tape uh that captured the hatch opening

4
00:00:27,429 --> 00:00:26,240
and greetings between the two crews that

5
00:00:31,669 --> 00:00:27,439
occurred

6
00:01:14,310 --> 00:00:31,679

12
00:01:30,950 --> 00:01:28,880
as you can see volkov

13
00:01:32,230 --> 00:01:30,960

positioning the hatch he will join

14

00:01:33,670 --> 00:01:32,240

fossum here

15

00:01:36,069 --> 00:01:33,680

again this was videotape that was

16

00:01:38,789 --> 00:01:36,079

recorded just a short time ago

17

00:01:41,030 --> 00:01:38,799

at the time of hatch opening

18

00:01:43,429 --> 00:01:41,040

26

00:02:45,350 --> 00:02:42,800

and as we discussed it on the ground we

27

00:02:47,110 --> 00:02:45,360

had no doubts whatsoever that everything

28

00:03:03,110 --> 00:02:47,120

will be nominal

29

00:03:08,470 --> 00:03:05,670

this is christina

108
00:07:17,909 --> 00:07:14,160
hello christina

109
00:07:23,510 --> 00:07:21,110
we are doing great we have just

110
00:07:25,749 --> 00:07:23,520
joined the crew on board the iss and

111
00:07:27,670 --> 00:07:25,759
this is the press conference

112
00:07:29,589 --> 00:07:27,680
so it actually keeps us in great shape

113
00:07:31,589 --> 00:07:29,599

we have a lot of work ahead of us and we

114

00:07:35,430 --> 00:07:31,599

are going to work very actively

115

00:07:38,309 --> 00:07:35,440

and what are you flying over right now

116

00:07:39,670 --> 00:07:38,319

right now we are flying over

117

00:07:54,790 --> 00:07:39,680

australia

118

00:08:00,309 --> 00:07:56,550

how are you doing tanya

119

00:08:03,270 --> 00:08:00,319

how do you feel i feel very great

120

00:08:05,189 --> 00:08:03,280

i don't even feel that i'm not inside

121

00:08:07,189 --> 00:08:05,199

the mock-up i don't even feel we're not

122

00:08:08,070 --> 00:08:07,199

a jctc

123

00:08:12,550 --> 00:08:08,080

and

124

00:08:15,589 --> 00:08:12,560

is the view great from space oh this

125

00:08:17,990 --> 00:08:15,599

the view is uh breathtaking but i didn't

126
00:08:19,430 --> 00:08:18,000
have a chance to enjoy it too much yet

127
00:08:21,670 --> 00:08:19,440
because it will be there

128
00:08:24,309 --> 00:08:21,680
how was your flight from baikonur was

129
00:08:27,909 --> 00:08:24,319
there snow was there

130
00:08:29,749 --> 00:08:27,919
bad weather no by lunchtime

131
00:08:33,589 --> 00:08:29,759
they were they calmed down there was no

132
00:08:33,599 --> 00:08:36,630
it was excellent

133
00:08:43,430 --> 00:08:39,670
if there was no snow and if there was no

134
00:08:45,509 --> 00:08:43,440
wind then why did we fly out it just

135
00:08:47,670 --> 00:08:45,519
seemed to us that there was some okay

136
00:08:49,509 --> 00:08:47,680
this is sweeter for you okay many hugs

137
00:08:56,070 --> 00:08:49,519
and kisses

138
00:09:02,550 --> 00:08:58,550

uh we're very happy that everything is

139

00:09:04,949 --> 00:09:02,560

fine dear anatoly we love you

140

00:09:06,870 --> 00:09:04,959

it's really a great pleasure to see you

141

00:09:09,590 --> 00:09:06,880

we are so happy

142

00:09:12,949 --> 00:09:09,600

for your success we're very happy that

143

00:09:15,110 --> 00:09:12,959

you made it safely into space

144

00:09:19,910 --> 00:09:15,120

and

145

00:09:19,920 --> 00:09:27,350

is that the

146

00:09:32,870 --> 00:09:30,389

with food so antoine actually

147

00:09:36,470 --> 00:09:32,880

shared his skin with us and that's why

148

00:09:37,829 --> 00:09:36,480

