

1
00:00:18,880 --> 00:01:12,149

yes

2
00:01:16,789 --> 00:01:13,910

afternoon the

3
00:01:19,510 --> 00:01:16,799

crew members would like to welcome you

4
00:01:21,590 --> 00:01:19,520

in karagandy the city that sends

5
00:01:23,270 --> 00:01:21,600

cosmonauts on orbit and welcomes them

6
00:01:25,429 --> 00:01:23,280

back on earth

7
00:01:27,590 --> 00:01:25,439

i would like to thank you very much for

8
00:01:31,350 --> 00:01:27,600

all your work and the contribution that

9
00:01:32,789 --> 00:01:31,360

you made to our common mission

10
00:02:05,910 --> 00:01:32,799

it's of great importance i'd like to

11
00:02:05,920 --> 00:02:21,589

me

12
00:02:26,710 --> 00:02:24,470

vegeronenko

13
00:02:29,190 --> 00:02:26,720

i would like to thank you very much for

14

00:02:31,910 --> 00:02:29,200

all the work that you completed

15

00:02:36,949 --> 00:02:34,790

for such a long time

16

00:02:38,790 --> 00:02:36,959

and i'd like to thank you for all your

17

00:02:41,670 --> 00:02:38,800

accomplishments and for successful

18

00:02:46,229 --> 00:02:43,190

at the same time

19

00:02:51,430 --> 00:02:48,390

thank you to all ministries and

20

00:02:57,030 --> 00:02:51,440

departments who participated in the

21

00:02:57,040 --> 00:03:23,110

everything went really great thank you

22

00:03:27,589 --> 00:03:25,270

right now i think we can start with

23

00:03:29,509 --> 00:03:27,599

questions

24

00:03:30,789 --> 00:03:29,519

i would like to ask you an unusual

25

00:03:33,830 --> 00:03:30,799

question

26

00:03:38,710 --> 00:03:33,840

do believe in any superstitions or do

27

00:03:43,030 --> 00:03:40,229

do you keep your fingers crossed in your

28

00:03:45,110 --> 00:03:43,040

pocket before they launch apples or

29

00:03:47,750 --> 00:03:45,120

something like that

30

00:03:49,910 --> 00:03:47,760

well i think that

31

00:03:51,430 --> 00:03:49,920

our crew members did not have their

32

00:03:53,190 --> 00:03:51,440

fingers crossed

33

00:03:56,070 --> 00:03:53,200

in their pockets

34

00:03:58,949 --> 00:03:56,080

but of course we were watching

35

00:04:01,110 --> 00:03:58,959

white sun of the desert famous russian

36

00:04:02,149 --> 00:04:01,120

movie and

37

00:04:04,630 --> 00:04:02,159

also

38

00:04:06,630 --> 00:04:04,640

there's another sign not for cosmonauts

39

00:04:08,789 --> 00:04:06,640

but for pilots as well

40

00:04:10,149 --> 00:04:08,799

never use the word last

41

00:04:11,509 --> 00:04:10,159

use the word

42

00:04:18,949 --> 00:04:11,519

ultimate

43

00:04:24,710 --> 00:04:21,990

what is your strongest impression from

44

00:04:27,030 --> 00:04:24,720

the time you spent on board

45

00:04:29,030 --> 00:04:27,040

in all these months what will you

46

00:04:33,830 --> 00:04:29,040

remember

47

00:04:37,510 --> 00:04:36,230

well the strongest impression was

48

00:04:38,550 --> 00:04:37,520

the

49

00:04:43,830 --> 00:04:38,560

look of earth well i would like

50

00:04:46,070 --> 00:04:44,870

first

51
00:04:49,590 --> 00:04:46,080
we were

52
00:04:51,590 --> 00:04:49,600
planning to land on the 16th

53
00:04:54,790 --> 00:04:51,600
that is today

54
00:04:56,469 --> 00:04:54,800
and we were talking about that initially

55
00:04:58,629 --> 00:04:56,479
but of course there was a possibility

56
00:04:59,749 --> 00:04:58,639
that we would stay on orbit a little bit

57
00:05:03,670 --> 00:04:59,759
longer

58
00:05:08,230 --> 00:05:06,550
however we came back on earth on time on

59
00:05:11,909 --> 00:05:08,240
the 16th

60
00:05:16,150 --> 00:05:13,029
and the

61
00:05:17,990 --> 00:05:16,160
