

1
00:00:18,029 --> 00:00:15,689
Houston and Moscow the crews have the

2
00:00:20,010 --> 00:00:18,039
crew of expedition 28 has had the

3
00:00:21,630 --> 00:00:20,020
discussion about emergency procedures

4
00:00:23,069 --> 00:00:21,640
during the transition period that will

5
00:00:26,519 --> 00:00:23,079
exist from the change of command

6
00:00:30,299 --> 00:00:26,529
ceremony tonight until the hatch closing

7
00:00:34,950 --> 00:00:30,309
and official departure Andre and his

8
00:00:36,330 --> 00:00:34,960
crew tomorrow and now I think sasha is

9
00:00:46,120 --> 00:00:36,340
the soyuz commander is supposed to

10
00:00:53,700 --> 00:00:50,920
Dom I got away skadoosh a prince

11
00:00:59,290 --> 00:00:53,710
abdullah yes we're ready for the next

12
00:01:02,830 --> 00:00:59,300
operation procedure stamina for me Padre

13
00:01:07,180 --> 00:01:02,840

me and regarding the established rule

14

00:01:12,280 --> 00:01:07,190

and chime who will be doing see forming

15

00:01:15,160 --> 00:01:12,290

day wood spoon chania undocking and we

16

00:01:17,800 --> 00:01:15,170

got all lending and in case of an

17

00:01:21,820 --> 00:01:17,810

emergency will be working for respective

18

00:01:24,130 --> 00:01:21,830

plan we're ready with the discussion of

19

00:01:26,800 --> 00:01:24,140

the emergency roles and responsibilities

20

00:01:29,830 --> 00:01:26,810

during the transition time complete if

21

00:01:33,040 --> 00:01:29,840

we're we are ready to continue with the

22

00:01:44,399 --> 00:01:33,050

change of command ceremony Houston

23

00:01:49,959 --> 00:01:47,679

Mike yeah cacho pasala tibia hi Joshua

24

00:01:52,419 --> 00:01:49,969

budesh doma commando neeya neeya naana

25

00:01:55,149 --> 00:01:52,429

cosmic Costanza yeah we installed

26

00:01:57,609 --> 00:01:55,159

version Damien Chief Justice teach them

27

00:02:05,709 --> 00:01:57,619

si si mejor de chimie whisper edits l'm

28

00:02:08,050 --> 00:02:05,719

not abusive razon come and get'em Thank

29

00:02:11,440 --> 00:02:08,060

You Andre you've been an excellent

30

00:02:13,360 --> 00:02:11,450

commander during a challenging time and

31

00:02:16,390 --> 00:02:13,370

a historic time for the space station

32

00:02:18,640 --> 00:02:16,400

program your crew has been excellent you

33

00:02:21,190 --> 00:02:18,650

have been good teachers and mentors for

34

00:02:24,430 --> 00:02:21,200

us as we have learned from you you have

35

00:02:26,890 --> 00:02:24,440

seen two shuttles and the with that very

36

00:02:29,199 --> 00:02:26,900

much activity you've been the space

37

00:02:31,839 --> 00:02:29,209

station commander as the last shuttle

38

00:02:35,940 --> 00:02:31,849

mission completed its job and return to

39
00:02:38,830 --> 00:02:35,950
home many challenges many successes and

40
00:02:41,110 --> 00:02:38,840
it's been been great flying with you

41
00:02:44,110 --> 00:02:41,120
it's been great working with you I am

42
00:03:03,030 --> 00:02:44,120
ready to accept command thank you thank

43
00:03:10,420 --> 00:03:08,319
congratulation and this best wishes to

44
00:03:13,990 --> 00:03:10,430
say a few words this petition program

45
00:03:16,840 --> 00:03:14,000
was started really about 29 years ago it

46
00:03:18,729 --> 00:03:16,850
started as a dream and the big first the

47
00:03:19,930 --> 00:03:18,739
first beginnings of a design came

48
00:03:21,849 --> 00:03:19,940
together we went through a lot of

49
00:03:23,500 --> 00:03:21,859
changes through those years we brought

50
00:03:25,300 --> 00:03:23,510
in more and more international partners

51
00:03:27,009 --> 00:03:25,310
until you see the incredible partnership

52
00:03:30,220 --> 00:03:27,019
that we have today with 15 countries

53
00:03:32,860 --> 00:03:30,230
around the globe keeping people in space

54
00:03:36,220 --> 00:03:32,870
for you know ten and a half years and

55
00:03:38,440 --> 00:03:36,230
counting it's to me it's you know to be

56
00:03:41,379 --> 00:03:38,450
part of this is part of the design teams

57
00:03:44,500 --> 00:03:41,389
and to be you know help construct it and

58
00:03:46,150 --> 00:03:44,510
now living on the space station and to

59
00:03:47,530 --> 00:03:46,160
take command to the space station is the

60
00:03:50,800 --> 00:03:47,540
29th commander of the International

61
00:03:52,660 --> 00:03:50,810
Space Station is a very humbling

62
00:03:54,940 --> 00:03:52,670
experience for me it's a great

63
00:03:56,750 --> 00:03:54,950

opportunity and I just like to pay

64

00:03:59,479 --> 00:03:56,760

tribute to this international

65

00:04:01,399 --> 00:03:59,489

cooperation that has been so strong and

66

00:04:04,069 --> 00:04:01,409

it has helped carry us through the

67

00:04:06,110 --> 00:04:04,079

program as through the different phases

68

00:04:07,640 --> 00:04:06,120

that we've been through and we've had

69

00:04:09,979 --> 00:04:07,650

challenges along the way we're facing

70

00:04:12,080 --> 00:04:09,989

some challenges right now that we will

71

00:04:14,809 --> 00:04:12,090

see our way through to a great success

72

00:04:17,330 --> 00:04:14,819

and we look forward to doing our duty to

73

00:04:19,939 --> 00:04:17,340

carry on the responsibilities keep the

74

00:04:21,529 --> 00:04:19,949

space station running and do our best to

75

00:04:26,260 --> 00:04:21,539

continue to execute the mission that's

76

00:04:31,969 --> 00:04:28,219

congratulations commander Mike Fossum

77

00:04:35,779 --> 00:04:31,979

and crew mates Satoshi Furukawa and

78

00:04:45,550 --> 00:04:35,789

Sergei Volkov safe journeys to Andre