we are so happy until you are such a

149

00:09:39,509 --> 00:09:37,839

great friend

150

00:09:41,590 --> 00:09:39,519

you gave it

151
00:09:43,750 --> 00:09:41,600
your food to your crewmates to keep them

152
00:09:46,470 --> 00:09:43,760
happy

153
00:09:48,710 --> 00:09:46,480
well we had some concerns

154
00:09:49,670 --> 00:09:48,720
of course because some people are saying

155
00:09:52,310 --> 00:09:49,680
that

156
00:09:54,870 --> 00:09:52,320
people don't eat so well in space but

157
00:09:57,590 --> 00:09:54,880
maybe have the opposite processes but

158
00:09:59,750 --> 00:09:57,600
actually we had no problems whatsoever

159
00:10:01,110 --> 00:09:59,760
and everything we had inside the vehicle

160
00:10:03,509 --> 00:10:01,120
we have eaten

161
00:10:06,389 --> 00:10:03,519
and then sergey prepared some good food

162
00:10:07,269 --> 00:10:06,399
for us onboard the iss

163
00:10:09,750 --> 00:10:07,279

thank you

164

00:10:14,550 --> 00:10:09,760

daniel how are you doing

165

00:10:14,560 --> 00:10:25,829

better

166

00:10:31,350 --> 00:10:28,470

we're very happy to greet you

167

00:10:33,350 --> 00:10:31,360

and thank you for taking care of our

168

00:10:35,670 --> 00:10:33,360

husbands

169

00:10:38,470 --> 00:10:35,680

and we're wishing you all the best

170

00:10:40,550 --> 00:10:38,480

we give you all a big hug

171

00:10:45,190 --> 00:10:40,560

yes and we love you too

172

00:10:50,310 --> 00:10:47,750

and this is your mom talking hello

173

00:10:52,710 --> 00:10:50,320

mommy's here

174

00:10:54,069 --> 00:10:52,720

we're very happy

175

00:10:55,990 --> 00:10:54,079

good luck

176

00:10:56,949 --> 00:10:56,000

yes we are very happy

177

00:11:05,590 --> 00:10:56,959

we are

178

00:11:10,470 --> 00:11:07,910

is actually quite big we have enough

179

00:11:11,670 --> 00:11:10,480

room to move around and we're very happy

180

00:11:13,190 --> 00:11:11,680

to be here

181

00:11:16,710 --> 00:11:13,200

okay all the best

182

00:11:23,430 --> 00:11:20,069

this is vlad hello

183

00:11:28,150 --> 00:11:25,670

i'm very happy you made it safely that

184

00:11:31,110 --> 00:11:28,160

everything was excellent

185

00:11:34,310 --> 00:11:31,120

and my classmates at the university have

186

00:11:35,509 --> 00:11:34,320

been asking so many questions but

187

00:11:37,430 --> 00:11:35,519

nothing to do

188

00:11:39,269 --> 00:11:37,440

oh you haven't been kicked out of the

189

00:11:40,550 --> 00:11:39,279

school yet

190

00:11:42,870 --> 00:11:40,560

so the leave

191

00:11:44,470 --> 00:11:42,880

note helped well during the launch

192

00:11:45,350 --> 00:11:44,480

actually

193

00:11:51,750 --> 00:11:45,360

daddy thank you so much

229

00:13:29,590 --> 00:13:25,430

since you're here talking to me i see

230

00:13:31,670 --> 00:13:29,600

that you had no trouble leaving baikonur

231

00:13:35,110 --> 00:13:31,680

and you made it safely to moscow

232

00:13:35,990 --> 00:13:35,120

and taking this opportunity i wanted to

233

00:13:36,629 --> 00:13:36,000

thank

234

00:13:38,629 --> 00:13:36,639

you

235

00:13:41,350 --> 00:13:38,639

my friends for taking

236

00:13:43,670 --> 00:13:41,360

such good care

237

00:13:51,030 --> 00:13:43,680

of that

238

00:13:54,550 --> 00:13:52,949

i can say that you guys are the most

239

00:13:57,110 --> 00:13:54,560

handsome crew with the exception of

240

00:13:58,389 --> 00:13:57,120

expedition 20.