descent module in which you came back on

62
00:05:19,029 --> 00:05:18,000
earth

63
00:05:20,710 --> 00:05:19,039

will you

64

00:05:23,029 --> 00:05:20,720

track its

65

00:05:24,629 --> 00:05:23,039

future its life

66

00:05:26,070 --> 00:05:24,639

further

67

00:05:27,990 --> 00:05:26,080

well

68

00:05:30,469 --> 00:05:28,000

to some extent i would like to know what

69

00:05:32,710 --> 00:05:30,479

is going to happen with it but i can't

70

00:05:34,310 --> 00:05:32,720

say it's our home right now

71

00:05:39,430 --> 00:05:34,320

still i'd like to know what's going to

72

00:05:44,790 --> 00:05:41,510

how did you feel in microgravity

73

00:05:46,070 --> 00:05:44,800

conditions and how do you feel right now

74

00:05:47,189 --> 00:05:46,080

back

75

00:05:49,430 --> 00:05:47,199

on earth

76

00:05:50,790 --> 00:05:49,440

so maybe you feel like

77

00:06:16,390 --> 00:05:50,800

a

78

00:06:16,400 --> 00:06:45,029

is

79

00:06:45,039 --> 00:06:57,909

thank you

80

00:07:01,670 --> 00:06:59,830

okay well ron first of all welcome back

81

00:07:03,350 --> 00:07:01,680

let us know how does it feel to be back

82

00:07:05,430 --> 00:07:03,360

finally back on earth after uh several

83

00:07:08,070 --> 00:07:05,440

months being gone

84

00:07:10,230 --> 00:07:08,080

feels great uh you know it's been a very

85

00:07:12,469 --> 00:07:10,240

uh challenging and long mission and a

86

00:07:14,629 --> 00:07:12,479

very successful mission and it's uh

87

00:07:17,589 --> 00:07:14,639

it's good to uh to get back here it's a

88

00:07:19,990 --> 00:07:17,599

that was a very thrilling way to end a

89

00:07:21,270 --> 00:07:20,000

very productive and fun mission so

90

00:07:23,029 --> 00:07:21,280

it's good to be back

91

00:07:24,870 --> 00:07:23,039

you guys had a lot going on uh during

92

00:07:26,469 --> 00:07:24,880

your mission the last shuttle flight you

93

00:07:27,749 --> 00:07:26,479

had quite a bit of robotics whenever you

94

00:07:29,270 --> 00:07:27,759

look back on it what do you think you're

95

00:07:31,350 --> 00:07:29,280

going to remember the most about your

96

00:07:33,990 --> 00:07:31,360

time up on board station

97

00:07:35,589 --> 00:07:34,000

well i think you know one of the the

98

00:07:37,510 --> 00:07:35,599

special

99

00:07:39,830 --> 00:07:37,520

aspects of our mission was

100

00:07:41,670 --> 00:07:39,840

that we were on board when we saw this

101

00:07:43,430 --> 00:07:41,680

transition from basically the

102

00:07:44,710 --> 00:07:43,440

construction phase to the utilization

103

00:07:46,550 --> 00:07:44,720

phase of the

104

00:07:48,309 --> 00:07:46,560

international space station and which

105

00:07:49,270 --> 00:07:48,319

meant at the end of the of the space

106

00:07:51,350 --> 00:07:49,280

shuttle

107

00:07:54,309 --> 00:07:51,360

program so you know that was a very

108

00:07:56,390 --> 00:07:54,319

bittersweet time for us obviously

109

00:07:58,309 --> 00:07:56,400

but you know we did

110

00:08:00,150 --> 00:07:58,319

as the last shuttle was leaving had this

111

00:08:02,469 --> 00:08:00,160

you know tremendous feeling of

112

00:08:04,150 --> 00:08:02,479

accomplishment as uh you know we saw all

113

00:08:05,670 --> 00:08:04,160

the work and saw this you know amazing

114

00:08:08,070 --> 00:08:05,680

complex that we

115

00:08:10,950 --> 00:08:08,080

uh had constructed over the you know a

116

00:08:13,909 --> 00:08:10,960

couple of decades of work by many many

117

00:08:16,070 --> 00:08:13,919

people from you know

118

