and after that he will have an

33
00:01:30,170 --> 00:01:25,320
opportunity to ask questions to the

34
00:01:32,840 --> 00:01:30,180
participants to today's conference good

35
00:01:35,780 --> 00:01:32,850
morning dear colleagues friends first of

36
00:01:38,960 --> 00:01:35,790
all I'd like to congratulate all of us

37
00:01:41,780 --> 00:01:38,970
to meet you can put us on the successful

38
00:01:44,780 --> 00:01:41,790

ending of dynamic operations and docking

39

00:01:46,760 --> 00:01:44,790

volume this is something that you have

40

00:01:49,490 --> 00:01:46,770

been looking for during several months

41

00:01:51,859 --> 00:01:49,500

was this man and I'm glad this is over

42

00:01:56,300 --> 00:01:51,869

right now I'm left with the launch of

43

00:01:59,810 --> 00:01:56,310

the vehicle oh so she went smoothly and

44

00:02:01,880 --> 00:01:59,820

despite such strange weather for

45

00:02:06,800 --> 00:02:01,890

Baikonur it look like really Christmas

46

00:02:09,469 --> 00:02:06,810

time lots of snow no visibility now es

47

00:02:11,270 --> 00:02:09,479

colleagues said that during such weather

48

00:02:14,180 --> 00:02:11,280

would not normally leave our hotel rooms

49

00:02:17,120 --> 00:02:14,190

and what ug launch space vehicles

50

00:02:19,280 --> 00:02:17,130

but the other thing is nominal and I'm

51
00:02:23,270 --> 00:02:19,290
glad you're able to see that docking

52
00:02:27,290 --> 00:02:23,280
occurred perfectly nominally so now the

53
00:02:30,200 --> 00:02:27,300
crew has been expanded to six sir true

54
00:02:33,260 --> 00:02:30,210
justice six-member crew and we expect

55
00:02:36,920 --> 00:02:33,270
that on their 22nd three crew members

56
00:02:39,320 --> 00:02:36,930
will return to the ground you those guys

57
00:02:41,750 --> 00:02:39,330
who are now aboard who now we just

58
00:02:44,570 --> 00:02:41,760
docked they have very short hand over

59
00:02:46,490 --> 00:02:44,580
which is a shorter than usual but

60
00:02:50,630 --> 00:02:46,500
however we're pretty confident they will

61
00:02:53,990 --> 00:02:50,640
be able to cope with everything and they

62
00:02:57,290 --> 00:02:54,000
will have to fly as a three-member crew

63
00:03:00,620 --> 00:02:57,300

until mid-december busca de las furiosa

64

00:03:03,680 --> 00:03:00,630

and the good i will have next launch

65

00:03:05,930 --> 00:03:03,690

scheduled on december 21st and darken on

66

00:03:08,770 --> 00:03:05,940

the 23rd so once again loud you can

67

00:03:11,900 --> 00:03:08,780

relate all the participants to this work

68

00:03:15,410 --> 00:03:11,910

it involves many specialists both

69

00:03:18,199 --> 00:03:15,420

Russian and from abroad and I back again

70

00:03:19,580 --> 00:03:18,209

72

00:03:23,030 --> 00:03:21,030

have not to give floor to mr.