241

00:13:59,350 --> 00:13:58,399

oh thank you

242

00:14:00,949 --> 00:13:59,360

certainly

243

00:14:03,430 --> 00:14:00,959

the chance to get up there and

244

00:14:04,949 --> 00:14:03,440

experience that magnificent station and

245

00:14:06,870 --> 00:14:04,959

i hope you guys have some great times

246

00:14:08,790 --> 00:14:06,880

around the table before you uh draw a

247

00:14:10,710 --> 00:14:08,800

part company and wait for the necklace

248

00:14:13,189 --> 00:14:10,720

but everybody looks wonderful

249

00:14:18,310 --> 00:14:13,199

well thanks very much yeah we're going

251
00:14:23,350 --> 00:14:21,199
to treasure the couple of days we're

252
00:14:25,590 --> 00:14:23,360
going to have together but uh

253
00:14:27,189 --> 00:14:25,600
but i know that mike and sergey and

254
00:14:29,509 --> 00:14:27,199

international space station dan burbank

332

00:19:26,549 --> 00:19:23,840

of nasa and russian cosmonauts anton

333

00:19:29,669 --> 00:19:26,559

shkaplerov and anatoly ivanishin now

334

00:19:31,590 --> 00:19:29,679

completed uh the congratulatory calls

335

00:19:32,789 --> 00:19:31,600

roughly in chronological order came from

336

00:19:35,430 --> 00:19:32,799

the head of the

337

00:19:38,230 --> 00:19:35,440

russian federal space agency roscosmos

338

00:19:39,830 --> 00:19:38,240

that would be vladimir popovkin

339

00:19:41,510 --> 00:19:39,840

bill gerstenmaier the associate

00:19:43,350 --> 00:19:41,520

administrator for human exploration

341

00:19:44,549 --> 00:19:43,360

operations out of nasa headquarters in

342

00:19:46,630 --> 00:19:44,559

washington

343

00:19:47,990 --> 00:19:46,640

uh mike fossum uh

344

00:19:49,990 --> 00:19:48,000

replying to

345

00:19:53,110 --> 00:19:50,000

bill gerstenmaier that he's looking

346

00:19:55,510 --> 00:19:53,120

forward to seeing him soon referencing

347

00:19:57,430 --> 00:19:55,520

the landing coming up for fossum and his

348

00:19:59,830 --> 00:19:57,440

crewmates sergey volkov and satoshi

349

00:20:02,310 --> 00:19:59,840

furukawa who will come back to earth

350

00:20:05,190 --> 00:20:02,320

next monday night u.s time just before

351
00:20:06,950 --> 00:20:05,200
sunrise kazakhstan time next tuesday

352
00:20:09,590 --> 00:20:06,960
morning

353
00:20:11,750 --> 00:20:09,600
dan burbank uh now on the international

354
00:20:13,590 --> 00:20:11,760
space station beginning his four-month

355
00:20:16,630 --> 00:20:13,600
stay on board with shkaplerov and

356
00:20:19,430 --> 00:20:16,640
ivanishin uh referenced the fact that

357
00:20:21,270 --> 00:20:19,440
that it was a great ride uphill in what

358
00:20:22,310 --> 00:20:21,280
amounted to a whiteout blizzard

359
00:20:23,909 --> 00:20:22,320
condition

360
00:20:26,310 --> 00:20:23,919
down in the baikonur cosmodrome in

361
00:20:27,190 --> 00:20:26,320
kazakhstan two days ago

362
00:20:29,590 --> 00:20:27,200
and then

363
00:20:31,909 --> 00:20:29,600

families of the cosmonauts

364

00:20:34,950 --> 00:20:31,919

and other officials here uh

365

00:20:37,190 --> 00:20:34,960

one by one said hello and

366

00:20:39,909 --> 00:20:37,200

offered best wishes to the crew

367

00:20:42,630 --> 00:20:39,919

starting with anton shkaplerov's

368

00:20:44,710 --> 00:20:42,640

daughter and a reference to the bird

369

00:20:47,430 --> 00:20:44,720

urging her father to take good care of

370

00:20:49,830 --> 00:20:47,440

her bird that would be the talisman that

371

00:20:51,430 --> 00:20:49,840

hung over the center seat of the soyuz

372

00:20:54,149 --> 00:20:51,440

tma-22

373

00:20:54,950 --> 00:20:54,159

during the ascent and climbed to orbit

374

00:20:57,350 --> 00:20:54,960

that

375

00:20:58,390 --> 00:20:57,360

provides the crew an opportunity

376

00:21:01,590 --> 00:20:58,400

to

377

00:21:03,510 --> 00:21:01,600

make sure that they are in a

378

00:21:05,029 --> 00:21:03,520

a gravity environment experiencing

379

00:21:07,350 --> 00:21:05,039

g-forces and then of course it goes

380

00:21:10,390 --> 00:21:07,360

weightless as orbital insertion is

381