00:08:17,270 --> 00:08:16,080

places all around the globe

119

00:08:19,029 --> 00:08:17,280

speaking of the globe you did quite a

120

00:08:20,469 --> 00:08:19,039

bit of earth observation while you're up

121

00:08:22,469 --> 00:08:20,479

there looking down on the planet kind of

122

00:08:24,070 --> 00:08:22,479

look back on what uh what you'll take

123

00:08:25,270 --> 00:08:24,080

with you now that you're back here on

124

00:08:27,589 --> 00:08:25,280

the planet

125

00:08:28,950 --> 00:08:27,599

well i think i'm going to take back

126

00:08:31,350 --> 00:08:28,960

with me a little bit better

127

00:08:33,509 --> 00:08:31,360

understanding of geography so you know

128

00:08:35,909 --> 00:08:33,519

looking at the earth every day i got to

129

00:08:36,870 --> 00:08:35,919

got to really know the place if you will

130

00:08:39,110 --> 00:08:36,880

and

131

00:08:41,990 --> 00:08:39,120

you know i'm going to miss it

132

00:08:42,790 --> 00:08:42,000

my last pictures that i took um

133

00:08:44,470 --> 00:08:42,800

were

134

00:08:45,910 --> 00:08:44,480

by by coincidence i just happened to be

135

00:08:47,430 --> 00:08:45,920

by the cooper and

136

00:08:49,350 --> 00:08:47,440

as we were getting ready to leave i saw

137

00:08:51,110 --> 00:08:49,360

the bahamas go by i said oh i can't pass

138

00:08:52,630 --> 00:08:51,120

up this opportunity so

139

00:08:54,389 --> 00:08:52,640

i took some pictures of the bahamas

140

00:08:55,990 --> 00:08:54,399

right before we uh close the hatch so

141

00:08:57,670 --> 00:08:56,000

it's uh you know we have a really

142

00:08:59,990 --> 00:08:57,680

beautiful planet and i'm gonna miss uh

143

00:09:02,470 --> 00:09:00,000

looking at it from that vantage point

144

00:09:03,750 --> 00:09:02,480

i came back to gate today we uh

145

00:09:05,110 --> 00:09:03,760

we talked to the control center in

146

00:09:07,190 --> 00:09:05,120

houston and they had a bit of some

147

00:09:08,550 --> 00:09:07,200

trouble hearing you guys uh talk to him

148

00:09:10,230 --> 00:09:08,560

you guys could hear

149

00:09:12,470 --> 00:09:10,240

what mission control moscow was saying

150

00:09:14,790 --> 00:09:12,480

to you talk a bit about about that

151

00:09:16,470 --> 00:09:14,800

yeah i mean until after we landed i

152

00:09:18,630 --> 00:09:16,480

didn't know that there really there was

153

00:09:22,389 --> 00:09:18,640

any uh you know dropouts in common i

154

00:09:23,190 --> 00:09:22,399

just thought it was a normal thing so um

155

00:09:24,790 --> 00:09:23,200

it

156

00:09:26,949 --> 00:09:24,800

seemed to be i mean i've only had one of

157

00:09:28,550 --> 00:09:26,959

these uh you know re-entries on a soyuz

158

00:09:31,910 --> 00:09:28,560

in it but it seemed to

159

00:09:37,190 --> 00:09:31,920

to be exactly uh as as advertised as

160

00:09:39,590 --> 00:09:38,150

so what's gonna be the first thing

161

00:09:41,990 --> 00:09:39,600

you'll do once you get back to uh back

162

00:09:42,870 --> 00:09:42,000

home to houston oh hug my family

163

00:09:44,550 --> 00:09:42,880

so

164

00:10:29,509 --> 00:09:44,560

welcome back thanks thanks josh

165

00:10:29,519 --> 00:10:41,030

next

166

00:10:41,040 --> 00:10:58,790

foreign

167

00:11:11,509 --> 00:11:02,550

deputy head of the state commission

168

00:11:15,190 --> 00:11:12,829

andre

169

00:11:17,269 --> 00:11:15,200

ivanovich i would like to congratulate

170

00:11:21,110 --> 00:11:17,279

you on your successful mission

171

00:11:22,630 --> 00:11:21,120

successful landing and welcome back
