

1
00:00:03,909 --> 00:00:02,869
approximately three miles to the landing

2
00:00:17,430 --> 00:00:03,919
site

3
00:00:17,440 --> 00:00:22,390
speed

4
00:00:25,429 --> 00:00:24,070
and there's a referred camera view of

5
00:00:27,990 --> 00:00:25,439
the space shuttle endeavor as it's

6
00:00:39,110 --> 00:00:28,000
coming in for landing

7
00:00:39,120 --> 00:00:43,350
main gear touchdown

8
00:00:43,360 --> 00:00:48,549
direct shoot deployed by greg johnson

9
00:00:48,559 --> 00:00:57,029
forward gear touchdown

10
00:01:00,470 --> 00:00:58,950
and so after a journey of six and a half

11
00:01:01,990 --> 00:01:00,480
million miles endeavor landing in

12
00:01:04,149 --> 00:01:02,000
darkness but illuminated by the

13
00:01:06,310 --> 00:01:04,159

ingenuity dedication of every astronaut

14

00:01:08,870 --> 00:01:06,320

scientist engineer flight controller

15

00:01:10,550 --> 00:01:08,880

mechanic and dreamer that helped it fly

16

00:01:12,630 --> 00:01:10,560

the fleet's youngest ship completing its

17

00:01:14,469 --> 00:01:12,640

120

18

00:01:15,830 --> 00:01:14,479

millionth mile after its crew delivered

19

00:01:17,510 --> 00:01:15,840

an instrument to the international space

20

00:01:23,670 --> 00:01:17,520

station it'll sift through the cosmic

21

00:01:28,630 --> 00:01:26,789

122 million miles flown during 25

22

00:01:30,789 --> 00:01:28,640

challenging space flights

23

00:01:33,190 --> 00:01:30,799

your landing ends a vibrant legacy for

24

00:01:34,230 --> 00:01:33,200

this amazing vehicle that will long be

25

00:01:37,510 --> 00:01:34,240

remembered

26

00:01:41,590 --> 00:01:39,670

yeah thank you houston you know the

27

00:01:43,429 --> 00:01:41,600

space shuttle is an amazing vehicle to

28

00:01:45,670 --> 00:01:43,439

fly through the atmosphere

29

00:01:46,550 --> 00:01:45,680

hit it at mach 25

30

00:01:48,469 --> 00:01:46,560

uh

31

00:01:50,550 --> 00:01:48,479

i mean steer through the atmosphere like

32

00:01:52,870 --> 00:01:50,560

an airplane land on a runway it is

33

00:01:55,510 --> 00:01:52,880

really really an incredible ship on

34

00:01:57,990 --> 00:01:55,520

behalf of my entire crew i want to thank

35

00:01:59,590 --> 00:01:58,000

every person that's worked for

36

00:02:01,990 --> 00:01:59,600

to get this mission going and every

37

00:02:04,310 --> 00:02:02,000

person that's worked on endeavor

38

00:02:05,510 --> 00:02:04,320

it's sad to see her land for the last
