

1
00:00:07,430 --> 00:00:05,030
you see the expedition 28 crew there

2
00:00:08,790 --> 00:00:07,440
taking some uh pictures

3
00:00:10,230 --> 00:00:08,800
as you can tell it's not only a historic

4
00:00:12,070 --> 00:00:10,240
event for us here on the ground but also

5
00:00:16,150 --> 00:00:12,080
for the crew there is commander chris

6
00:00:18,790 --> 00:00:17,590
his way onboard the international space

7
00:00:20,390 --> 00:00:18,800
station

8
00:00:35,670 --> 00:00:20,400
he's greeting the expedition 28

9
00:00:41,430 --> 00:00:37,270
the pilot doug hurley making his way on

10
00:00:46,549 --> 00:00:44,310
documenting this historic occasion rex

11
00:00:47,910 --> 00:00:46,559
walheim and sandy magnets also floating

12
00:00:50,549 --> 00:00:47,920
their way up through the hatches as well

13
00:00:56,869 --> 00:00:50,559

so the entire sts-135 crew now onboard

14

00:01:12,310 --> 00:00:58,310

we'll stand by listen to these crews

15

00:01:14,950 --> 00:01:13,990

sandy simply couldn't wait to get over

16

00:01:17,109 --> 00:01:14,960

here

17

00:01:18,230 --> 00:01:17,119

i know it's like being home except it's

18

00:01:23,109 --> 00:01:18,240

bigger

19

00:01:23,119 --> 00:01:43,670

so um

20

00:01:43,680 --> 00:01:55,030

um

21

00:01:55,040 --> 00:02:18,550

okay

22

00:02:18,560 --> 00:02:42,949

wow

23

00:02:42,959 --> 00:02:58,630

oh

24

00:02:58,640 --> 00:03:13,030

five minutes

25

00:03:16,630 --> 00:03:15,030

expedition 28 commander andre borisenko

26

00:03:18,309 --> 00:03:16,640

is going to have a quick safety briefing

27

00:03:19,670 --> 00:03:18,319

with the crew of atlantis this is

28

00:03:21,430 --> 00:03:19,680

standard protocol anytime a shuttle

29

00:03:23,750 --> 00:03:21,440

docks with the station

30

00:03:24,710 --> 00:03:23,760

even though uh sandy magnus and the rest

31

00:03:26,710 --> 00:03:24,720

of the crew have been on board the

32

00:03:28,710 --> 00:03:26,720

station before they uh

33

00:03:30,149 --> 00:03:28,720

have to get an update on the procedures

34

00:03:33,350 --> 00:03:30,159

and the unlikely event that there's an

35

00:03:35,030 --> 00:03:33,360

emergency on board

36

00:03:36,630 --> 00:03:35,040

also get familiar with the location of

37

00:03:39,589 --> 00:03:36,640

everything on board the station as well

38

00:03:42,710 --> 00:03:41,509

expedition 28 commander borisenko will

39

00:03:44,789 --> 00:03:42,720

take care of this over the next several

40

00:03:46,309 --> 00:03:44,799

minutes and then

41

00:03:51,910 --> 00:03:46,319

we'll continue to follow along as the

42

00:03:55,990 --> 00:03:54,390

hey report before we leave um right

43

00:03:57,110 --> 00:03:56,000

behind turkey there on the top of the

44

00:03:58,830 --> 00:03:57,120

hatch there

45

00:04:01,190 --> 00:03:58,840

underneath that green

46

00:04:22,710 --> 00:04:01,200

cover is the tools and the standoff

47

00:04:25,670 --> 00:04:24,469

so we're gonna we're gonna click satoshi

48

00:04:40,790 --> 00:04:25,680

off oh wait

49

00:04:40,800 --> 00:04:51,990

oh

50

00:04:55,189 --> 00:04:53,590

so are you guys going out live right now

51
00:04:56,790 --> 00:04:55,199
on any of your cameras yeah all of us

52
00:05:14,870 --> 00:04:56,800
all of them okay so we're live to the

53
00:05:14,880 --> 00:05:27,909
all right

54
00:05:59,909 --> 00:05:56,790
so

55
00:06:04,309 --> 00:05:59,919
once again the hatches are officially

56
00:06:06,469 --> 00:06:04,319
opened at 11 47 a.m central time today

57
00:06:07,830 --> 00:06:06,479
the entire sts-135 crew now on board the

58
00:06:09,430 --> 00:06:07,840
international space station they're

59
00:06:12,390 --> 00:06:09,440
going to get familiar with their

60
00:06:16,469 --> 00:06:14,230
and then they will uh step into these

61
00:06:18,710 --> 00:06:16,479
robotics operations with the orbiter
