

1
00:00:04,070 --> 00:00:02,149
we have some video that was captured by

2
00:00:05,690 --> 00:00:04,080
the on-orbit crew aboard the

3
00:00:07,760 --> 00:00:05,700
International Space Station the external

4
00:00:09,919 --> 00:00:07,770
and crew tended cameras captured new

5
00:00:11,930 --> 00:00:09,929
views of the hurricane from 230 miles

6
00:00:16,730 --> 00:00:11,940
overhead these were taken at nine thirty

7
00:00:18,620 --> 00:00:16,740
five a.m. eastern time these views as

8
00:00:20,570 --> 00:00:18,630
the slightly weekend storm turned across

9
00:00:23,090 --> 00:00:20,580
the western Atlantic while away from the

10
00:00:25,580 --> 00:00:23,100
east coast of the United States Katia is

11
00:00:27,769 --> 00:00:25,590
packing winds of 85 miles an hour moving

12
00:00:29,570 --> 00:00:27,779
Northwest at 10 miles an hour the

13
00:00:31,400 --> 00:00:29,580

hurricane is expected to move in a path

14

00:00:33,830 --> 00:00:31,410

that would be miss both the US and

15

00:04:33,000 --> 00:00:33,840

Bermuda as it moves north at eventually
