,509 --> 00:02:30,000  
wish them all the best as well and a

53  
00:02:32,869 --> 00:02:31,519  
safe return back and we're happy that

54  
00:02:37,430 --> 00:02:32,879  
our friends and family were all there to

55  
00:02:39,030 --> 00:02:37,440  
see us launch off into the sunrise there

56  
00:03:49,190 --> 00:02:39,040  
coffee will do that you guys have a good

57  
00:03:53,990 --> 00:03:51,430  
this again is video recorded earlier

58  
00:03:55,670 --> 00:03:54,000  
today after the obviously after the

59  
00:03:57,670 --> 00:03:55,680  
external tank separated from space

60  
00:03:59,350 --> 00:03:57,680  
shuttle endeavour about eight minutes

61  
00:04:01,429 --> 00:03:59,360  
into its mission

62  
00:04:03,429 --> 00:04:01,439  
video was recorded by uh

63  
00:04:05,270 --> 00:04:03,439

mike fink

64

00:04:07,589 --> 00:04:05,280

and as being sent down to the teams on

65

00:04:08,390 --> 00:04:07,599

the ground for a closer look to make

66

00:04:10,550 --> 00:04:08,400

sure

67

00:04:12,630 --> 00:04:10,560

to gather any data they can from it and

68

00:04:14,630 --> 00:04:12,640

in particular make sure that

69

00:04:15,670 --> 00:04:14,640

there aren't any indications of anything

70

00:04:17,430 --> 00:04:15,680

that might have happened that would have
