

1
00:00:06,389 --> 00:00:02,389
this is a this is a big storm we see uh

2
00:00:10,230 --> 00:00:08,710
and uh yeah we're in cuba says just

3
00:00:11,830 --> 00:00:10,240
above the storm in the field of view

4
00:00:16,550 --> 00:00:11,840
here

5
00:00:26,710 --> 00:00:19,029
that storm is doing a good job of

6
00:00:26,720 --> 00:00:35,670
copy that mike

7
00:01:01,430 --> 00:00:37,670
and as mike's junior weather apprentice

8
00:01:05,189 --> 00:01:03,349
okay you can really see the uh the

9
00:01:07,830 --> 00:01:05,199
structure of the storm now it's a

10
00:01:10,230 --> 00:01:07,840
classic uh pinwheel the outer van so

11
00:01:11,350 --> 00:01:10,240
we're over the top of the outer bands

12
00:01:15,030 --> 00:01:11,360
uh

13
00:01:16,469 --> 00:01:15,040

toward the center we're gonna be real

14

00:01:19,270 --> 00:01:16,479

close to the middle of the storm it

15

00:01:21,749 --> 00:01:19,280

looks like it's gonna be just off of our

16

00:01:35,670 --> 00:01:21,759

right side if you will starboard side

17

00:01:39,510 --> 00:01:37,590

and you can see how the the storm is

18

00:01:41,350 --> 00:01:39,520

going over the islands out here the

19

00:01:43,670 --> 00:01:41,360

you've got the it's just the beautiful

20

00:01:49,270 --> 00:01:43,680

turquoise blue waters of the caribbean

21

00:01:53,109 --> 00:01:51,670

well the view is uh is spectacular from

22

00:02:08,469 --> 00:01:53,119

down here i can only imagine what you're

23

00:02:12,229 --> 00:02:10,550

okay the uh we're coming close we ought

24

00:02:15,830 --> 00:02:12,239

to be able to see down the eye it's not

25

00:02:17,110 --> 00:02:15,840

quite as clear of an opening as we had

26

00:02:19,190 --> 00:02:17,120

yesterday

27

00:02:20,150 --> 00:02:19,200

uh you can see the uh see the structure

28

00:02:23,190 --> 00:02:20,160

but it's

29

00:02:24,390 --> 00:02:23,200

it's not as clear uh so it's right down

30

00:02:26,070 --> 00:02:24,400

the middle and we i think we're going to

31

00:02:38,790 --> 00:02:26,080

go close enough we'll get a video you

32

00:02:42,550 --> 00:02:40,710

and mike we're getting word that the

33

00:02:44,710 --> 00:02:42,560

storm has gone through an eye wall

34

00:02:46,790 --> 00:02:44,720

replacement overnight and that is why

35

00:02:51,509 --> 00:02:46,800

the eye looks a little different today

36

00:02:55,110 --> 00:02:53,750

okay copy that but you could see it's

37

00:02:59,910 --> 00:02:55,120

right in the center of the field of view

38

00:03:04,149 --> 00:03:01,830

and of course we've got unmatched video

39

00:03:06,309 --> 00:03:04,159

as wide as it goes with a doubler and uh

40

00:03:09,430 --> 00:03:06,319

that didn't come close to giving a full

41

00:03:09,440 --> 00:03:14,229

yeah that is absolutely amazing mike

42

00:03:19,270 --> 00:03:16,149

yeah we understand that irene is still a

43

00:03:22,470 --> 00:03:19,280

category three with the with the winds

44

00:03:23,990 --> 00:03:22,480

at 115. there's a lot of hot water out

45

00:03:26,070 --> 00:03:24,000

here and a lot of people on these

46

00:03:27,509 --> 00:03:26,080

islands i know they're fattening down

47

00:04:32,710 --> 00:03:27,519

the hatches we haven't had to deal with

48

00:04:32,720 --> 00:05:40,150

that's another great view mike

49

00:05:45,510 --> 00:05:42,629

and uh we're just off coast of uh the

50

00:05:47,270 --> 00:05:45,520

carolinas now in the outer bank area and

51
00:05:48,870 --> 00:05:47,280
that's the direction we understand the

52
00:05:51,189 --> 00:05:48,880
storm is headed

53
00:05:53,189 --> 00:05:51,199
uh it's got a ways to go it's clear here

54
00:05:55,510 --> 00:05:53,199
there's a few a little bit of structure

55
00:05:57,430 --> 00:05:55,520
in the clouds but not much uh while i

56
00:05:59,510 --> 00:05:57,440
take that back there's thin stuff that's

57
00:06:53,430 --> 00:05:59,520
uh that's actually spiraling way out

58
00:06:56,790 --> 00:06:55,029
and houston now we're just talking here

59
00:06:59,110 --> 00:06:56,800
and it's it struck us we're used to

60
00:07:01,189 --> 00:06:59,120
traveling a long ways in a short amount

61
00:07:03,830 --> 00:07:01,199
of time but this storm is stretching

62
00:07:05,270 --> 00:07:03,840
from cuba to the carolinas and that is

63
00:07:09,270 --> 00:07:05,280

uh one

64

00:07:12,870 --> 00:07:11,189

yeah you bet mike i mean it was almost

65

00:07:14,710 --> 00:07:12,880

six minutes that you guys were directly

66

00:07:16,309 --> 00:07:14,720

over that thing so that just gives us a

67

00:07:23,670 --> 00:07:16,319

little bit of the scale it's pretty

68

00:07:29,350 --> 00:07:26,390

and mike they're reporting almost a 300

69

00:07:35,670 --> 00:07:29,360

mile wide wind field on it so it's

70

00:07:40,150 --> 00:07:37,909

wow

71

00:07:42,790 --> 00:07:40,160

is there any word on the expectations

72

00:07:58,070 --> 00:07:42,800

for further strengthening before

73

00:08:02,950 --> 00:07:59,430

well mike right now they're still

74

00:08:04,790 --> 00:08:02,960

holding it at a very strong cat 3

75

00:08:13,430 --> 00:08:04,800

with maybe a little more strengthening

76

00:08:19,670 --> 00:08:16,869

okay copy that as uh as wide as the wind

77

00:08:21,029 --> 00:08:19,680

field is on this on this storm there's

78

00:08:22,869 --> 00:08:21,039

going to be a i mean they're going to

79

00:08:24,469 --> 00:08:22,879

take a beating for a long time it's this

80

00:08:28,390 --> 00:08:24,479

thing

81

00:08:29,909 --> 00:08:28,400

doing right now so it's not not going to

82

00:08:31,189 --> 00:08:29,919

be a short effect kind of thing it's

83

00:08:33,269 --> 00:08:31,199

just going to really

84

00:08:35,509 --> 00:08:33,279

take a thumping

85

00:08:36,790 --> 00:08:35,519

yeah you bet and we'll keep you updated

86

00:08:42,790 --> 00:08:36,800

uh throughout the night and into

87

00:08:47,030 --> 00:08:45,030

copy that appreciate it and uh from the

88

00:08:49,350 --> 00:08:47,040

international space station our

89

00:08:51,509 --> 00:08:49,360

prayers and uh hopes are with the people