73

00:03:25,729 --> 00:03:23,040

Gerstenmaier you feel not against it

74

00:03:27,860 --> 00:03:25,739

again I'd like to congratulate our

75

00:03:29,930 --> 00:03:27,870

Russian colleagues on a tremendous

76

00:03:32,120 --> 00:03:29,940

launch and docking until we showed us

77

00:03:34,130 --> 00:03:32,130

87

00:03:57,650 --> 00:03:54,810

tremendous job getting prepared and

88

00:03:59,509 --> 00:03:57,660

period of raining Oh what I'm pretty

114

00:04:59,830 --> 00:04:57,270

close to a person dear colleagues

115

00:05:02,060 --> 00:04:59,840

questions please Helia do play with them

116

00:05:04,580 --> 00:05:02,070

with that gun is observer from the

117

00:05:07,250 --> 00:05:04,590

enterprise agency first of all I'd like

118

00:05:08,990 --> 00:05:07,260

to insulate everybody on the successful

119

00:05:11,360 --> 00:05:09,000

docking thank you for not president the

120

00:05:14,150 --> 00:05:11,370

launch but we could say on TV that there

121

00:05:15,950 --> 00:05:14,160

was nothing to be seen the vehicle went

122

00:05:17,840 --> 00:05:15,960

into the sky good and I'm glad that

123

00:05:21,860 --> 00:05:17,850

everything went well who have a question

124

00:05:24,890 --> 00:05:21,870

to mr. ish koushik off regarding the way

125

00:05:27,260 --> 00:05:24,900

for you or the newly arrived crew

126

00:05:28,850 --> 00:05:27,270

members who could feel because that was

127

00:05:30,950 --> 00:05:28,860

their first time on the service vehicle

128

00:05:33,530 --> 00:05:30,960

for all of them receive over cross this

129

00:05:35,840 --> 00:05:33,540

fitna session and she really thank you

130

00:05:39,410 --> 00:05:35,850

for a question this is a very evident

131

00:05:43,280 --> 00:05:39,420

question whoever doing our best to

132

00:05:45,880 --> 00:05:43,290

prepare food and we also worried I must

133

00:05:49,010 --> 00:05:45,890

submit to the karate but i must say that

134

00:05:51,050 --> 00:05:49,020

they talk we had to be the crew rights

135

00:05:55,910 --> 00:05:51,060

prior to launch you convinced us that

136

00:05:58,160 --> 00:05:55,920

the crew were fully aware of what they

137

00:06:00,110 --> 00:05:58,170

are about to do they are very well aware

138

00:06:02,000 --> 00:06:00,120

of the difficult schedule which is in

139

00:06:04,820 --> 00:06:02,010

front of them of the shorthand of the

140

00:06:09,080 --> 00:06:04,830

period no no ponyo they will have

141

00:06:11,360 --> 00:06:09,090

chilled to you there we work people

142

00:06:13,640 --> 00:06:11,370

whether their preparations for the

143

00:06:15,740 --> 00:06:13,650

landing in the background yoga with you

144

00:06:18,160 --> 00:06:15,750

so they understand what they were going

145

00:06:22,180 --> 00:06:18,170

to do and were fully convinced that

146

00:06:25,490 --> 00:06:22,190

probably they were very optimistic and

147

00:06:28,760 --> 00:06:25,500

full of energy and eager to perform this

148

00:06:30,860 --> 00:06:28,770

work successfully put any regularly so

149

00:06:33,350 --> 00:06:30,870

this is very evident and could very well

150

00:06:35,330 --> 00:06:33,360

be seen during the

151
00:06:37,550 --> 00:06:35,340
act right launched during the launch and

152
00:06:41,209 --> 00:06:37,560
during these two days prior to this

153
00:06:43,429 --> 00:06:41,219
successful docking today and over again

154
00:06:47,209 --> 00:06:43,439
completions to everybody we would like

155
00:06:51,429 --> 00:06:47,219
to wish all the best also for the 22nd

156
00:06:55,129 --> 00:06:51,439
of this month was a guru the landing

157
00:06:58,010 --> 00:06:55,139
that will take place let me show you I

158
00:06:59,929 --> 00:06:58,020
perhaps should mention this and not who

159
00:07:02,719 --> 00:06:59,939
I'm sure will ideal conditions but we'll

160
00:07:05,029 --> 00:07:02,729
do our best and we'll do at most thank

161
00:07:07,189 --> 00:07:05,039
you thank you questions please under

162
00:07:09,649 --> 00:07:07,199
questioning and you requested lack of

163
00:07:14,110 --> 00:07:09,659

players until a single episode like

164

00:07:17,209 --> 00:07:14,120

alpha news of cosmonautics banegas een

165

00:07:19,429 --> 00:07:17,219

latina member of the membrane school mr.

166

00:07:22,399 --> 00:07:19,439

Krasnov could you say a few words about

167

00:07:24,709 --> 00:07:22,409

the preparations for launch of the Kazak

168

00:07:26,390 --> 00:07:24,719

cosmonaut and the Iranian cosmic and a

169

00:07:30,740 --> 00:07:26,400

question to mr. Gerstenmaier would it

170

00:07:34,249 --> 00:07:30,750

leave Garoppolo dragana still expect a

171

00:07:37,700 --> 00:07:34,259

second flight of the Dragon vehicle with

172

00:07:40,430 --> 00:07:37,710

a talking to Isis and if yes then when

173

00:07:42,920 --> 00:07:40,440

we can this take place glutinosa me

174

00:07:46,790 --> 00:07:42,930

first of all regarding Iran are you our

175

00:07:48,920 --> 00:07:46,800

flights for two colleagues from Ukraine

176

00:07:50,839 --> 00:07:48,930

and from Kazakhstan you had to pull in

177

00:07:54,379 --> 00:07:50,849

the right talk with the respective

178

00:07:56,600 --> 00:07:54,389

agencies but unfortunately you to

179

00:07:59,950 --> 00:07:56,610

certain financial restrictions you feel

180

00:08:03,769 --> 00:07:59,960

better mere sath we can I took place

181

00:08:06,820 --> 00:08:03,779

during the very well known events at the

182

00:08:10,279 --> 00:08:06,830

financial markets in 2008 these

183

00:08:12,290 --> 00:08:10,289

agreements were not fully executed I'm

184

00:08:15,920 --> 00:08:12,300

talking about are they Kazakhstan

185

00:08:17,149 --> 00:08:15,930

Republic the Kazak Republic so even

186

00:08:20,600 --> 00:08:17,159

though we understand that this
